The Halifax Board of Trade has issued its report for the year 1912, and interesting reading it is. Our exports from this port for the year named came to \$15,467,270, a gain of \$3,311,251 over the previous year; this is compared with the figures for St. gain of \$3,31,251 over the previous year; this is compared with the figures for St. John, \$21,215,408, a decrease of twenty three thousand dollars. The value of goods imported to this port was \$11,512,546, an increase of \$1,675,572, compared with \$8,522,548, and an increase of \$200,304 for St. John. Of the exports of Halifax, fish came first, with \$5,242,070; apples, \$3,419,051; farm products, \$2,080,241; miscellaneous, manufactures and mine products \$2,595,645, coal \$149,023, lumber \$1,281,753, animals and their products \$1,281,753, animals and their products \$2,595,645, of the products \$

BUFFALO, July 23.—Childs, the driver of Leits J., winner of the 2.14 pace, the first event on the card of the Grand Circuit at Fort Erie this atternoon, was fined \$250, and the judges declared off all pools on the race. The Assessor and Blue Line were made equal tavorlies, and the former won the first and third heats, with Blue Line the second.

After Leita J. captured the fourth, fifth and sixth heats, Driver Childs was called into the stand and the judges announced the fine and the declaring off all pools, claiming the driver did not try in the early heats.

The King George V. stake, \$10,000 purse, for 2.16 trotters, was won by the Lexington mare Tenara, a rank outsider in the pools, the public installing Uncle Biff favorits.

Our Tory contemporary, after calling Sir Wfifrid Laurier a Separationist, an Annexationist, a would-be smasher of Empire, and other things of a like nature, now calls him an Imperial Federationist. Says the Heraid:

"Sir Wilfrid Laurier is on record as an outspoken advocate of this very policy of centralization and the setting-up of a representative Council or Parliament of the whole Empire."

"Now it must be clear from the foregoing that . . . Sir Wilfrid must be regarded as one of the wicked Centralizers."

Hereafter we will not hear so much about Sir Wilfrid's alleged Separatism. Repentance and conversion though late are always acceptable.

Ossining, N. Y., July 21.—Another fire at Sing Sing prison to-day gave the mutinous convicts a chance for more rictous demonstrations.

The blaze started in a clothing shop and the prison fire brigade extinguished it after a hard fight, without outside aid. It was the second fire in the prison buildings this week not withstanding the fact that the guards had been doubled since \$150,000 worth of property was burned up there two days ago.

While the guards and the "trusties" detailed to fire duty were attacking the flames more than a thousand prisoners, locked in their cells, raised a chorus of yells that sounded high above the noise of the slarm. Annual yells that sounded high above the noise or the alarm.

The men at work in the building were marched out in good order and the blaze was extinguished after most of the con-tents of the shop had been tossed out of the windows and drenched with water. SALE

Those who left were accompanied to the gates of the Vatican by their comrades. At the moment of separation they cried "Vive Caribaid." Some of them joined in singing the Marsellaise.

The Cook at one of our leading Clubs, not getting satisfactory results from the various Coals supplied her, the Lady Superintendent finally gave her a sample of CANNEL COAL to try. After one day's use of this Superior Fuel, a full supply was ordered, with the most gratifying results ever since.

At this Club, meals are ordered at all times from the opening until the closing of the Cafe and must be served at once. Under such conditions not only a quick, but a reliable fire is needed, and CANNEL COAL "fills the bill." The Coal is handled carefully and intelligently, with the result that only a little more than half as much is used as of other Coals. A combination of satisfaction and economy is obtained which cannot be secured from other Fuels.
