

SCROFULA.

SYMPTOMS.

Swollen Glands,
Enlarged Joints,
Thick Lips,
Inflamed Eyelids,
Tumors,
Abscesses,
Enlarged Neck,
Pale Complexion,
Wasting of Flesh,
Soft Muscles, etc.

and imperfect nutrition, and is the predisposing cause of consumption; in fact, consumption is Scrofula of the lungs. It also leads to glandular swellings, especially about the neck, constituting what is commonly known as goitre or king's evil. Children that are commonly called "rickety" are often the victims of inborn Scrofula.

CAUSE.—Scrofula is often inherited from the bad blood of parents. Improper diet, bad air, irregular habits, lack of nourishing food, and anything that will impair the blood or render it impure will engender Scrofula. The too common use of pork has been supposed to induce it. Scrofula most frequently is found in persons of a sanguine temperament (full of blood), also in those of a lymphatic or soft fleshy temperament.

CURE.—Pure air, sunshine and healthful exercise. Wholesome, nourishing food, especially of fruits and starchy substances, such as oatmeal, etc., rare lean beef and vegetable diet, pure fresh milk and cream. Purify the blood, and nourish and build up the system with the best of all blood cleansers, blood builders and system regulators, namely, Burdock Blood Bitters, which regulates the entire glandular system, purifies it from all humors, and imparts pure, healthy nourishing blood, and gives strength to all the vital powers. Burdock Blood Bitters has cured some of the worst cases of Scrofula on record; cases which for over 25 years had baffled all other treatment. Read the testimony of a few prominent cases, which is but a sample of thousands in our possession.

Running Sore.

I have used Burdock Blood Bitters with the greatest satisfaction for cleansing the blood. I was afflicted with a running sore of the worst description which baffled the best medical skill. I was a great sufferer for three months. My life was a burden when I bought from Mr. Patterson, my druggist, Burdock Blood Bitters and applied Burdock Ointment, when I commenced to improve to the surprise of my friends.

TESTIMONIALS.

SCROFULA.

For upward of twenty years I endured the most awful suffering from a scrofulous abscess on my neck, and notwithstanding the skilful treatment of seventeen of the best physicians in Canada, failed to obtain relief. When I had exhausted all the resources of regular medical practitioners, I resorted to nearly all the patent medicines that promised to cure scrofulous and blood diseases, but without any benefit whatever. Finally, in an almost helpless condition, I tried Burdock Blood Bitters. Thinking that if the medicine was good when taken internally, I reasoned that it must be equally good when outwardly applied. So I wet linen cloth with the Bitters, and applied; also used it as a wash upon the sores. I took these Bitters for about four months, with the most astonishing and gratifying results, and for the first time in four years I was enabled to dispense with surgical aid, which I firmly believe I shall never require again for the same disease. More than two years have elapsed since I have had any attack of the disease, and I feel as well and safe now as if it had never affected me.

I have used Burdock Blood Bitters internally and externally for one of my children, who was afflicted with an obstinate humor of the blood, and whose face was covered with sores, now perfectly smooth and clean; also my servant treated for swelled neck, and many other cases in our parish to whom we have given and recommended the remedy.

Knowing that it cured me, and believing that it saved my life, I most earnestly and heartily recommend it to suffering humanity, and urge all who may be similarly afflicted to give it a trial, believing it to be a true specific for all constitutional scrofulous blood diseases, and unsurpassed as a rare healing remedy of great cleansing and curative power.

Faithfully yours,

William Stout

Sombra, Co. of Lambton, Ont.,

Abscess Cured.

Hearing of the virtues of Burdock Blood Bitters I tried a bottle for the cure of a serious Abscess that had formed upon my daughter's neck. We had tried the usual remedies with no effect, but before she had taken the entire bottle of the Bitters the abscess was cured, and her system thoroughly restored to perfect health. I cannot too highly recommend Burdock Blood Bitters for such a case as that of my daughter.
