SPLENDID RECEPTION GIVEN H. R. H. THE PRINCE OF WALES BY THE CITY OF QUEBEC

Desire U. S. Fleet At Vancouver When Prince Visits There

Vancouver, B. C., Aug. 21.—An effort is being made by civic authorities to have the proposed visit to Vancouver of the United States Pacific fleet, corresponding with the presence in this city of the Prince of Wales on September 27.

Quebec, August 21.—Glorious weather, unrivaled natural beauty, a big and early enthusiastic crowd, all contributed to the magnificent reception tendered here this afternoon by French Canada and the ancient capital to H. R. H. the Prince of Wales. The heir to the British throne alighted on a fast steamer yacht from the Renova, a few minutes before six o'clock, while the marines were playing "God Save the King," to which the guns of the mighty warships, and those of the old citadel responded in a formal chorus. On the King's Wharf, His Royal Highness was followed by the Prime Minister of Canada, Sir Robert Borden, was at once greeted by His Excellency the Governor General, the Duke of Devonshire, the Lieutenant Governor of Quebec, Sir Charles Fitzpatrick, His Eminence Cardinal Beaudry, head of the Catholic church in this country; the Lord Bishop of Quebec; the provincial premier, Sir Lomer Gouin, the Mayor of Quebec, Mr. H. Lavigne, and Brigadier General Landry, commanding officer of the military district.

Captures Hearts of All. While exchanging congratulations with the official personages and quickly reviewing a guard of honor, composed of veterans of the great war, His Royal Highness, by his juvenile and charming manners, captured the hearts of the elite of the society of Quebec, who greeted him with cheers and applause. That scene of the royal youth, becoming acquainted for the first time with this royal city, was one of simplicity and grandeur not to be forgotten by those present. To the salute of the guns, a display of pyrotechnical bombs succeeded, and each explosion was followed by the unfolding in the air of the flag of one of the Allies, which ascended and descended gracefully in the sky while aeroplane players circled around them.

Cheered by Thousands. Over the King's Wharf, the Dufferin Terrace was crowded with thousands of people. At six fifteen, leaving this inspiring scene, His Royal Highness and the Duke of Devonshire motored up to Upper Town, through Mountain Street and St. Louis street, where stood thousands and thousands of cheering Canadians of both creeds, while the bells of all the churches were ringing to tell the distinguished visitor that his family is loved and respected here as a true representative of the highest authority in this world. The decorations everywhere were splendid. Never has been seen in Quebec such a display of flags and bunting. In three or four different places arches had been built on the road leading to the citadel, and on the dark green of fern, foliage and spruce signs of welcome were to be seen in French and English. The Chateau Frontenac, on the site of the first residence of the French governors of Canada, had the most gorgeous display of electrical decorations with the coat of arms of the Prince of Wales in the centre and appropriate inscriptions.

Sydney Is Bothered By Liquor

Police Officials Accused of Being Too Lenient Over Enforcement and Don't Know That Two Carloads of Booze Daily Finds a Way to the Community.

Sydney, N. S., Aug. 21.—The local liquor situation was again dragged over the coals at the meeting of the police commission. The matter was brought up by Alderman Steele, who, in a few characteristic remarks, stated that the situation in the city was getting worse than it had been all spring. He informed the city officials that there were two cars of liquor crossing the Strait every day, headed this way. "More liquor is being drunk here now," he said, "than for a long time. We have been fooling with this question long enough, and it is about time we got after these fellows spatch it and put them out of business." Answering a question put by Alderman McLeod, the Chief stated that there were now some seven liquor dealers undergoing sentences at the county jail from Sydney. "There is more work being done by the force now than there ever was," stated the Chief. "We are working day and night, and the court is kept busy trying the N. S. T. A. cases brought before it. If it is true that the government railways are bringing two cars of liquor here a day, it is entirely unknown to me, and I don't believe it is a fact."

But one of the features of the day, and one that must have pleased the royal guest more, was the density of the multitude in the streets to see and cheer him. There was an absence of any sign of prejudice in this part of the country, as far as loyalty to the crown is concerned, and it proved the sincerity of the homage of the French press which, together with their English counterparts, tendered a most cordial welcome to His Royal Highness.

Wheat Price Fixed By Great Britain Doesn't Hurt Here

Gov't Will Ask \$1.80 of Purchasers in Order to Ensure Four Pound Loaf at Nine Pence — British Gov't to Assume Loss.

Ottawa, Aug. 21.—A story to the effect that Great Britain has fixed the price for wheat at £1.80, and that the United States and Canadian governments will, in consequence, be responsible for the difference between that amount and the figure paid to the farmer, is not causing any concern here. In fact the first place it is pointed out that it is not within the power of the British, or any other government, to say what price shall prevail for wheat this year. Prices will be governed by the world market, and the present indications are that they will be considerably higher than \$1.80.

The explanation given by Mr. Sanford Evans, of Winnipeg, that the \$1.80 mentioned in the London article is the amount which the government will ask of purchasers in order to ensure the turning out of a four pound loaf for nine pence is accepted in official circles here as being correct. This means that the loss will fall, not upon the government, but upon the United States and Canada, but upon the limit of the home consumption which will be assumed by the British government.

GEN'L CURRIE BANQUETTED BY MONTREALERS

EXPLAINS THE MONS AFFAIR

A Toast Was Proposed to the Soldiers Who Would Never Return and Was Responded to in Silence.

Montreal, Que., Aug. 21.—Following the civic reception tendered General Sir Arthur Currie this afternoon, one of the most notable military and civic demonstrations ever held in Montreal took place at the Ritz Carlton Hotel tonight when General Currie and the officers of No. 4 Military District gave a banquet in honor of General Currie, the Canadian Corps Commander. All that was notable in the civilian and military population of Montreal attended one of the most brilliant functions in the annals of the city.

In his address General Currie gave a series of reminiscences of the war, and concluded with an explanation of the last few days of the conflict, pointing out why the Canadian Corps had been preserved in the fight to the last moment, taking and occupying Mons at a time when the announcement came that the armistice had been signed and the enemy beset. This, General Currie said, had been done under direct orders of Marshal Foch. General Currie paid high tributes to the work of Montreal battalions at the front, and had special praise for General Sir Frederick Loomis and the Highland Brigade from Montreal.

The General's health was proposed by General Armstrong, who spoke of the work done by the commander of the Canadian Corps. The other notable address was by Hon. C. J. Doherty, Minister of Justice, who proposed a toast to the soldiers who would never return. This was drunk in silence. The function was ended by the singing of the National Anthem.

IMMEDIATE WITHDRAWAL OF UNITED STATES TROOPS FROM MEXICO DEMANDED BY GOVT

Mexican Ambassador at Washington Makes Formal Protest on the Part of the Carranza Gov't, and Asks for Prompt Action.

MEXICANS PROHIBIT DEMONSTRATIONS

Meetings Called in Protest to the Punitive Expedition of Americans Were Stopped by Orders of Carranza.

Washington, D. C., August 21.—Immediate withdrawal of the American troops now on the trail of bandits in Northern Mexico was asked today by Mexican Ambassador Bonillas, who called at the State Department, to present a formal protest from the Carranza government. The text of the protest was not made public, and officials would not discuss it further than to say that no reply had been made. At the War Department, it was said that no additional reports on the operations of the American force had been received from Major General Dickman, commanding the southern department. The troops are now well into Mexico, and army officers hope that, before long, they will clean out bandits from the stretch of territory twenty miles south of the border, where they are operating.

In answer to a reply to the Mexican protest will be sent has not been announced. Such protests have been made heretofore without bringing response, officials regarding them as having been submitted largely for the record.

The American forces went into Mexico on a "hot trail" of bandits who held the American army aviators, Lieut. Davis and Peterson, for ransom, and it was intimated today that the Mexican protest would not hasten their withdrawal.

Mexico City, Wednesday, August 20.—The Mexican government's attitude regarding the Cuban A demonstration in connection with the United States' punitive expedition across the Texas border, and a public meeting called for tonight on one of the principal avenues was not held as scheduled. The meeting was said to have been organized by a Cuban A demonstration for last Sunday, which was described as anti-American in tone, was said to have been a fiasco. The meeting called for tonight was to have been held a few hours after the Mexican foreign office issued a statement announcing that Ambassador Bonillas, at Washington, had been instructed to protest to the United States "against the invasion of Mexican territory by the Eighth Cavalry, and to request their immediate withdrawal. Two press bulletins were issued by the Foreign Office to describe the landing of the two American aviators on Mexican soil, and to tell of the crossing of the border by American troops. The two aviators were said to be landed at Palomir, in the State of Chihuahua.

New York, Aug. 21.—Count James Minotto, son-in-law of Louis F. Swift, Chicago packer, and Dr. Karl Muck, former leader of the Boston Symphony Orchestra, both of whom were interned during the war as enemy aliens, sailed from here today for Copenhagen on the Scandinavian-American liner Frederick VIII.

Asserting that he was an American and not a German, but that he sailed for Denmark "a man without a flag or country," Dr. Muck arrived at the pier with his wife only a short time before the hour of departure. He was accompanied by an operative of the department of justice whose duty it was to see that the musician boarded the liner. Dr. Muck was in a bitter mood today on taking his departure. He left the United States, he declared, with no regrets, "as the country is being controlled by sentiment which closely borders on mob rule." He denounced bitterly newspapers which, he said, had attacked the Americanism in a story circulated by "jealous rivals."
