The Modern Method Telescopic Silo Filler

The quality of your ensilage depends upon how it is packed. With the

TELESCOPIC SILO FILLER

one man can pack a silo better than several men without it. He will get very even distribution and have leaves, stalks and cobs thoroughly mixed. This new, improved filler is quick, clean and easy—makes better silage and increases the capacity of your silo. Write for folder and Look us up at Toronto and London Exhibitions SOLE MANUFACTURER

Well, Sir, that's some fence

Because of its simplicity and amazing strength, 'Ideal" Fence excites the admiration of every practical mind. "Some fence" is right. Take a look at it-

Ideal Fence

Notice how the Ideal lock takes a "grape-vine" grip of the upright and cross wires in a strong, even, uniform pressure. There are no sharp angular turns to break the surface of the wire and weaken the grip of the lock. Yet it grips, as you see, the wires in five places—twice on the upright, twice on the horizontal and again where the two wires cross. Thus, while it positively prevents either wire from slipping, it allows just enough play so the fence can be erected on hilly ground without kinking the line wires. At the same time, it keeps the uprights perfectly straight. You wonder why Ideal Fences are so free of broken or fectly straight. You wonder why Ideal Fences are so free of broken or bent uprights; well, that's the reason.

May we send you a copy of our catalogue which tells the whole story in a factful interesting way? A post card will bring it premptly.
