THURSDAY IMPERIAL'S 6-Reel FUN-FEAST!

WHEN A MAN HAS ATTAINED AN EARNING CAPACITY OF \$1,000,000 A YEAR AND HAS THE PROMINENCE WHICH GOES WITH BEING THE MOST FAMOUS COMEDIAN IN THE WORLD, IT WOULD SEEM THAT THERE IS NOTHING THAT COULD EXCITE ENVY IN HIS BROW. YET FOR THE PAST EIGHT YEARS CHARLIE CHAPLIN HAS BEEN ENVIOUS AND THE SITUATION HAS BEEN CAUSED BY THE LENGTH OF THE PRODUCTIONS IN WHICH HE HAS BEEN STARRING.

His productions have been on the average two reels in length; and as he puts it himself: "I am like the fellow that would drive a 'Tin Lizzie' in an endurance race. It is more than probable that the Tin Lizzie would come in ahead yet all the admiration would go to the heavier and more impressive cars."

Almost since the beginning of his screen career the comedian has had a plot in mind which carried a role he wanted to play. Despite the strong comedy element in it, none of the producers for whom he was working would listen for a moment when he talked of a film six reels in length.

"Chaplin, your tabasco that gives a theatre program pep," said one of them whom he had asked to produce his original story. "A little of you makes the whole show better but three times as much might spoil it."

Chaplin hung on to the story, however, and to the determination that some day it would be produced. The opportunity never came until he arranged his present contract with Associated First National Pictures, Inc. First National is not a producing company; it merely guarantees to stars and directors who do their own producing that it will buy the finished production if it is up to standard, at a generous price.

Chaplin erected his own studio, hired his own staff of actors and studio help and began work on a **SPECIAL SCALE OF PRICES:**

GREAT PITCHERS EXCEL IN CONTROL

Ability to Put Ball Where They Want It Is Standby of Veteran Twirlers.

Control is one of the chief assets of a pitcher. There have been many instances in big league baseball when a pitcher has lost much of the stuff that he formerly was able to put on the ball, but has continued to be simply "limp" because he could not put the ball where he wanted to, says the New York Times. Long after Matty had lost his old-time speed and the fast break had dwindled to a curve he continued to get by and win a majority of his ball games because he had excellent control. This was also true of Cy Young, the man who pitched more big league games than any other hurler in the annals of the sport. Cy pitched in no less than 861 contests, 619 of them being full nine-inning games. He issued 1,182 bases on balls, an average of 1.40 per game. In number of games pitched Matty ranks next. He worked in 624, issuing 885 bases on balls, an average of 1.54 per game.

Considering the fact that he was a spit ball pitcher, there were few who had better control of the ball than big Ed Walsh. In 877 games he gave 594 passes, an average of 1.84. Walter Johnson has terrific speed, and when he was as wild as Ed, he was as accurate as a March hare, and he soon mastered control.

METROPOLITAN OPERA ENDS A RECORD SEASON

Metropolitan records are said to have been largely exceeded, as far back as theatrical Broadway's oldest inhabitant can remember, by the opera season that closed with two packed performances on last Saturday afternoon and night. While official figures are customarily withheld in the case of the Metropolitan, it is credited that the company's receipts in six months had been about one-third more than last year's \$2,000,000 season, or a new ton record of between \$2,500,000 and \$2,750,000.

Three hundred members of the opera personnel left for Atlanta at one o'clock, before the lights were turned out to send the matinee crowd away in time for early comers for the evening performance.
