QUESTIONS AND ANSWERS. Veterinary.

HEIFER WITH COUGH.

Heifer did not do well all summer. Shortly after going into the stable, I noticed her cough, and she coughed more or less ever since,, and sometimes coughs up a greyish-colored phlegm. The cough is not distressing, merely a forcible expulsion of breath. Some of the other cattle and one horse are now coughing. J. W. K.

Ans.-I am of the opinion the heifer is tubercular, and, if so, it will account for the other cattle contracting the disease, but she is not responsible for the cough in the horse. Isolate her and all others that are coughing, and get your veterinarian to test them with tuberculin. Any that react should be kept isolated and disposed of according to the advice of the veterinarian. If the heifer react, she should be destroyed, as it would be very dangerous to keep an animal showing such clinical symptoms. If none react, you need not be alarmed.

INFECTIOUS ABORTION.

My cows have infectious abortion. I saw an article on the subject in a recent number of the "Farmer's Advocate," but I do not understand:

1. What is corrosive sublimate? 2. How much and how often should it be injected, and what is the best instrument to use?

3. What quantity of carbolic acid should be given?

4. How much of the solution should be used when injecting into the bull's sheath J. E. J. before and after service?

Ans.-In the article you refer to, which appeared in the issue of Dec. 22nd, 1904, page 1,767, all these details were given. 1. Corrosive sublimate is a preparation of mercury, called mercury bi-

2. About two gallons once daily, until the neck of the womb closes so that the nozzle of the pump will not enter. A veterinarian's injection pump is the only suitable instrument.

3. From twenty to thirty drops twice

4. Sufficient quantity to fill the sheath. Of course, it runs out almost at once.

MISCELLANEOUS.

1. Twelve-year-old cow in good condition calved Dec. 15th. Since then, she has become thin and weak, and she slavers a great deal.

2. Mare stalks considerably in stable. I have noticed her pass some worms.

3. Heavy draft filly went lame behind ast June. I blistered the fetlock, but am now convinced the trouble is in the hip. Would you advise a severe blister or a mild one?

4. Cow, dehorned three weeks ago, bled a good deal, and has been stupid ever since. The sore has been kept open, and the pus allowed to escape.

5. Twelve-year-old pregnant mare is subject to a swelling of one of her hind

6. Large-combed fowls got their heads badly swollen. A. McD.

Ans.-1. Have the mouth examined and teeth dressed. Give one dram each sulphate of iron, ginger, gentian and nux vomica and thirty drops carbolic acid as a drench in a pint of cold water three times daily antil appetite improves.

2. See answers to R. T. H. and W. L. this issue.

3. If you are satisfied you have at last located the trouble, apply a severe blister once monthly until cured, but if you are not satisfied with your diagnosis, call your veterinarian in. The trouble may be in the hock.

4. Turn the head three times daily so as to allow pus and serum to escape. Dress the parts with carbolic acid, one part; water, twenty parts each time. It is probable the stupidity will gradually

5. The administration of medicines to pregnant mares for the cure of such ailments is dangerous. See that she gets regular exercise, and feed largely on bran and a little linseed meal, a few roots and hay. Feed little or no grain.

6. All that can be done is to dress daily with carbolic acid, one part; sweet oil, thirty parts.

The effect of Electricity upon the weak, debilitated man is the same as rain upon the parched field in summer. He may be debilitated from varicocele, losses, impotency; may have confusion of ideas; fear to act and decide; gloomy forebodings, timid and fretful; avoid friends and company; without confidence in himself to face the slightest responsibility, and let him properly apply Electricity for but a few hours and all these symptoms vanish. A few weeks to a couple of months' use of this treatment banish them forever, and make strong, confident, manly men out of the puniest weaklings. For nearly forty years I have treated and restored weak men through my world-famed invention, and am still

doing so with greater success than ever. In fact, I do not expect to fail in any case of this kind, and therefore, as most men are more or less sceptical, I will continue to give my Herculex

Dr. Sanden Electric Belt Free Until Cured.

Not one cent is to be paid me in advance or on deposit. Call or write and get the belt, and use, say, for sixty days, and if cured pay me price of belt only-most

DR. C. F. SANDEN, Office Hours: 9 to 6. Saturdays until 9 p m.

cases low as \$4; if not cured return the belt and the deal is ended. But I know what the belt will do, and will take the risk of my pay when you are cured. I also give my belts on same terms in Rheumatism, Lame Back, Stomach, Kidney and Liver Complaints, etc.

As the originator and founder of the electric belt system of treatment, my forty years' success is the envy of many, and my belts of course are imitated. (What good thing is not?) But my great knowledge to advise and direct my patients is mine alone, and free to all who use my belt until cure is complete.

What would you not give to have your old vim back again? What would you not sacrifice

to feel as you did a few years ago; to have the same snap and energy; the same gladsome, joyous, light-hearted spirit and the physical strength you used to have? You know you are not the same man, and you know you would like to be. You might as well be. It's easy. I am making men out of wrecks every day, and the above offer must convince you what I feel I can do

Call or send to-day for my belt; or, if you want to look further into the matter, I have the best two little books ever written upon Electricity and its medical uses, and send them free, sealed, upon request.

140 Yonge Street, Toronto, Ont. Largest and Oldest Electric Belt Establishment in the World.

We Will Buy

A 50c. Bottle of Liquozone and Give it to You to Try

zone, and the product itself can tell it is a germicide so certain that we you more than we. So we ask you to publish on every bottle an offer of let us buy you a bottle—a full-size bottle—to try. Let it prove that it does not kill. The reason is that germs what medicine cannot do. See what a are vegetables; and Liquozone-like tonic it is. Learn that it does kill an excess of oxygen—is deadly to germs. Then you will use it always, vegetal matter. as we do, and as millions of others do.

would certainly not buy a bottle and the tissues too. Any drug that kills give it to you if there was any doubt germs is a poison, and it cannot be of results. You want those results: you want to be well and to keep well. And you can't do that-nobody canwithout Liquozone.

We Paid \$100.000

For the American rights to Liquozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquozone destroys the cause of any germ disease.

Liquozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is Asthma not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas-largely oxygen gasby a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen Colic-Croup does. It is a nerve food and blood food - the most helpful thing in Dysentery-Diarrhea the world to you. Its effects are ex- | Dandruff-Dropsy

We want you to know about Liquo- hilarating, vitalizing, purifying. Yet

There lies the great value of Liquo-This offer itself should convince you zone. It is the only way known to that Liquozone does as we claim. We kill germs in the body without killing less in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Abscess-Anæmia Constipation Catarrh—Cancer

Hay Fever-Inflaenza Kidney Disease
