British Columbia's Offer.

War Office to British Columbia's offer of a nundred mounted rifles. The impression presaits in official circles that the impression pression is the people of the Pacific Province. It is held, therefore, that it would be unfair to British Columbia to draw upon the province for men and horses for the High Commissioner's contingent when a separate force is to be organized and equipped there.

As a squadron numbers 163 officers and men on a war footing, it is thought that Stratacom's Rifles will consist of three complete squadrons.

"Thad for years patiently borne the disgrace, suffering, misery and privations due to my husband scirniking habits. Hearing of your marvelous remedy for the cure of drunkenness, which I could give my husband secretly. I decided to try it. I procured a package and mixed it in his food and coffee, and, as the remedy was odorless and tasteless, he did not know what it was that so quickly relieved his craving for liquor. He soon began to pick up flesh, his appetite for solid food returned, he stuck to his work regularly, and we now have a happy home. After he was completely cured I told him of the deception I had practised on him, when he acknowledged that it had been his saving, as he had not the resolution to break off of his own accord. I heartily advise all women afflicted as I was to give your remedy a trial."

Ottawa, Jan. 26.—Col. Steele and Dr. McEachren, Dominion Veterinary Inspector, will go west this week, proceeding first to MacLeod, then to Pincher Creek, High River and Calgary, working east from the latter point. Telegraphic communication has been had with the different points in the west, so that when Colonel Steele and Dr. McEachren arrive at the places mentioned they hope to find both men and horses awaiting them.

The ranching companies are permitting Dr. McEachren to take the pick of the stock on the ranches. This was done by the Walrond Ranch Company in connection with the purchase of horses for the second battalion of mounted rifles, which passed thru Ottawa last Friday, and led to the selection of a splendid class of animals. The other points to be visited in the Northwest are not yet named, but it is probable that some animals will be purchased in Mantioba and some recruiting done there.
