COLGATE'S TALC POWDER

A Summer Necessity

THE skin must be protected from its natural enemies—wind, dust and sun—and also from chafing. In Summer it is especially necessary to use plenty of Colgate's Talc

The 10.54% Boric Acid—not found in other talcs—is soothing and mildly antiseptic. It is the safest and best Talc

For Baby's Comfort and Yours

After the bath, dust well all over with your favorite perfume of Colgate's Talc. It will add to the pleasure of all sports, so be sure to take plenty with you on your vacation.

Colgate's Talcs give just a hint of perfume to the skin—so elusive that men prefer Colgate's after shaving.

No matter where you buy Colgate's Talc, it is the same high quality, soothing and protecting, and as light as thistle down.

"A Babe in the House"

We have secured the rights to Marianna Wheeler's authoritative book, "A Babe in the House". A special edition, illustrated by Rose O'Neil and Shirley Kite, has been prepared, and will be sent to any address upon receipt of 10 cents in stamps, with your name and address.

Colgate Preparations enter intimately into the early days of baby's life, but the book covers far more than Talcs, Soaps, Toilet Waters, and Dental Cream. It gives authentic advice on the month-to-month feeding and care of the child.

Send ten cents in stamps with your name and address, and ask for the book, "A Babe in the House."

CITY TO PURCHASE BOTH PROPERTIES IN THE NORTH END

The purchase of the Armstrong & Bruce property in Landdown ward as a playground area for the north end and the Shamrock area for rock and street extension purposes, was approved by the common council at its meeting yesterday afternoon. Bond issues to pay for a retaining wall programme amounting to \$885, for an extension of the water main from Manchester's corner to Spruce Lake, costing \$337,400 and for the purchase of the north end properties, amounting to \$17,000, were passed by the council.

Spruce Lake Extension.
It is expected that the Spruce Lake extension will be completed in August, 1921, but the recommendation of the council was that no work be proceeded with until the Nisiwank Pulp & Paper Company, Limited, enter into an agreement with the city upon such terms as may be agreed upon between the city and the company.

A letter from W. E. Heans regarding damage to his property through an overflow from the street, was referred to the commissioner of public works.

A. D. Colwell, secretary of the Trades and Labor Council, wrote to the common council with regard to the vacancy in the board of hospital commissioners and

pressing the candidature of James L. Sigurd.

The commissioner of public safety recommended that permission to erect a 300 gallon gasoline tank at 17 Portland street be given to the Atlantic Motor Sales Company.

Permission was given the Canadian National Railways to lay two additional tracks in Water street at a yearly rental of \$800. The agreement provides that the railway shall do the planking of the whole area between the sheds and the street line; that the railway shall keep the trackage in repair and free from snow in winter; that the elevation must be approved by the city engineer; that all cars are to be placed or moved upon demand of the commissioner of harbors, ferries and public lands and that the agreement can be terminated by either party at three months' notice in writing.

Mayor Schofield recommended the purchase of the Shamrock grounds in the north end comprising 33,485 square feet, price \$7,000, to be used for rock supply, street development and as a circus area or other site. He also recommended the purchase of the Armstrong & Bruce property, nearby, comprising 650 feet by 200 feet, price \$10,000, to be used primarily as a north end playground area. The recommendations were adopted by standing vote.

Referring to the north end grounds, Mayor Schofield said if the rifle range could be purchased at a proper price, a race track and exhibition grounds could be built there.

Mr. Prink urged the mayor to consider the advisability of erecting a public incinerator and eliminating the many dumps which are located in various parts of the city.

Authority was given Mr. Jones to buy terra cotta pipe to the value of \$1,000, to extend the cost of the Hawthorne

avenue water works extension from \$9,200 to \$9,800, but his recommendation that payment be made on the G. G. Murdoch surveying bill of \$1,013.04 was referred to the engineer for a report on some of the items.

William Wheaton, on recommendation of the mayor, was appointed a city constable.

Recommendations Adopted.

The recommendations of the committee of the whole included payment of a bill amounting to \$277.94 to Esley & Co. for a new shaft for the ferry steamer Governor Carleton; payment of the St. Quentin fire relief bill amounting to \$554.44; erection of a retaining wall at 23 St. Patrick street, costing \$325; another at 307 City road costing \$145; another at 32 Celebration street costing \$360; the purchase of a water-end section of air pump for the ferry steamer Gov-

ernor Carleton; permission to the commissioner of public works to lay bituminous pavement in Prince William street instead of a concrete foundation as previously ordered; that the price of 1,200 barrels of cement authorized for the commissioner of public works be changed from \$415 a barrel to \$500 a barrel; a release to T. McAvity & Sons upon payment of \$80 for a lot of land adjoining lot No. 1117 in Sydney ward, usual rental five shillings; and another release to the same concern, upon payment of \$100 for land fronting lots 1330 and 1331 in Sydney ward. The rental charge of the latter area has been ten shillings a year and the grant dated from May 7, 1890. The city disputed the liability incurred in damage to a military bus upon the ferry steamer last February and a notification to that effect was ordered to be sent to the department of Justice through J. B. Dever, solicitor.

Payments in June to the amount of \$131,879.98 by the comptroller, were raised and the following departmental accounts were ordered paid: treasury, \$792.43; harbors, etc., \$8,301.11; public safety, \$2,224.19; public works, \$3,774.49; water and sewerage, \$8,093.50.

PROHIBITION OPPOSITIONS.

The moderation committee of New Brunswick, the organization which is actively working in the interest of the beer and light wine affirmative in the referendum next Saturday, held a meeting in the old Oddfellows' hall, Union street, C. H. Stevens presided and Carl G. Langhain was secretary. It was announced that the organization would advance its campaign by a street display. The remainder of the meeting was devoted to the selection of groups of ward workers.

Gifts to Women Who Use Jiffy-Jell

Jiffy-Jell users should write to the makers for a list of aluminum molds. Molds, spoons and measuring cups are supplied to users free. Jiffy-Jell is the one dessert which has the fruit flavors in vials. A bottle of condensed fruit-juice essence comes in the package. So a Jiffy-Jell dessert is a real-fruit dainty. The flavor is not artificial. The sweetening is sugar, not saccharine. Women who once try it will always get it. Your grocer has ten flavors. Try pineapple and loganberry first.

VICTORIAN ORDER OF NURSES MEETS

The board of the Victorian Order of Nurses held its monthly meeting at the Victorian Home yesterday, with the president, Hon. J. G. Forbes, in the chair. Routine business was transacted and the nurses' report received.

The report, which was presented by the head nurse, showed that during the recent milk shortage in St. John the board of health procured supplies which were distributed from the home to small children and invalids. Splendid assistance was given in this work by the V. A. D. through the kindness of Mrs. Kuhring. During the Women's Council convention in this city four nurses of the order helped to serve at one of the luncheons. Arrangements were made for the opening of a Well Baby clinic. A scale has been received from the board of health, and plans are being made to open the clinic shortly. Many mothers are anxiously awaiting the announcement of the opening. Donations received from friends of the order included a set of dishes, desk, chair and two children's chairs. The kindergarten teachers gave the nurses a house warming and presented them with a picture. During the month of June a total of 1,111 visits were made, of which number 271 were child welfare and fifteen kindergarten, the balance being regular nursing visits.

ITALY IS PREPARING TO HAVE A FLOATING FAIR

Rome, June 14.—(Associated Press Correspondence).—A floating fair has been organized by the Italian government and will visit Tunis, Algiers, Tangier, Lisbon, Barcelona, Marseilles and Genoa. It will carry samples of all the products Italy can export and will remain from four to seven days at each port. Orders will be despatched to producers by wireless, this enabling the buyers to receive an answer the same day. If the undertaking is successful, as it is confidently expected, it will be, another floating fair will be sent to North America, another to Brazil, Uruguay and

Argentina and a third one to Antilles, Venezuela, Peru and Chili.

John C. Redmond, president of a company that manufactures metal motor parts, has started on the first selling trip by airplane ever undertaken by a Philadelphia business man. He will visit customers at Allentown, Reading, Wilkes Barre and Scranton.

A New Departure in Home Dyeing

THE invention of Majic Dye Soap Flakes marks the final achievement of a satisfactory home dye.

All objections have been overcome—no rubbing or scrubbing, no staining of hands or utensils, no long, tedious boiling—very little labor. Dip your garment or material into the thick, sparkling Majic soda, rinse and remove it, cleaned and renewed—just the color you wanted and expected. Majic Dye Soap Flakes cannot harm any washable material.
