James Henry Dalziel, Radical, moved in the house of commons this evening that the house of lords appropriation be reduced. He complained that the government had not stated their attitude as to the proposal to withdarw the power of veto from the upper house. He was called to order by the speaker, who admon-ished him that he must adhere to the subject of the appropriation. After several Radicals had spoken in support of the motion, Right Hon. John Morley. chief secretary for Ireland, undertook, in Sir William Harcourt's absence, to reply for the government. The ministers were so fully sensible of the gravity and magnitude of the movement against the lords, he said, that they refused to raise the issue on a trumpery question of officials and salaries. During recess he persons concerned that there was any they would consider the problem carefully. Thomas Sexton, anti-Parnellite North Kerry, said that the government had not risen to the emergency legrams to me in your official capacity, and did not seem disposed to treat earnestly the demands from the people and their representatives for a change in the house of lords. Atlanta, Ga., Aug. 23 .- Quite a flurry was created among the motormen and conductors on the traction line during the past week, when it became whispered about that orders had been issued from the management directing that negro wemen be assisted on and off the cars as well as white women. The orders were said to have been given by C. W. Evans, superintendent of the road. Though no bulletin has been posted in the power house, on Glenn street, the majority of the employees were under the impression that verbal instructions had been given. To say they were indignant is putting it mildly. The men declared they would throw up their jobs in preference to carrying out such an order, and that if the company insisted, a boycott would be in-stituted. Mr. C. W. Washington, Aug. 23.-At 12:30 an apparent quorum of the senate could not be secured and upon the motion of Mr. Harris the sergeant-at-arms was directed to ompel the attendance of absent senators. This will not amount to anything, as the ergeant-at-arms has always, and now reuses to arrest senators and bring them before the bar of the senate, unless given warrants for their arrest. The senate has likewise refused to issue its warrant. At 1:18 the senate, pending the order to compel members to attend, adjourned un-til to-morrow.
