

Have Good Coffee Always

Uniformly good coffee, the ambition of every housewife and the desire of every man, is no longer an art. It's been reduced to a science since the advent of the electric coffee percolator. Good coffee—clear, rich, full-flavored, healthful coffee is the result. No matter how long it stands, the liquid coffee never comes in contact with the grounds. No eggs are needed—simply put in cold water and coffee, turn the button, and in a few minutes your coffee is ready to serve. Percolator is finely finished in nickel, ornamental—and as easily cleaned as a pot.

Our demonstrator will be glad to show it in operation—or 'phone to have one delivered to your address.
