A Single Application Banishes Every Hair
(The Modern Beauty)
Here is how any woman can easily and quickly remove objectionable, hairy growth without possible injury to the skin: Make a paste with some powdered talc and water, apply to hairy surface and after 2 or 3 minutes rub off, wash the skin and the hairs are gone. This is a painless, inexpensive method and, excepting where the growth is unusually thick, a single application is enough. You should, however, be careful to get genuine delatone.
