GUARANTEE FOR EXHIBITION IS RECOMMENDED

Acting Mayor Retains Right To Vote Against In Council

HYDRO MOTION IS BARRED BY CHAIR

Com. Wigmore Presented It On Reported Rumors of Contract Change

The City Council, sitting this morning in committee of the whole, decided to recommend the payment of a deficit of nearly \$1,500 on the 1925 exhibition and to guarantee any deficit on the 1926 exhibition, up to \$5,000 and a motion by Commissioner Wigmore that the council go on record as being opposed to any alteration of the present contract with the New Brunswick Electric Power Commission for the supply of current to the Civic Hydro Commission at 12 cents a k.w.h. was declared out of order by the chairman.

EXHIBITION MATTER

H. A. Porter and F. B. Schofield were present at the meeting in the interest of the Exhibition Association but were not called on to speak. Commissioner Harding presented the financial statement of the association which showed that last year there was a deficit of \$1,425.68 and moved this sum be paid by the city controller, with the guarantee of the city, when that official was satisfied the account was correct. This motion passed.

MOVES GUARANTEE

Commissioner Harding moved that the city guarantee up to \$5,000 for a possible deficit in 1926.

Commissioner Wigmore said it was unfortunate that this matter had not been attended to in January but he would second the motion.

Acting Mayor Frink said there seemed to be a lot of speed and haste manifested to get this through, for what reason he did not know, and he was reserving the right to vote against it in council.

TAXI BY-LAW TUESDAY

Commissioner Harding said he would like to have the taxi by-law passed up and disposed of.

The acting Mayor said this matter had been laid on the table in council and must be taken up again in council. He gave an understanding that the matter would be disposed of at the council meeting on Tuesday next, so far as he was concerned.

An appeal by Jacob M. Stein from his 1925 assessment was referred to the acting Mayor to arrange for a hearing.

HYDRO CONTRACT

Commissioner Wigmore said there was a matter which he would like to bring up and on which he intended to move a resolution. He felt that in view of rumors of possible changes in the present city contract for electric current the council should declare where it stood on the matter and move as follows:

In view of rumors in circulation in the city as to the attitude of the council on the question of hydro, and in order that the electors may know that I stand or fall on the carrying out of the present policy as voted upon by the people of this city on more than one occasion, I move that the 30 year contract at 12 per cent. K.W.H. be a very advantageous one and cannot be changed or altered except with the consent of the Common Council of the City of Saint John.

And Whereas, under the present contract the users of hydro alone, irrespective of the fact that the city is not the sole user, are paying more for electricity than the Civic Hydro Commission, which would amount to \$5,000, 000 in 30 years. Before our streets are much better lighted at no more cost than formerly.

And Whereas, we know what has happened in the City of Halifax through the action of members of the council, I would move that the council go on record as absolutely opposing any change in the present method of handling and distributing hydro and, unless some movement to have the present 30 year contract altered in a manner whatsoever.

Speaking to the motion, he said that it was true there had been an increase in the taxes under the regime of the present council, but the responsibility did not lie with them, but with the school board.

SAYS OUT OF ORDER

Commissioner Harding seconded the motion. Commissioner Bink said he was not in favor of any change in the present contract, but he could see no reason for the motion. So far as he knew, there was no intention on the part of anyone to make any change in the contract.

The acting Mayor declared the motion out of order.

The committee then adjourned.

SOUSA'S BAND MAY COME TO SAINT JOHN

Representative Here Looking Over Field in Hope of September Visit

William Schneider, treasurer for John Phillip Sousa and his famous band, is in the city today prospecting in the hope that some plans may be arranged whereby the big musical attraction may be heard in Saint John the latter part of next September, following a one-day engagement in Bangor. Mr. Bangor has long since been noted for its music festivals, indeed it is one of the festival zones of the American Union. Mr. Schneider is at the Admiral Beatty Hotel and has had some conferences already but no definite booking has yet been made. It is hoped to arrange for a Saint John, Moncton and Halifax visit.

It has been nearly 20 years since Mr. Sousa visited this city. Since that time his organization has traversed practically the whole world and as far as this continent is concerned has crossed from Atlantic to Pacific 84 times.

A musical enthusiast said this morning he recalls Sousa's Band playing a concert in St. Andrew's rink at an earlier date than the one referred to, in which the Oratorio Society sang several choral numbers. It was a memorable occasion in musical history of the city.

MEETING OF INTEREST

The Women's Missionary Society of the Douglas avenue Christian church held their Easter meeting on Tuesday evening at the home of Mrs. C. Pugh. An interesting program was carried out. SAILORS ILL

The Canadian Pacific freighter Brecon, which cleared yesterday for London with a full general cargo, and later anchored in the stream, will probably sail tomorrow for her destination. The departure was delayed owing to a slight outbreak of influenza among members of the crew, about eight of the sailors being taken ill. None was removed to the hospital, the sick men being treated on board by the ship's doctor. It is expected they will be sufficiently recovered to permit the vessel to sail tomorrow.
