COURSE OF INSTRUCTION.

Before being admitted to this Institution, pupils must pass a satisfactory examination in the subjects of Arithmetic, Reading, Writing, Spelling, Geography and English Grammar.

This Institution is designed to give a sound practical English education, to fit young men for Agricultural and Mercantile pursuits, and also to prepare students for Matriculation in Arts, Law and Medicine. As St. Francis is affiliated to McGill University, Montreal, students of the College are enabled to enter for their second or third year at that University.

There are five courses, extending over three years, viz.—

I. English Course, embracing Arithmetic, English Grammar and Literature, Algebra, Geometry, Natural Philosophy, Reading, Writing, Spelling, History, (Canadian and English), Geography, Composition, Physiology, French, Drawing, and Declamation.

II. Commercial Course, Book-keeping in all its branches, Banking and Exchange, in addition to the English Course.

III. Agricultural Course, Chemistry, Potany, Theoretical and Practical Agriculture, Mensuration, Levelling, Veterinary Surgery, and Rural and Municipal Law, in addition to English Course.
