The venerable and honorable senator has done much in his time to make New Brunswick the chiefest jewel in the chaplet of the provinces, but it certainly must be said that he has not been tainly must be said that he has not been capable of showing that age is a prime requisite to the legislator. To be sure, it is acknowledged that the gentlemen who are called to the Senate of Canada must be of the age of thirty-five. Why should they not all be as old as is Senator Wark? With age comes wisdom. With age comes common sense. With age comes that judgment which certainly is necessary to the equipment of any legislator who makes claim to being an "originant," as Mr. R. H. Davis hath it. Why should the junior age limit be placed at the utterly ridiculous minimum of thirty-five? meeting, but was happy to have the privilege of speaking on the occasion of Doctor Wilson's jubilee. A half century in the life of a nation or institution was but a short period, but in the life of an individual, especially of the worked in an official ministrial or professional capacity, it represented a new great length of time. A half century ago Doctor Wilson became a Methodist minister in the Atlantic or maritime provinces of Caracta. It would be of interest to consider the changes that had tome in Canadian Methodism since that time. Doctor Wilson entered the ministry in 1853, and in 1855 was organized the Methodist Conference of Eastern British America. Since that time there had been consolidation and expansion. Prior been consolidation and expansion. Prior to the formation of this conference the Methodists of Canada were under the mis-Methodists of Canada were under the fils sionary control of the Mother Country, and all needs of a religious nature were supplied from this source. The organization of the conference joined the maritime Again in 1874 came another important change. All the Methodist religious bodies in Canada were united under the name of the Methodist Church of Canada, and again in 1883 all the Methodist branche Canada were united as the Methodis

church.

All this was a mere bald statement of facts. To enlarge or go into the details of all that had transpired in Canadian Methodism since Doctor Wilson began his pastorate would fill volumes.

The great progress was due to the overaruling providence of God, who had given men such as Doctor Wilson, to the task of advancing and upbuilding the kingdom of God.

There were but few congregations so happily situated as Zion's. The church was absolutely free of debt. Doctor Wilson's zeal and forethought had made it possible to revive Zion church, to build it possible to revive Zion church. He had been from weakness to strength. He had been aithful and diligent, and with but the single aim to work up the interests of Christianity. It had been the higher power, the overruling Providence, which sent him to Zion to perform years of faith-

ful, valuable labor.

Rev. Mr. McLaughlin testified to Doctor Wilson's far-reaching influences as teacher, author and speaker. In his half studied deeply, and had never spared himself any inconvenience as the spiritual caretaker of the members of the church.

Rev. Dr. Wilson spoke for about twenty minutes. He expressed his deep sense of gratitude, not only to the speakers for their kind words, but also to God for his mercy in sparing him to be the recipient of such generosity. He felt thankful he had been permitted to live on year after year, for he had been chabled to become more efficient in the work to which the Lord had called him. He was a Methodist first, last and always, and believing such, he could serve the God better than if he lived in a doubting state.

He rejoiced that his pastorate of Zion

Erb, George Slocum and Fred Ferguson drove and Fred Ferguson drove and Fred Ferguson drove out to Treadwell's Thursday to try their kind words to the church. After supper they rowed to their lake and had been fishing without success for nearly an hour when Dr. Langstroth's fish took the minnow bait in about 40 feet of water.

The doctor had no pole, but was using a stout salmon hand line tied about his wrist. When the trout struck he took about twenty feet of lime before the doctor woke up to the fact that he had a finny monster at the other end of the silk line. And then the fun began, and for fifteen minutes it was a hard struggle, but finally Dr. Langstroth landed his lake, weighing 6 lbs. 10 ounces.

DRIVEN FROM HOME BY RUSSIAN PERSECUTORS, FINLANDER IS HERE.

Half a Century of Active Mr. Sittkoff, in St. John, Tells of Czar's Tyrannical Rule in the Homeland-Russia's Acts of the Last Two Years Mean That the Nationality of Finland is Ended-Enforcing Military Service, and People Want to Leave the Country.

There is a gentleman in the city at resent, Mr. Sittkoff, a native of Finland, present, Mr. Sittkoff, a native of Finland, who, in speaking to The Telegraph Friday, told a story of national injustice which explains, in part at least, the large emmigration to Canada of Finns from the home land in the last year or two. Finland is described as a grand duchy, the emperor of Russia holding the title of Grand Duke of Finland. It is situated on the Gulfs of Finland and Bothnia, in 1808, the Finns preserving, however their nationality, their own army officere also of their own nationality. The czan

Up to this time the people of Finland were not subject to Russian military order and were compelled to serve only two years within their own country. The governor general, who was a Firm, recognized the invasion of his country's nights, and refused to carry out the order, as he shad sworn to obey the laws of his own country and not those of Russia. He was promptly deposed and a man who had gained a most interviable reputation as the governor of one of the Siberian provinces, was sent to Finland to carry out the mandates of the czar.

Mr. Sittkoff says that from his experimence of living within the Russian authorities, he is not much surprised at the story of the outrages in Kischineff, as any one who has not had the experience of living within the Russian authorities, he is not much surprised at the story of the outrages in Kischineff, as any one who has not had the experience of living within the Russian authorities, he is not much surprised at the story of the outrages in Kischineff, as any one who has not had the experience of living within the Russian authorities, he is not much surprised at the story of the outrages in Kischineff, as any one who has not had the experience of living within the Russian authorities, he is not much surprised at the story of the outrages in Kischineff, as any one who has not had the experience of living within the Russian authorities, he is not much surprised at the story of the outrages in Kischineff, as any one who has not had the experience of living within the Russian authorities, he is not much surprised at the story of the outrages in Kischineff, as any one who has not had the experience of living within the Russian authorities, he is not much surprised at the story of the outrages in Kischineff, as any one who has not had the experience of living within the Russian authorities, he is not much surprised at the story of the outrages in Kischineff, a
