WOMEN PLAN TO HOLD SERIES OF MEETINGS

Gatherings Will Be Held in Various Wards to Help Recruiting.

At a meeting of the Toronto branch of the Women's Emergency Corps, held yesterday afternoon at the Sherbourne House Club, plans were discussed for holding a series of ward meetings with a view to helping recruiting. Mrs. Willoughby Cummings was in the chair.

It was explained that machinery was ready in every ward and that it was thought that halls would be available.

Mrs. Cummings thought that the presence of children over 14 years of age, who belonged to the families of soldiers overseas or returned soldiers, ought to be an incentive to those who might be present at the gatherings.

After a good deal of discussion it was decided that the meetings should express themselves strongly in favor of conscription, and a committee was appointed to look after details and to arrange for the women, who should speak. Returned soldiers will also be an appealing feature at the ward meetings.

The True Estimate of Milk Service

A milk service to be complete must combine milk quality, reasonable price and efficient delivery.

From the day the Farmers' Dairy was organized we have succeeded in maintaining a milk service that has won the unstinted approval of our hundreds of customers. Service is the keynote of our institution.

On the farms of our shareholders service is supreme. Only the healthiest cows are kept. The greatest care is exercised in milking the cows and in shipping the milk to the dairy in sterilized and sealed cans. At the dairy the milk is scientifically pasteurized, cooled and bottled by machinery—no hands touch it. All this because quality and cleanliness count.

Delivery has an important place in service. We have therefore organized a splendid delivery system. Milk is delivered regularly every day by courteous salesmen on the White Farmers' Dairy wagons. A notable result of our service is the day delivery instituted for the benefit of our patrons during the winter months.

Another way in which we have successfully striven to serve the people of Toronto efficiently is by keeping down the price of milk. It was partly for this reason that the leading farmers of Ontario formed the Farmers' Dairy. From the men who milk the cows to the salesmen who deliver the milk, service permeates the organization.
