Ottawa, Ontario,
February 9, 1933.

Dear Dr. Boulay:

I have your letter of recent date and have read carefully the representations you make. I remember well the hard work you have done and especially your candidacy, and will be indeed glad to see this recognized. The trouble is the numbers of those to whom the Party is indebted for very great sacrifices is large indeed.

Appointments from Quebec are pretty much or altogether governed by the decision of the Ministers of that Province who consult the Members. I hope, however, to be present when the subject is up and will keep your letter carefully in mind.

Yours very truly,

Arthur Meighen.

Dr. Joseph Boulay,
