ALL ARE PROUD OF HIM.

Fredericton Mail—Hilton Belyea, the St. John oxman, is certainly doing his bit this year to keep New Brunswick in the limelight. He went to Boston a few weeks ago and put it all over the crick skulkers of the New England States and last week in the Canadian Henley at St. Catharines he won the Canadian championship. As a sculler Belyea is a wonder and people of the maritime provinces should be proud of him. St. John once produced the best oxman and the best skaters in the arctic and it looks as if she still has the goods.

ST. PETER'S TO HAVE A FINE NEW SCHOOL

The plans for the new school for the boys of St. Peter's parish have been completed by the architect, F. Neil Bredie, and tenders are now being received for its construction. The new school will take the place of the old wooden one at the corner of Military and Elm streets and will be built on the same plot of land. Preparations for tearing down the old one are under way. The new building, which is to be of brick with stone trimmings, will consist of two stories and basement and will have a frontage of 165 feet. Twelve large class rooms, two smaller and an auditorium, will take up the greater part of the building. In the basement will be the boys' play-room, the chemistry laboratory, the janitor's quarters and the furnace room. All the stairs are of steel with slate treads and the corridors are fire-proof, thus doing away with outside fire-escapes. Odd Bed Room Furniture Low Priced

Going over our stock of bedroom furniture the other day we noticed a number of odd pieces. Beds, for instance, without bureau, etc., to match, and in order to quickly move these odd pieces we have decided to reduce the prices on each piece so low that the odd pieces will automatically go out. In many cases the cuts are more than half price. This will afford a splendid opportunity for anyone to procure dependable bedroom furniture at practically their own price. Woods are mahogany, walnut, natural gum, etc.; and the pieces affected are beds (wooden), chiffoniers, chiffonettes, dressing tables, vanity dressers, dressing table benches, chairs, rockers, etc. Here's a chance to furnish that spare bedroom tastefully and at very little cost. See windows.
