**UNITED STATES COMING INTO REALIZATION THAT GERMANY IS GUILTY OF THE CRIMES CHARGED**

The following article, spread across the upper half of the Cleveland Press, published in a city that has a very large German population, shows how the feeling is spreading over the United States that the crimes attributed to Germany have actually been committed, and that American sympathy should go out to the victims.

We propose that the congress of the United States at once appropriate \$100,000,000 for the relief of non-combatants in those countries of Europe which have been occupied by enemy soldiers and that the president be authorized to appoint a relief commission to spend the money where it is most needed.

Millions upon millions of men, women and children in Belgium, in northern France, in Serbia, in Poland and in other devastated territory are slowly dying of starvation and exposure.

Of all the great nations of the world the United States is the only one that has been deaf to the pitiful appeals of these suffering millions of human beings.

We are the richest nation in the world.

**S.O.S. CALL—LEAKING BADLY.**  
 During the recent bad storm our wife was kept busy answering distress calls for rubbers. Leaky or nearly leaky rubbers may be good enough for frozen ground but it pays to have a sound pair of our good rubbers handy when the weather changes. Fair prices prevailing. Wier's Cash Store, 248-249 Union Street.

are also spending huge sums to feed and clothe the stricken people of Serbia and Poland.

The British colonies—Canada, Australia and New Zealand—also have appropriated large sums for this noble purpose.

All these nations and colonies are doing this at a time when every dollar kept busy answering distress calls for rubbers. Leaky or nearly leaky rubbers may be good enough for frozen ground but it pays to have a sound pair of our good rubbers handy when the weather changes. Fair prices prevailing. Wier's Cash Store, 248-249 Union Street.

They could be forgiven if they said we must let the Belgians and the Poles and the Serbians starve because our first duty is to our own people and we cannot help both.

But how, in the name of all that is noble, can a nation that is wallowing in wealth, that is at peace, that claims to be Christian, continue to evade its duty to suffering humanity and at the same time keep its self-respect, much less the respect of the rest of the world?

We are tempted to go into the details of the situation as it exists among these stricken peoples; to republish in this place the full report of the commissions which are doing their best to keep the people of Belgium and Poland alive but who are so restricted in their efforts because of lack of money that they can do but a small part of what is necessary to do so.

We assure, however, that most of our readers are familiar with this and that it is unnecessary at this time to prove the terribly urgent need.

Just an instance: Herbert C. Hoover, the American in charge of the Belgian relief commission, arrived in this country a few days ago. In an interview he said: "The situation in Belgium is the worst since the beginning of the war. I have come home to ask Americans to do their share in raising between \$100,000,000 and \$200,000,000 needed to feed the destitute."

From what we can learn the situation in Poland and Serbia is as bad or worse.

One hundred million dollars now! Let that be America's answer!

**GOVERNMENT LOANS TO FARMERS**  
 (Toronto Globe)

Saskatchewan is making a courageous and important departure in creating a Farm Mortgage Board to provide loans to farmers for legitimate agricultural purposes. The loans will be made from a fund provided by a bond issue, and the rate of interest will be sufficient to cover cost and expenses. Interest and principal will be combined so that thirty annual payments will liquidate the debt. Like most governmental excursions into the field of private enterprise, safety and success will depend on management. Lending is always uncertain, and the continuing influence of private interests has generally been regarded as necessary to prevent abuse. But if the loans are restricted to farmers already on the land, and are advanced under sufficient supervision to insure the use of the money in stocking, equipping, and otherwise preparing for increased production, material losses can be avoided.

It will be necessary to provide against the use of such loans in the buying of land. This would introduce and encourage a speculative element ultimately disastrous. If speculators knew the farmers could borrow public funds to buy land there would be an immediate stimulus to pre-emption. The money should not be so advanced that it can be diverted, even indirectly, to payments for farming areas.

**The Man Who Puts The "Deal" Through**

must be ready physically and mentally.

This readiness depends to a great degree on sound nourishment—food that includes those "vital phosphates" so essential to sturdy energy, but which are often lacking in the usual dietary.

The famous food—

**Grape-Nuts**

made of wheat and malted barley, retains and supplies, as does no other food in such splendid proportions, all the nourishment of the grains. It includes potash for brain and nerves, iron for the blood, lime for the bones, and other most necessary mineral elements.

Grape-Nuts has a wonderfully delicious flavor, is easily digested, and comes ready for the table. With cream or milk it makes a splendidly balanced ration.

**Every table should have its daily ration of Grape-Nuts—**

**LOCAL NEWS**

Messrs. T. McAvity & Sons, Ltd., have donated the sum of \$80 to the Firemen's Relief Association in recognition of the department's work at a recent fire in their plant in Water Street.

F. G. Spencer returned to the city on the late train on Saturday evening. Speaking of the fire in the theatre at Amherst, which he controls, he placed the loss at about \$8,000. The building was valued at \$35,000 and was built only five years ago. It was the property of John H. V. Moore. The losses of both were partly covered by insurance. Mr. Spencer had a twenty years lease on the house.

The home of Rev. and Mrs. F. H. Wentworth was unexpectedly invaded on Saturday evening by a large company of the members of Waterloo street Baptist church. It was the anniversary of Mrs. Wentworth's birthday and the surprise was to wish her many happy returns of the day. An envelope was handed to Mrs. Wentworth containing a good sum of money. A dainty repast was served.

Word has been received in the city that Harold S. Clark, Edmund V. Loney, J. Nugent and F. J. Scully, of St. John, have successfully passed their final examination in medicine at McGill University, Montreal, and are now full fledged doctors. The convocation is to be held tomorrow on which occasion the new M. D.'s will receive their diplomas. The many friends of the four young men will extend hearty congratulations to them.

"I'm trying out a new scheme."  
 "What is it?"  
 "I'm not making any more resolutions for the new year. I'm going to make bad ones."  
 "Why?"  
 "To see if I can break them as easily as I do the good ones."
