

Parke's Sheep and Cattle Wash

For the destruction of Ticks, Lice, Mange, Ringworm, and all insects upon Sheep, Horses, Cattle, Pigs and Dogs. Removes Scurf, Roughness and Irritation of the Skin, and makes the coat soft, glossy and healthy. It destroys all insect life.

UP-TO-DATE FARMERS

Know that if they are going to make any money they must save it by looking after lots of things that formerly went to waste through neglect. A little coat of paint on their agricultural implements to keep the water out, judicious spraying of fruit trees and potato vines to protect them from injurious fungi and destructive insect pests, and *one of the most important of all, the application of Parke's Sheep and Cattle Wash*, for destroying vermin on all kinds of stock. You cannot fatten stock tormented with vermin.

LICE ON HENS.

MR. SECOND, of Oakville, says: My hens were in a very bad condition with lice, both hens and coop were covered. After giving them one immersion in a solution of **Parke's Sheep and Cattle Wash**, the lice totally disappeared. After this they thrived rapidly. I will say that it is the best thing I ever saw or heard of for this purpose.

COULDN'T FATTEN UNTIL USED.

MR. THOS. BEACHES, formerly of Millgrove, now of Copetown, says:—I have used **Parke's Sheep and Cattle Wash**, and find that it works to perfection. We used it on some Jersey calves that we couldn't fatten as they were covered with lice. One application cleared them, and now they are a picture to see. Their coat is as fine and glossy as can be. One application cleared a mare that was covered with lice and nits.

WM. BURKE, Carlisle, says:—I have used **Parke's Sheep and Cattle Wash** on sheep and cattle with best results. Most of my neighbors use it and recommend it.

ASK YOUR NEIGHBORS what they think of it. We publish a few testimonials, but remember it is **Parke's Sheep and Cattle Wash** they used and what you should get.
