London and West Huron in Evidence.

The Toronto News, a Conservative journal, has misread history, and lacks knowledge of the law, if it believes, as it professes to believe, that there is analogy between the Dominion election outrage in this city, by means of which Mr. Hyman was cheated out of his seat, and the irregularities in the West Huron election case. Says our contemporary:

Liberals had a grievance against Judge Elliot, of London, for counting the minority candidate in on nt, but that was not quite the equal of the present proceeding by the registrar of West Huron. If a returnng officer can disfranchise three polling subdivisions because of the failure of his assistants to perform their ty, representative government is a thing of the past."

Let us briefly recapitulate the facts in the two cases: The charge against the returning officer in the West Huron election is

that he failed to take into account in his official return the statements of three polls which had not been signed by the deputy returning officers, and thereby declared Mr. Garrow elected. By section 117 of the Ontario Election | The Old Game That Is Being is defined, and it seems to us that he clearly acted within the law. He is bound not to touch the ballots, which are sealed up when they reach him, and he has to rely on the signed statements of the deputy returning officers in the poll books. As some of them failed to sign their poll books the returning officer was debarred from counting them in his summary. That such failure to observe the law by deputy returning officers cuts both ways, and can scarcely be charged to partisanship, is exemplified by an experience in North Ontario, where, owing to a similar occurrence to that which took place in West Huron, a division giving a good Liberal majority was not counted by the returning officer.

The fairness of the Ontario law lies in this, however: An acts of those till someone gets his hands on them; charged with the administration of the then comes the rub." statute can be promptly subjected to | If there were no disappointed United review of a higher authority, and jus- States chartermongers, or greedy Yan- Ross, minister of where a candidate had a grievance, as belongs to the Canadian manufacturer stability of the government. We are now told that the Franchise Act, fitting complement to Conservative majority in the Senate the gerrymander of 1885, to do as it pleased him, and he did it.

Our contemporary will perceive the difference that there is between the conditions governing the acts of the returning officer of West Huron and the revising officer of London, and the absurdity, if not unwisdom, in view of all the facts, of making any comparison millions of dollars in cash, and its perbetween the conduct of the two men.

Our city contemporary the Free Press now realizes the danger of anyone going into the business of manufacturing evidence to the hurt of Col. Leys, M.P.P. Anglo-Canadian Trade Increase. The most satisfying news from Britain today is the great increase in trade between Canada and the mother coun-

try. There are big advances in both the imports from and exports to the Dominion, and the cablegram makes the significant announcement that the preferential tariff, put in force by the Laurier Government, is now beginning to get in its work. The enormous advantage of that beneficial unifying agency will be better seen when it comes fully into force next July. Our trade with Britain will be much increased before the present year ends.

-Says Mr. Robillaird. "I'm out of the field to stay; I wish you all good day."

Mr. W. J. Tyrell, the famous explorer, has this to say about the Hudson Bay district, lying north of settled Ontario: The animals to be found there lynx, sable, fisher monk, weasel, erbear, brown bear, walrus, square flipper seal, ring seal, fresh water seal, white whale, sea unicorn, and right whale, worth \$15,000 apiece. According to Mr. Tyrell, these whales are being ruthlessly killed by the United States poachers. The lakes of the district teem with fish, and trout of 25 pounds weight, and whitefish of 14 pounds are every day matters.

### Played to Kill Canada's Trade With the Yukon.

Mr. Edward Gurney, the 1897 president of the Toronto Board of Trade, who is a Conservative, considers the Government's Yukon Railway bargain a good thing. Mr. Gurney says: "I think that if the Canadian Government had advertised for tenders upon the basis of giving 3,700,000 acres of land with the other conditions that attach to this contract, and had called upon people to bid in the usual way, providing a cash payment for any increase in the terms of the offer, the whole thing would have any time within the past year been taken as a piece of humor, and the people who are howling most loudly now would have been the loudest laughers at the absurd proposition. The names of Mr. St. John, late of West York, and of Mr. A. E. Fripp, of Ottawa, are spoken of as possible candidates against Mr. Guibord, but the election of the latter is now a foregone conclusion. Hon. George W. Ross will speak at the nomination proceedings at Duncan-

The names of Reeve Marier, Mr. Benj. Rothwell and ex-Mayor Durocher were submitted to the meeting, but no satisfactory arrangement was reached, and it was finally decided to leave the matter over until nomination day, and in the meantime obtain the advice of Mr. Whitney.

The reverses, Mr. Ross said, were not owing to any want of confidence in the leaders of the party or in their policy, but rather to local dissensions and in some cases to over-confidence. It is true, he said, that two ministers have been defeated, but at the same time Mr. Whitney has lost five of his most active supporters, viz., St. John, Magwood, Meacham, Kerns, Willough-

# McKinley's Course

In Regard to Cuba and the Spanish Government

Queen in a Special Message.

Washington, D. C., March 10.-Much conjecture has been indulged in touching the visit paid to the White House by the British ambassador yesterday. The Washington Post Thursday morning says on this point: "Queen Vichas, through Sir Julian efote, conveyed to Presi-Pauncefote, dent McKinley her gratification at the wise and conservative course which he has thus far pursued in relation to the Cuban and Spanish situation. She also expressed to him her thorough sympathy with the efforts put forth by the United States to relieve suffering humanity in Cuba, with the hope that these endeavors must be conducted to a successful conclusion without war. These expressions were not sent in official form. They would have been communicated through Mr. Hay, the United States ambassador to Great Britain, but for the fact that he is absent on a voyage up the Nile. They were therefore communicated directly to Sir Julian, with the request that he present them in person to the president. There has been no correspondence with this government on the subject, so that the Queen's sentiments The Scottish-Irish Minister and the of the Queen that war should be avoided was emphasized for several reasons. It was pointed out that the commercial relations of Great Britain with the be jeopardized by a war between this country and Spain.

"The reply of the president ex-pressed his pleasure at the utterances of the Queen, with the additional statement that he also hoped war would be avoided. Public announcement of the real purpose of the ambassador's visit have een avoided, and a denial of the fact that it had relation to the present crisis has been made because it was feared that the friendly utterance might be misconstrued. It was thought that the approval given by the Queen to the president's course might be distasteful in certain quarters and might be regarded as unduly influencing the president's action in the future. There was another reason, however, which had its weight in the direction of an opportunity to display it. An opain goes further in this matter than a mere expression of good wishes. There is a desire, which has yet only reached the stage of tentative suggestion, that an alliance may be formed between Great Britain and the United States.
