Marblehead, Mass., Sept. 13.—With every prospect of the Eastern Yacht Club constructing new quarters on Marblehead neck during the present year, yachting interests are anticipating an unusually successful season in 1916. At a recent meeting of the directors it was voted to abandon the old quarters and construct a stone building ample to accommodate members and friends for all purposes.  
An option on the land between the present club house and the Samoset House has been taken and it is proposed to purchase the wharf now owned by the Marblehead Transportation Company in order to obtain a suitable landing place.

**FAMOUS PICTURES**

"Rivals"—like Picture No. 1—has to do with the masterly transcontinental triumph of "Tractions" in 1912.

As the train alone had previously crossed the continent so now "The Master Tire," with the greatest of all tire achievements to its credit, is a rival of the "Iron Monster."

And, on the other hand, as "Tractions" have shown their unmatched ability in the Halifax to Vancouver triumph, they now recognize no rival but the train.

The "V" stand for complete road resistance, exceptional mileage, non-varying safety—absolute ability to get the motorist to his destination on any road, or in any weather, without the aid of chains.

On no other tire is there an anti-skid surface with individual corrugations as wide or as deep.

\$100 in gold for the best stories about this and the other "Famous Pictures." The stories to be written by Canadian-born children, under fifteen, whose parents, brothers, sisters or relatives own auto, motorcycles, or bicycles equipped with one or more Dunlop Tractions Tread tires.
