Sidelights On Sport

Considerable interest is being manifested in the game to take place this afternoon on the Queen square diamond between a picked team and the Galois baseball nine. The locals will line up as follows: Deyer, catcher; Chestnut, pitcher; McGovern, first base; Mahoney, second base; Gorman, third base; Lenihan, shortstop; Garnett, left field; Riley, centre field; Sterling, right field.

The Y. M. C. I. baseball nine left for Moncton this morning, where they will play two games with a picked team. The game will be this afternoon at 7 o'clock and the second this evening at 7 o'clock.

The suggestion that a good athletic field should be secured for High school boys in the form of a memorial to former members of the school who died in action is worthy of consideration. The

High school boys have been badly handicapped for years for want of a proper place to indulge in sport. Cincinnati has again closed the gap between themselves and the Giants and are now tied for the lead. The Reds are making a great showing this year and Brooklyn and Pittsburgh are putting up a better ball of ball. Chicago is expected to do well for it has a strong club.

The Yankees have met a snag in the Cleveland club and are dropping behind Chicago. The latter team has had an easy time trimming Philadelphia and is taking advantage of it.

The Toronto club are showing an improvement and have won three games in a row. Their wins did not avail them much for the Baltimore team has also been winning and maintaining a commanding lead.

CRICKET.
102 Runs, Not Out.
Philadelphia, July 8.—The All-New York eleven won Halifax Cup cricket match from the Philadelphia team at St. Martin's today, 208 to 173 runs. The batting of Korting of New York, who scored 102 runs, not out, and the bowling of Miller and Taylor of the visiting team were features.

Champion's Auto Stolen.
New York, July 9.—Benny Leonard, the lightweight boxing champion, had two good automobiles last night. Early today he had one whole one, and the other, a powerful roadster, was lying at the foot of the steep embankment of 233rd street, where the New York Central tracks run close to the Hudson river. The machine had been stolen earlier in the evening from before a theatre at 99th street and Broadway, while Willie Leonard, the champion's brother, who was driving the car, was inside enjoying the show.

Early today Policeman Nelson, while patrolling on his bicycle along Palisade avenue, saw where a machine had gone over the bank near 233rd street. He investigated, and at the foot of the embankment found the machine, badly battered up. There was blood about, but no sign of the occupant. He called other officers and the underbrush was searched, but no one was found. Police headquarters were notified, and the number and description of the car tallied with that of Benny Leonard's machine. It was later identified by the champion.

YANKEES WILL BUILD HUGE STADIUM; NO LONGER WELCOME AT HOME OF GIANTS
New York, July 11.—Plans for a modern baseball stadium with a seating capacity of at least 40,000 are now being considered by officials of the New York American League club, and building operations may be under way within a very short time. The stadium will be assumed of a home of their own next season.

The site of the new plant was selected by Colonel Jacob Ruppert several years ago. It is in Long Island City, just beyond the Queensboro Bridge. The site is bounded by the Long Island Railroad and the Queensborough subway. Another "feeder" will be the Broadway branch of the Brooklyn Rapid Transit when that line is completely across Fifty ninth street.

The Yankees would have been playing there long ago but for the war, which halted building operations. The semi-official announcement that the Polo Grounds would be played exclusively by National League teams after this season is not a surprising development. A separation of the two local clubs has been fostered ever since control of the Giants passed into the hands of Charles A. Stoneham, John J. McGraw and Judge McQuade last winter.

JACK JOHNSON GROOMING CHAMPIONSHIP CONTENDER
"Big Smoke" is Training Capt. Bob Roper in Mexico City For Possible Bout With Dempsey
The black arm of Jack Johnson is reaching out for revenge. The laurels won in the ring at Toledo are not to rest on the brow of the world's champion untroubled by the winds of challenge. "The Big Smoke" wants revenge—and hee hee he has no chance to get it in person, he is planning to pull the deed by proxy. Johnson favored Willard to win.

Capt. Bob Roper, American amateur heavyweight champion, is the man whom pugilism's deposed king has selected as his agent to rehabilitate the wounded name and fame of Jack Johnson before the world.

The "Big Smoke" is laboring day to day to bring into reality a dream that has been his ever since that hot day in 1910 when Jess Willard took the title from him in twenty-six rounds at Havana.

In Mexico, amid the comfortable surroundings of the Mexican National Sporting Club at No. 63 Calle Bucarelli, Mexico City, Johnson is grooming Roper to be the next world's heavyweight monarch.

Daily, with the help of Charles Cutler, the wrestler, Johnson has been training Roper and teaching him all he knows. The old master of ring-craft is leaving no stone unturned to effect his second-hand come-back. Under his tutelage, Roper has progressed from a moderately skilled heavyweight into a fit contender for the title.

Johnson himself, stimulated by the new task, has apparently done much to climb out of the depths into which he had sunk since his Havana defeat. He is now in the best of health and is doing well financially as a teacher of boxing. So far from being "strapped" Johnson is a proud possessor of \$10,000 worth of Liberty bonds. The most prominent citizens of the Mexican capital visit him daily at his training camp and are his pupils in the art of boxing.

In working with Johnson and Cutler, Roper has an tremendous advantage. He is a native of Toledo, Ohio—trainers and sparring partners of the highest class and ability. Neither Willard or Dempsey had such an opportunity as Roper enjoys, to learn the finer points of ring craftsmanship.

Johnson selected Roper from all the young fighters of his acquaintance. Roper is a splendid physical specimen. He weighs 208 pounds straight, stands six feet one inch in height, has a reach of 28 1/2 inches—half an inch greater than Dempsey's—and has a biceps of 17 1/2 inches. Roper is twenty-six years old.

Johnson's acquaintance with Roper began in Chicago, where Roper was a physical culture expert and king of the amateurs. He went into the army, won his captain's commission, and acted as physical instructor in the army camps. He was discharged nearly three months ago and went direct to Mexico City to join Johnson.

He will be under Cutler's management when he returns to the United States. Johnson is elated over the work of his protégé.

BOLSHEVISM CONDEMNED.
Condemning Bolshevism at the third annual conference of the National Democratic and Labor party (British Workers' League), J. A. Seddon, M. P., president, said that the primary function of the party was national reconstruction. Two things were essential to the realization of the progress they sought—the declaration of a principle and its incarnation in action. The principle underlying their programme recognized the people—not a section, however powerful—but all classes forming the nation. The sovereignty of selfishness, self-interest or anarchy. The sovereignty of democracy against the Bolshevist madness of Russia or their would-be imitators here. Equally they sought to resist and destroy the social cancer of undeserved poverty, the blight of undeveloped childhood, whether of mind or body, the gaunt spectre of old age in want through ill-returned toil.
