Hoping this letter will not
take up too much of your
most valuable time, and
again asking you not to
think this a bold thing to
write as I am only a poor girl
& perhaps should not (do it
to) write to a noble man like
you, but I had to express
myself towards you as so
worthy a person of the position
and therefore wish you again
and again all the happiness
life holds for you, remaining
your true friend
