Continuing, Dr. Stockton said, in part: "Let me say that we have great hopes of our Dominion, and my too optimistic regarding our resources and the possibilities of the future in store for our country. Our neighbors to the south have not one transcontinental railway, while we have now on and in the near future will have three, and even then I believe the three will not suffice to move the products from the west to the east, through the port of St. John to Europe and ports of the

"There is no question regarding the utility of exhibitions. Everybody admits their value, to our agriculture, commerce and industries.

"The vistors come here for two rea sons, instruction and pleasure. They go back to their avocations with a far more hopeful outlook on life than if more hopeful outlook on life than if they had never come together in an exon such as this.

"In parliament we hear much of the vest and not so much of the east. While we are proud of the west, let us not forget there is an east, and if our young men must go west, let us remember and be thankful that they are still un-

Regarding climatic conditions, social onditions, educational conditions and conomic conditions no province in anada can surpass New Brunswick. When speaking on the floors of the house, the Hon. Mr. Emmerson, my colleague, Dr. Daniel and myself have stated that St. John has done distant when public men will see the importance, not only of nationalizing the ports of St. John, Halifax and Quebec, not merely for the benefit of St. John and the other ports, but for the benefit of the whole of Canada tion of Canada. The time is not far the benefit of the whole of Canada, and what benefits Canada should be supported and maintained by the en-

"I hope the exhibition will be a mag-nificent sucess, as I believe it will, and President Skinner and Manager Milli-gan are deserving of all praise for the anner in whic hthey have performed their share of the work."

Mr. Skinner then introduced Lieut. Governor Snowball, who in a short speech declared the exhibition official-

present uniting in singing the National Anthem.

#### MAIN BUILDING FIRST FLOOR

the street the exhibit of Dunlap, Cooke & Co. first catches the eve. This booth is constructed by the company so as to afford protection to the costly furs shown. A large glass building has been erected. It is covered with evergreen and studded with electric lights, giving a brilliant effect. This exhibit is the most pretentious in the building and creates a very luxurious effect. Inside the booth is well lighted, and a competent staff is on hand to show the line is is carried. The value of the furs range from the highest in the market down to the moderate priced seal skins, but no cheap goods are being shown by

The New Brunswick Telephone booth s situated directly opposite the exhibi-tion offices. The booth is tastefully there who connects the different known phones in the buildings. Several comphotes in the bullatings. Several complete outflits for small stations are on The next booth is that of the C. P. The M. B. and A hibit is situated of the complete outflits for small stations are on the photos of the complete outflits for small stations are on the complete outflits.

The National Cash Register Co. have a booth alongside the Telephone Co.'s exhibit. All the latest styles of registers are shown, and the many improvements in the instruments are pointed out by the attendants.

The National Cash Register Co. have a booth a suppropriate sign "The Granary of the Empire."

A large space is given to the St. John Raily Co., divided into four rooms, draped in pale yellow and green. All sections are at night a blaze of light.

hibit alongside, in which their various their goods are distributed to the visitors, free lunches also being supplied.

J. Clark & Sons of Fredericton and St. John have a booth in which are exhibited pianos and organs, of which

To the left of the main entrance J. larvey Brown has a booth in which are exhibited the various kinds of tea in which he deals. Samples of the tea will be distributed during the week.

In the centre of the building, near the dining room, the Willis Plano and Organ Co. are exhibited a line of planos and organs. T. J. Phillips has also a candy booth there. The Computing Scale Co. of Halifax are situated here state to, of rishing are situated here also, with a line of their goods. Another very interesting exhibit in this section is that of the Edwardsburg Starch Co. of Brantford, who are carry-ing a full line of Benson's prepared orn and Crown corn syrup.

A. C. Witham of 137 Main street, is

here also with an assortm of novelty pop corn. The D. K. Mc-Laren Belting and Belting Supplies show a line of their goods in a very effectively arranged booth.

On the left hand side of the entrance

On the left hand side of the entrance to the grounds the Havelock Mineral Springs Co. have a large booth. The Metriola Medicine Co. come next with a long list of medicines and invigorators "for the different ailments which the human flesh is heir to." Philips Ice Cream Parlors are stationed alongside in a large and well decorated booth. In the centre of this part of the building the centre of this part of the building McLean and Holt have a large booth exhibiting Glenwood Ranges and Fur-

Bovril is well displayed in a booth alongside that of McLean and Holt. Large quantities of Bovril are in stock and samples of it are being distributed to the patrons of the fair.

to the patrons of the fair.

The Jas. Robertson Co. have one of the most artistic booths in the building, situated opposite the Bovril exhibit. Their exhibit is divided into three parts, the main booth being fitted up as a bathroom, the latest plumbing fixtures being shown. All modern appliances are shown and the scheme is ances are shown, and the scheme is very well worked out. The left hand booth is fitted up as a kitchen and house-laundry, while the right hand booth contains samples of the miscel-

At the entrance to the Annex is the exhibit of T. M. Morrow, Garden street. There a splendid assortment is shown of local and foreign post cards, including the latest fads and fancies in the line of picture postals.

Turning to the left is the exhibit of the Havelock Springs Co., where numerous varieties of mineral waters are

The exhibit of E. D. Smith, Winona,

Ont., is an excellent one. This firm, in a most artistic manner. The latest which is only three or four years old, is doing an increasing business in preserved fruits and berries, james, etc. This is their first appearance at a St.

o shown on postals.

the numberous brands of A. & I. Isaacs are to be seen. Next is the botch of the Novelty Jewelry Co.

The Ivy Tobacco Co have a stand in the middle of the floor, where the preparation of tobacco is shown at all

There are a number of different tands where specimens of coal stoves, wood stoves and gas stoves and kitchen utensils are to be found. One of the finest of these exhibits is that of Emerson & Fisher. This firm also show modern specimens of steel ceiling. The McClary Co. have also an excellent extitution.

Philip Granan is showing numerous specimens of the Richmond range. J. E. Wilson, Ltd., have an exhibit along similar lines, showing the Empress and Villa stoves, made in their own foundry. A noteworthy feature of their exhibit is the large galvanized top which is to decorate the north end branch of the Bank of N. B.

The Independent Order of Foresters have a pleasant little room in charge of E. J. Todd, where visiting Foresters are invited to receiver and meet their Philip Granan is showing numerou

first time. They show many and ex-cellent varieties of paints, varnishes and soaps. Emery and Morrisey, granite works

have many specimens of their work both in dull and polished stone. P. Campbell Co. show the scientific acetylene gas generators, and the Re-liance water heater, manufactured by

the Thompson Co. of Sydney.

J. A. Humphrey & Son of Moncton have an artistic booth. This is the first time that this enterprising firm from the railway town have exhibited their own line of cloths at the exhibition

smaller booths of Manchester, Robert-son, Allison, Ltd., where Globe Wernicke goods are shown. These include general office and private office fittings and sectional bookcases.

across the booth of Dearborn's Baking

The next booths are three of the finest in the fair. These are the exhibits of the I. C. R., C. P. R., and Street Rail-

The government road makes a highly creditable display. The handsome heavy brass railing which sets off the exhibit is that which was used by the . C. R. in their St. Louis exhibit. Splendidly mounted specimens of game, appropriate game pictures, pictures show from part of the decoration. In this booth is a model of the river steamer Victoria, made by Wellington Vail. This booth has been arranged by W. L. Creighton, the head of the advertising epartment of the I. C. R., and is in charge of Edward Hickson, who is well mown as a writer for sporting maga-

abundance are shown. In the booth is

The Shredded Wheat Co. have an exhibit alongside, in which their various products are displayed and samples of for household purposes.

The People's Department store have

#### MANUAL TRAINING

Two of the most interesting booths are those devoted to manual training, arranged under the supervision of T. B. Kidner. There are appropriate signs, "The new education," and "Learning by doing."

In the working exhibit are shown the instruments used in manual training in the various centres in the province. Four work benches are shown, each fitted with its own set of tools, and at this four pupils from the McDonald school at Kingston are seen busily at work. The walls are covered with numerous specimens. There are beautiful collections of leaves, pictures of trees and specimens illustrating the growth and structure of timber bearing trees, and many examples of the pupils' handiwork. Prominent among these latter is a beautiful collection of work by Frenk S. Marticollection of work by Frank S. Morrison, who exhibits the work of his graduating course at the Provincial Normal School. In addition to his woodwork there are

In addition to his woodwork there are shown working drawings and a full course of elementary work comprising paper, cardboard, modelling, etc.

In the adjoining stand fine cases of work are displayed, including specimens from St. Stephen, Milltown, St. Andrews, Woodstock, Campbellton, Fredericton and Mascarene, Charlotte County. The Provincial Orphan Asylum has a fine display of elementary. Manual and other good collections come from Fredericton and Fairville. Bathurst has a fine case of drawings and general school work.

The New Brunswick fisheries exhibit

The New Brunswick fisheries exhibit building is an excellent one and speci-mens of the various fish vaich inhabit our waters are shown alive in tanks.

## ANNEX SECOND FLOOR

ertson, Allison, Ltd., is as usual one of the finest in the whole building. The main part of the exhibit is devoted to showing a modern living records. showing a modern living room, with mission furniture of antique design. The rugs on the floor are of oriental de-

fall styles, which Oak Hall were the first time is the Airedale terrier first to put on the market this year morrow.

are worthy of study. This is their first appearance at a St.

John fair.

W. Edward Jones has a stand where souvenir cards, chinas, etc., are shown in profusion. His post cards include a new local series, which include the river boats and other scenes not hither-to shown on postels.

The famous St. Charles cream and evening's coffee are well displayed. Another coffee exhibit is that of Red Shield B. and B., where sample copies attract large numbers. To the purchasers of a pound of coffee this firm are giving away souvenir silver

> McDonald's wire fencing booth is as popular as ever, while Mullar's patent and mysterious novelty "Mentalomecrowds.

xhibit where souvenir fans are offered

#### Bohemian glass blowers on the south end are offering for sale many examples of their wonderful art. These are made at the booth and, as usual, draw large crowds.

MAIN BUILDING, SECOND FLOOR In the main building upstairs the McCoy Printing Co. is the first booth

Sewing Machine Co., which is a very well arranged and handsome booth.

This company have a anumber of their The outside of the booth has a very sewing machines on hand, and are also

On the front of the upstairs section the Flood Piano and Organ Co, of Dock there are quite a number of exhibits, interesting part of the exhibits, interesting part of the exhibits.

ets in besides the general attractiveness of the booth, added interest is given by the presence of one of their mechanical toys. The toy shown here is a lady acrobat who performs balancing tricks by means of two chairs. This in itself is worthy of a visit, as it is a very clever piece of mechanism.

In the centre of the gallery the Sun Printing Co. have erected a booth, from which copies of New Brunswick's Leading Daily will be given every day during the Fair. On the front of this booth is a large sign bearing the fac-simile of the heading of the Sun. On the sides of the booth fac-similes of the Star and Semi-Weekly Sun are posted The signs advertising this booth are plainly visible from the first floor, and visitors should not fail to pay a visit to this booth, as it will prove most profitable and interesting. Subscrip-

ons for the Daily Sun, Semi-Weekly and Star will be received at this booth every day during the week, a competent staff being always on hand to receive them and impart informa-tion concerning advertising rates. Vis-itors to the Fair who desire any infor-mation about the Exhibition itself or the Sun and Star will be pleased at all times to see their friends here.

The Nordheimer Piano Co.'s booth is situated here, and a large line of high grade pianos are being shown. Isaac Erb, the photographer, has a very interesting exhibit here also. Picres of St. John and vicinity are

shown, and the best examples of the photographic art are tastefully dismention is that of Robert S. Craig. Painter and Decorator. The booth is fitted up to represent a hall-way, the wall being painted and decorated extremely well. But the most attractive feature of his exhibit is the manner in which the woodwork is artistically, grained. The painting is by far the

#### MACHINERY HALL

best shown on any similar design

throughout the city.

At the entrance to this hall is a phoframe of wood made by A. W. Day, of Public Landing, with a jack-knife. The star attractions of this building are the gasoline launches exhibited by James Fleming's Sons. These are beauties, and there were many envious sight-seers. Marine motors and ropellers are also shown. The Tor-

## THE DOG SHOW

The rugs on the floor are of oriental designs. The chief attraction to this booth, however, is a music box with a negro orchestra of moving figures. There is also a doll which blows bubbles and another which, looking out from a cabinet, taps on a window and calls the spectators' attention to the sewing machines which this firm are handling. This firm also show cabinets and parlor desks in an artistic manner. The exhibit of Scovil Bros. is a blaze of light and this enterprising firm are chowing their different lines of goods

the first time is the Airedale terrier

of the finest exhibits here is the Mc-Laughlin Carriage Co. Although many varieties are shown, only one-third of the variety of vehicles manufactured by this firm are represented. A pohy wagon, a very fancy turnout, especial-ly attracted the crowd. The other ex-hibitors are the Nova Scotia Carriage Co., A. G. Edgecombe, J. Clark & Son. Co., A. G. Edgecombe, J. Clark & Son, Frank Cooper, A. A. Pirie and James

### AGRICULTURE HALL

On the first floor is the Agricultural usual. Conspictious among these is the Hall, where besides the agricultural exhibit of H.E. Goold, where the vari-products the exhibits of the Vermont Separator Co., Tobique Gypsum Co., Sharpless Separator Co., Petrie Separator Co. and others are to be seen. On the second floor is the Amusement Hall, where the great attractions of which so much has been heard can be seen. Here also the great "Dida" will arise out of nothing.

#### WOMEN'S COUNCIL EXHIBIT

The Women's Local Council have spent much time and care in perfecting their exhibits, the efforts have proved more than successful, their booth prom-McCoy Printing Co. is the first booth met with. Alongside it is the Novelty Pop Corn Co.

Next to this comes the New Williams

Sewing Machine Co. which is the first booth ising to be the headquarters of art lovers, as well as the headquarters of the ladies generally. It has a most desirable location upstairs in the main
