

Certain-teed
ROOFING

The General says:-
The only test of roofing is the test of time. This label on

Certain-teed
ROOFING

says that **Certain-teed** must give you 15 years guaranteed service at least. And the biggest roofing manufacturers in the world are back of that statement. The **Certain-teed** label protects the dealer who sells, as well as the farmer who buys.

Your dealer can furnish **Certain-teed** Roofing in rolls and shingles—made by the General Roofing Mfg. Co., world's largest roofing manufacturers, East St. Louis, Ill., Marseilles, Ill., York, Pa.

We are sole Agents in Ontario for

Certain-teed
RED RING ROOFING

See your dealer—if he does not handle RED RING **Certain-teed** Roofing, and Standard Wall Board, write us for samples and prices.

"Standard" Wall Board

is damp proof, will not warp, is sanitary and is cheaper than lath and plaster.

Questions and Answers. Miscellaneous.

Barn Burnt.

A's barn is fired by B's traction engine while travelling along the highway. The engine being an old and condemned one, and not equipped with spark arrester, can A collect damages to the value of the barn from B?

A.

Ontario.

Ans.—We think so.

Registered Clydesdale.

I have a mare with four straight crosses of Clyde. I have the date of the births for the four crosses back; also the names of the horses for the four back. Will she register, and if she will, how will I get it done?

H. R. G. S.

Ans.—We think so. Write "The Accountant," National Live-stock Records, Department of Agriculture, Ottawa, for full particulars. Of course, all sires must be recorded.

Diseased Cow.

A sold a fat cow to B and received the money for her. B killed the cow and found a growth on the inside. Now B wants A to be the loser. Can B come back on A for the whole of the money, or even a part of it? The beast was not guaranteed, although both thought her sound.

A SUBSCRIBER.

Ontario.

Ans.—Judging, as we must, from the foregoing statement of facts, alone, we should say, no.

Pigs on Cement.

Do you think that having a cement floor for pigs would be likely to cripple them in cold weather? It is my idea that it will sometimes, and I do not think pigs will grow as fast when kept on cement floor.

A. O.

Ans.—Cement floors are believed by many to be conducive to rheumatism or crippling of pigs, although we have seen pigs do extra well on such floors if kept well bedded. However, it is generally conceded better practice where cement is used for flooring to build raised sleeping platforms of plank for the pigs, these being placed on top of the cement.

Measures.

1. Which liquids (coal oil, vinegar, maple syrup, and oysters) must be sold, in Canada, by imperial measure, and which may be sold by wine measure?

2. What is the difference in quantity between a quart of each measure?

SUBSCRIBER.

Ans.—All these commodities are sold in Canada by imperial measure. The standard for these two different measures is cubic inches. An imperial gallon contains 277.274 cubic inches. A wine gallon contains 231 cubic inches. A quart by imperial measure would contain 11.55 cubic inches more than one quart by wine measure.

Worms in Horses.

I have a two-year-old colt and yearling filly that throw small white worms. Please give a remedy.

SUBSCRIBER.

Ans.—These are probably pinworms, and may be expelled by an injection per rectum. Take one-half pound of quassia chips and add two gallons water in a pot. Put on the stove and bring to a boil. Then allow it to almost boil for four or five hours, adding a little water if necessary. Strain off now and add sufficient warm water to make a gallon. Inject the rectum with warm water just to remove all faeces. When this is removed, inject the decoction and hold the tail down for at least half an hour to prevent expulsion of the liquid. The worms, if any be present, will be expelled with the fluid. Possibly these are intestinal worms, which should be treated thus: Take three ounces each of sulphate of iron, sulphate of copper, calomel, and tartar emetic. Mix, and make into 24 powders. Give a powder every night and morning, and, after the last one has been given, give a purgative of eight drams aloes and two drams ginger. Feed bran only for twelve hours before and twenty-four hours after giving the purgative. These doses are for a mature animal, but you will have to judge the amounts according to the size of the horse.

\$15⁹⁵ AND UPWARD
SENT ON TRIAL
AMERICAN CREAM SEPARATOR

AMERICAN SEPARATOR CO., Box 1200 Bainbridge, N.Y.

Feed Your Stock on PURE CANE MOLASSES

EXPERIENCED stock feeders know the value of Cane Molasses in toning up the stock and finishing fattening animals. It is extremely palatable and much relished by cattle, pigs and horses. By its sweet taste, great palatability and high nutrient content, it is very valuable to mix with other feeds, especially at this season, when the last stages of finishing fattening animals have been reached and when other feed may be growing scarce. Put up in barrels containing about six hundred pounds, also half barrels.
