

The Board Of Governors

The unanimous election of Donald McInnes, Q.C., as Chairman, took place at the regular quarterly meeting of the Dalhousie Board of Governors. The Board is the all-powerful, supreme governing body of Dalhousie University. It is large, comprising men of education, of the professions, and of business, who through quarterly meetings manage the finances and control the appointments of our University.

The Board is composed of about forty members, including, with the Chancellor and the President, more than twenty who are appointed on the nomination of the Board by the Governor-in-Council. Also on the Board are nine members elected by the Alumni Association, his worship the Mayor of Halifax, two representatives of Kings College, and one representative of the United Church of Canada.

The representatives of Kings College are appointed in compliance with the terms of association between Kings and Dalhousie, and the United Church representative in fulfillment of certain legal obligations based upon an old endowment.

Dalhousie's Senate is composed of the full-time professors at the University. It has charge of everything pertaining to the internal life of the University, but is subject to the overriding authority of the Board of Governors.

A quiet, but powerful body which has done much within recent years to spur the expansion and improvement in University facilities, the Board looks forward to a bright future for Dalhousie.
