A WEEKLY NEWS LETTER

REALITY VS IMAGINATION

HOW the reactionary element can continue to keep up the loud whistle, proclaiming success, passes muster or understanding, in face of the evidence to the contrary in the extraordinary progress that is being made by the international trade union movement, not confined to any section of this North American continent. The dire disaster that was to be the lot of the Trades and Labor Congress affiliations, through the route of secession, is further away from accomplishment than when first the movement of rebels gave utterance to such statements.

The calamity reds through their verbal and type messages were long shot predictions believed in by the few who have had time to realize that they were dupes of a gold brick game which had for its doctrine the change from substance to shadow. The deluded may now recall general press propaganda of more than a year ago, where the story was told how the international movement "is now on thin ice and the game has reached the climax." This quotation being a sample of the press assertions used in the long ago, there is full justification for claiming the anti-movement which had acceptance at Calgary is in the false prophet class.

To say that the anti merely wished for the downfall of the constitutional movement, or predicted same by speech, would leave something to the imagination, but there is the indisputable evidence on the files of their press, showing the efforts to disruption and how prolific their messages were in predicting the end of the international movement, with its banner bearers consigned to oblivion.

With the common knowledge of the positions they have lost in centres where the Calgary false doctrine found a temporary footing, a glance at the situation in regard to the genuine movement gives an entirely different story with progress in every line of endeavor. In the matter of membership the Department of Labor in its annual report on "Labor Organization in Canada," the Dominion Department of Labor says last year the international trade unions increased their membership in Canada by more members than the combined membership of the one big union, as reported by the general secretary of that organization.

This progress march was not confined to any particular international organization, all joining in the added membership class. Records were established—the Painters and Decorators were enabled to state a charter for a new union was issued for each working day in the month, a new record; Carpenters and Joiners adding 10,000 to its membership monthly, Canada giving its full quota to same; again during the year an increase of 58,815 was the report of Secretary-Treasurer P. M. Draper for the Trades Congress. The foregoing are random examples showing results in concrete proof of work as against words of the would-be destroying element.

The outlaw situation is best summarized through the evidence produced, that the machinations and intrigues of the chasers of the myth have had no ill-effects on the international movement, but rather aided in allowing comparisons to be made, that the gang of force has shot its bolt and is now in the position of the drowning catching at the straw. The loud whistle with attending mis-statements is finding a correct interpretation of the tone as being one of despair.

CHANGE THE NAME

LABOR forces are always credited for changes in every walk of life, especially during this period of time. It possibly goes out of its element in some instances and one of these isolated cases may have just occurred at the meeting of the British Labor forces. This conference is being held at Scarborough, in the north of England, and carries the title of the "British Labor Conference." A week before the meeting anti-prohibitionists won out on the drink resolution calling forth that Scarborough should henceforth be known as the King of Beer.

"The Dismal Dean suggests there is no progress. Why are there deans?"
"If any prophets should slip into heaven good-bye to those streets of gold."—Atlanta Constitution.
"A law requiring all shoes to be made of leather might help solve the paper shortage."—Columbia Record.
"According to a contemporary 'rabbits' are worth less when they are skinned by the shopkeeper. So is the customer."—Punch.
"Riches," said Plato, "do not consist in the possession of wealth, but in the use of it." In these days they consist of the transport.
"That there should be one man the ignorant who had capacity for knowledge, this I call a tragedy, were it to happen more than twenty times in a minute."—Carlyle.
"Beauty is truth, truth beauty—that is all
Ye know an Earth, and all ye need to know."
—Keats.
"A nation is not governed which is perpetually to be conquered."—Turgenev.

Across the Atlantic.

What Our Brothers in the Motherland Are Doing.

MINERS' PRESIDENT AGAIN ON DUTY.

Robert Smillie was given a rousing reception by the delegates and executive members of the Miners' Federation of Great Britain when he took the chair on June 15 at the special conference at the Memorial Hall, London, England.

Herbert Smith, vice-president of the Federation, warmly welcomed Mr. Smillie back, and expressed the hope that his health had been sufficiently restored to enable him to continue his work on behalf of the Federation.

Smillie cordially thanked the conference for his welcome. The "Frank Hodgson," secretary of the Federation, laid before the conference the executive's recommendations, as follows:

(1) That, with a view to securing an advance in wages for the miners, the executive be instructed to examine carefully the data relating to the finances of the industry which the Coal Controller is about to publish.

(2) That a special day should be allocated to the discussion of the executive committee's report during the annual conference of the Federation, which opens at Leamington on July 6.

The recommendations were unanimously agreed to, after discussion.

BALLOT ON FIVE-DAY WEEK.

The Scottish miners' ballot for and against the five-day working week is to be completed by July 3. A Scottish correspondent writes that the coal-owners' pronouncement on the subject is certain to have the opposite effect to that intended. The five-day week is already in operation in Lanarkshire.

NEW UNION'S OFFICIALS.

J. T. Brownlie has been appointed president of the Amalgamated Engineering Union, Tom Mann general secretary, A. H. Smith assistant secretary, trade union section, and C. A. Ramsford assistant secretary, state insurance section.

BRASSWORKERS' BALLOT.

The figures of the ballot taken by the National Brass and Metal Mechanics' Union on the question of amalgamation with the Amalgamated Engineering Union, have been declared as follows: For amalgamation, 16,594; against, 10,124. Majority for, 6,470. As the 50 per cent. majority required by the Trade Union Act was not obtained, this, the second ballot of the union on the question of amalgamation has failed to effect a fusion.

RESEARCH COUNCIL REPORT IS TABLED IN HOUSE.

The report of the administrative chairman of the Advisory Council on Industrial and Scientific Research for the year ending March 31, 1920, was tabled in the House Saturday by Sir George Foster. Of the parliamentary vote of £129,000, there was expended \$29,472; which was an increase of \$1,151 over last year's expenditure. The increase was due to the fact that the council was able to carry out more research work than during the previous year. Salaries paid by the council were lower than during the previous year. The expenditure to assist approved researches was \$25,145, of which \$10,764 was for headquarter expenses approved but not undertaken during the previous year.

Mr. J. A. McClelland, of Montreal, is the Labor representative on the Advisory Council.

IMPROVED STORE METHODS

Chain Stores of L. R. Steel Company, Limited, 5c to 10c, Will Reduce Cost of Living.

A new merchandising system, providing a modern and more economical method of getting daily necessities to the consumer, is being introduced into Canada by the L. R. Steel Company, Limited. This concerns has 35 stores and leaves now in the United States and Canada and is making such rapid headway that the L. R. Steel store will soon be one of the community necessities of every point of population in Canada of over 5,000 people. Not only does the L. R. Steel store give greater value for every cent spent on purchases of up to \$1, but there is a sharing of the profits among those purchasers who are shareholders. The shareholders are the common people who are the most part patrons of the store, or prospective patrons. By the Steel method any customer may become a partner-owner who really is buying his goods from himself in his own store. The management is the best that brains and experience can provide. For the head of it is President L. R. Steel, a man who has earned the reputation of being the greatest merchandiser in America—and the friend of the working people. President Steel is a man who is a hard worker—who has a high admiration for those who toil.

The L. R. Steel Company, Limited, is making rapid headway in a store on St. Catherine street, Montreal, which, when equipped, will be the finest chain store in America. Two new stores are being built for the L. R. Steel Company, Limited, under lease in Quebec City. A new fine store will be taken over in Sherbrooke in July. Stores will be opened in a short time in Oshawa, Goderich and Owen Sound, in Ontario.

A large warehouse has been purchased on Mutual street, Toronto, to supply the Toronto stores. A valuable site has been purchased on Danforth avenue, Toronto, for the erection of one of the fine L. R. Steel stores that will operate in Toronto. Other sites will be announced from time to time in various portions of Canada. Eventually all the cities of Canada and towns of 5,000 and over are planned to have stores in the vast chain of the L. R. Steel Company, Limited.

CIVILIZATION IN DANGER.

Sir Auckland Geddes, British ambassador to the United States, while giving a warning that "civilization is in danger," said, "In Europe we know that an age is dying. A realization of the aimlessness of life led to labor and to die, having achieved nothing but avoidance of starvation and the birth of children also doomed to the weary treadmill, has seized the minds of millions."

OFFICE WORKERS TO BE ORGANIZED BY THE A. F. OF L.

Campaigns to organize 2,000,000 stenographers and office workers will begin soon in all big cities of the United States and Canada, under authority of the fortieth annual convention of the American Federation of Labor, which recently met in Montreal.

The executive council of the federation will be in charge of the drive, which represents an effort to bring into the ranks of organized labor the "white collar" element.

Most experienced organizers, school labor movement will be enlisted in the drive, which is intended to enroll both male and female office workers. An international union with complete autonomy in the labor movement will be chartered as soon as the total membership of the local unions reaches ten thousand, the convention ordered. Until this total is reached the new body will be under the control of the A. F. of L.

The white collar element now is partially represented in organized labor through a few local unions enrolling college professors, school teachers, office workers, bank clerks, and stenographers. Approximately 50 local unions are in existence, 35 of them having been recruited among office stenographers and two bank clerk unions in Canada.

Service Button Workers.

Notes Of Particular Interest To Ex-Service Trade Unionists.

MANITOBA SOLDIERS DEMAND COMMISSION.

A royal commission to investigate affairs of the Manitoba Soldier Settlement Board is requested by the Manitoba command of the Great War Veterans' Association. In communication to Ottawa, Veterans believe there is considerable documentary evidence which can be secured only through a commission.

The departmental investigation, which has been under way for more than two weeks, has been concluded, and a full report of the evidence heard is being prepared for submission to the Dominion Government.

STAGE TANK DERBY.

Coincident with the running of the Grand National Steeplechase, another Derby was being contested near Park Lake, where a "Derby" of armored cars and tanks, or the "Creme de Menthe Derby," as Englishmen called it.

Twenty-seven tanks went over a three-kilometer course of hills and dunes, with two obstacles, between Satory Camp and Versailles. One of the obstacles was a steep hill, and the other a wide stone quarry. Twenty-five tanks finished, only two coming to grief. The Minister of War, Andre Lefevre, and numerous French and Allied officers witnessed the race.

"KAMERAD"

How many of you veterans, now safe at home, have heard this cry, have seen the Hun machine gunner, his weapon jammed, put up his hands and cry "Kamerad," only take a snap shot at you with a pistol, or slash at you with his bayonet when you got near enough to take him prisoner?

Now you are called on to do the same thing to that destructive element which attempts to "excite you" by their false cries of "Comrade," and then slash you in the back with their bloody plots of bombs, torpedoes and rapine.

There are in Canada today hundreds of trained soldiers representing this element. Many publications are devoted to the spreading of this comrade cry, and their own columns convict them of an advocacy of crime and oppression that cannot be tolerated in Canada.

You, Mr. Veteran, used a trench knife or a grenade on the Hun who falsely cried "Kamerad." Now, Mr. Veteran, it is up to you to use mental knives and mental grenades on the element who in the same way cried "Comrade."

Do not be misled by their false cries. If you are, you will later realize that you have been damned within reach of the weapons that mean the wreck of your home and the ideals for which you fought.

The world is crying for reconstruction, not destruction. We must build up, not tear down.

A nation and the world needs you to offer a solution for the difficulties of reconstruction, and the solution lies in the proper functioning of constituted government—in law and order, so necessary to modern society.

Evolution, not revolution!—The Threshold, Winnipeg.

You never know what you miss when you do not attend your local meetings.

ONE BIG UNION NO LONGER A MENACE.

The membership of the International Brotherhood of Carpenters and Joiners is increasing at the rate of 10,000 a month, according to a statement made at the convention of the provincial council of the brotherhood at Peterboro last week by George Lakey, of Indianapolis, a vice-president of the International brotherhood.

Replying to a question which had been raised by the "One Big Union" as to why Canadian carpenters should send money to the parent organization in the United States, Mr. Lakey stated that whereas Canadian carpenters had paid into the general treasury \$3,500 they had received as strike benefits \$12,818, while organization and other work had cost \$108,268.

E. Ingles, of London, Ont., vice-president of the International Brotherhood of Electrical Workers, in an address said he was convinced that the "One Big Union" was no longer the menace to the organized trades unions that it appeared to be last year. It was a disruptive organization, he said, and the real purpose of the International Brotherhood of Electrical Workers, in an address said he was convinced that the "One Big Union" was no longer the menace to the organized trades unions that it appeared to be last year.
