ST. JOHN DELEGATION FOUGHT WARD SYSTEM BILL THIS MORNING

Strong Application for Reference to a Plebiscite Made to Municipalities Committee at Fredericton --- Committee Will Consider.

FREDERICTON, March 22.—The St. John delegation composed of A. O. Skinner, Dr. A. D. Smith, J. H. McRobbie, O. H. Warwick and Ald Vanwart were heard in opposition to the St. John Election Bill by the Municipalities Committee this morning. A. O. Skinner, who spoke first, thanked the committee for the privilege of being heard. He said the election bill which has been asked and passed, is a restriction of the rights of the citizens. They now had the right to vote for fifteen aldermen, but the bill passed they could only vote for one in addition to the aldermen at large. He pointed out that there were precedents for the course he was asking the legislature to pursue. He contended that no injury would be done if the legislature attached a clause to the bill referring it to the people. Personally he thought that action on the bill should be deferred until the next session when a civic tax bill based on a report of the tax commissioners would likely be before the house.

A ROBBERY IN ST. LUKE'S North End Church Entered and Collection Boxes Robbed.

Robberies happen quite frequently but it happens rarely that the collection boxes in a church are robbed. Such, however, was the case one day last week when someone relieved the boxes in St. Luke's church of their contents. It is customary for the church to remain open during the day time and about a week ago someone, evidently familiar with the surroundings, went in and obtained an amount somewhat under \$5 from the paper boxes, in which copers and small silver pieces are deposited. The robbery was committed in broad day light as the church is closed during the night.

GRIM RECORD OF VICTIMS CLAIMED BY STORMS IN MARITIME COAST WATERS

BOSTON, March 22.—A total of 190 lives and 54 ships have been sacrificed to the storms and the treacherous coasts of Newfoundland and the Maritime Provinces for the winter just ended, according to the statistics compiled by the Associated Press today, of the vessels. No account has been taken of the dozens driven ashore and later floated, and figures do not include the loss in Connecticut waters. The long list of dead is swollen out of all proportion to that of many previous years by the sinking of the steamer Laramont in Block Island Sound, the night of Feb. 11,

with an estimated loss of 150 lives. This was the one great disaster of the season in these waters, the largest loss of life in any other single wreck occurring in the founding crisis of this month of the Newfoundland schooner Harry Louis with her entire crew of eight men.

THE TIMES NEW REPORTER

and the city engineer assure me that the old system worked admirably. Of course the people had more time in those days. Life wasn't so strenuous, but any man with his eyes open can see that this town is still sizzling with civic energy looking for an outlet. I proposed that we send up an urgency bill providing for the issue of debentures to build an amphitheatre where the people can meet and every man be an alderman.
