

Sugar Beet Growers Claim That Contract Is Entirely One-Sided

Want a New One Made Or They Threaten They Will Not Grow Beets This Season—Question Is Left To the Executive To Make Final Arrangements.

[Special to The Advertiser.]

CHATHAM, March 12.—More than 500 sugar beet growers, representative of the 1,200 growers of the province of Ontario, attended the meeting of the Ontario Beet Growers' Association here this afternoon. The 1921 contract of the Dominion Sugar Company, which was sent out to growers recently, came in for searching criticism.

The meeting was presided over by Harry French of Dresden, president of the beet growers. He stated that it was the desire of the executive to meet the officials of the sugar company and make an attempt to draft a contract that would be agreeable to both the grower and the grower. Failing in this, the threat was made that no beets will be grown in Ontario this year.

Commenting on the contract several prominent growers who together own several thousand acres of beet growing land stated that the contract was entirely one-sided, and that it was in favor of the sugar company, and left the growers "out in the cold." Other growers contended that the contract was a fair one in reducing the price of beets and increasing the price of beet seed, which is 10 cents per pound in

excess of the price charged last year. It was stated during the meeting that a few farmers in isolated sections have signed contracts for growing beets for the company. None of these farmers have ever before grown beets, it was stated.

Left to Executive. On motion the entire concourse of growers agreed that the 1921 sugar beet contract was entirely unsatisfactory to the growers, and that the executive of the association be given power to take charge of the situation. Their action was to whether beets shall be grown this year will be final.

During the meeting a representative of farmers' club made the assertion that when the club was buying sugar beets for retailing to the members last fall the price was 10 cents more than the price on which they pay for beets was reckoned. The statement was made subject of lively discussion, and it was stated that the contract was not made out to the satisfaction of the beet growers there is every indication that the beet crop will be exceptionally small this year, and that it may have a very material effect on the price of sugar next fall.

WOULD FEATURE MORE CANADIAN LITERATURE

Authors Want Less Attention Paid to Crime and Scandal.

MONTREAL, March 12.—Moving the resolution before the authors' convention requesting newspapers to give more attention to Canadian literature and deprecating the attention given to crime, accidents, scandals, etc., was adopted by the writers. Editor of McLean's Magazine said there was a certain irony in the fact that the most of the products of the writers had been spent in writing on just such subjects as had been mentioned in the resolution. He had also noticed that these topics formed the basis of the most saleable products of the writers of fiction. Capt. MacKenzie thought, however, that newspapers to literary matters would prove of real benefit both to the newspaper and to the writer. A good many papers in Canada already gave worth-while consideration to this subject.

100,000 Employees of Packing Plants Have Their Wages Cut.

[Special to The Advertiser.]

CHICAGO, March 12.—With more than 100,000 employees in the packing industry in all parts of the United States balloting on a proposed strike, wage decreases amounting to 12 1/2 and 15 per cent, together with a readjustment of working hours, which were announced last week, will go into effect tomorrow.

Both the packers and union officials yesterday agreed to meet James Davis, secretary of labor, and union officials, services as mediator, in the hope of averting a strike. Tonight reserves of both sides said that there was little prospect of agreement at the proposed conference.

Union leaders pointed out that the packers in agreeing to send two representatives to Washington had agreed to "assume that the justice and necessity of wage cuts will not be at issue. Now can there justly be any less in the matter of hours?"

EGG PRICES ARE STILL DROPPING

Retailing On Market at 40 Cents Per Dozen.

[Special to The Advertiser.]

Because of County Engineer Charles Talbot prohibiting any heavy loads to travel the country roads during the month of March and April, only one load of hay appeared at the local market on Monday morning. Officials say this was the only load of hay that appeared at the local market on Monday morning.

Two loads of wheat were sold at \$2.00 per bushel. The wholesale price was \$1.90 per bushel and the retail at \$2.00 per bushel. These quotations are expected to rule for the remainder of the month.

Heavy supplies of eggs on Saturday were responsible for a decline in prices. They are expected to go to lower levels before Easter. Wholesale, they brought 35c per dozen, and retail 40c per dozen.
