he Final Battle and Capture of Riel.

BAPRIC ACCOUNT OF THE LAST BATTLE.

The Montreal Star's special correspondint telegraphs the following account of the last battle:

Batoche, N. W. T., May 12.—My presions despatch briefly informed you of the capture of Batoche by our forces and the release of the prisoners, together with the list of killed and wounded. The flair, however, was the most brilliant and ashing of the whole campaign, every man, from the General down to the nodest private in the ranks, exerting inself to the utmost to make this encapture of the second of the second of the second of the second of the rebels. The mistance offered by the half-breeds to ur advance was something terrific, and its wonderful that the loss of life was so mall on our side. Volley after volley of makery was poured into our ranks, but the impetuousness of our charge must are caused the rebel marksmen to become nervous, and their shooting was not early so effective as it would otherwise are been.

DEGISIVE ACTION DECIDED UPON.

have been.

DECISIVE ACTION DECIDED UPON.

When it became known among our men that decisive action had been decided upon there was great rejoicing among all ranks. The fighting of the past few days has had an irritating effect upon the force; and although they fought gallantly and well, the fact of their having to stand for hours at a time up to the waist in cold water, a target for a hundred hidden rifles, was by no means pleasant, and it is not to be wondered at that they chafed under the inaction, and longed to make a dash at the rebels. The chance came at last, and when the order was given that the advance was to begin and an effort was to be made to capture the rebel stronghold, loud cheers rent the air, and preparations were instantly made for the final attack. So great was the enthusiasm of the men that they were with difficulty restrained within the bounds of military discipline, many of the more daring wanting to start off on the "double" and charge at once down into the ravine.

The General had kent his intentions so

at once down into the rayine.

A SURPRISE.

The General had kept his intentions so great a secret that but very few indeed, even among his personal staff, had any idea that a deah had been decided upon by him. Therefore, although the surprise was an agreeable one to our force, it was by no means agreeable to the rebels. That they were taken by surprise is beyond doubt, for at our first forward movement, they seemed to waver in their fire, in fact, their shots came in a straggling manner, and not with the usual precision we had been accustomed to receive such favors at their hands. All being in readiness, the advance commenced shortly before three o'clock, Boulton's scouts and French's scouts leading, being ably supported by the Royal Grenadiers, the 90th Battalion and the Midland Regiment. The rebels were strongly entrenched, occupying nearly the same ground they

Several men of the Grenadiers, 90th, and Midland battalion were also hit by rebel bullets in this volley.

Among the rifle pits.

Uadeterred, however, by the fierce fire, the troops continued to steadily advance, and soon reached the rifle pits, which were each manned by rebel sharpshooters. With bayonets fixed our men advanced on the pits. Here Lieut, Fitch, of the Grenadiers, who was leading on his men, was shot through the head, and died instantly. The officer was much liked by his men and the sight of his fall enraged them. They advanced on the rebels, and being ably supported by the other regiments, after a short, sharp struggle, the rebels were driven from their pits to more secure cover in the village. The fierceness of the attack was evidently a surprise to the rebels, as Riel had been telling his men that the volunteers were a lot of boys who would not stand fire, after half a dozen were shot, and the rebels were led to momentarily expect peace proposals from General Middleton.

A NEVER TO BE FORGOTIEN CHARGE.

our men deshed after the fleeing rebels, and attempted to dislodge them from their cover. This was a work of no little difficulty, and was attended with considerable hard fighting, but, by extraordinary exertions on the part of the men, the rebels were at last dislodged from all the houses in the place, which were captured, and all the prisoners held by Riel released, as I announced in my previous dispatch. Batoche was now ours, and the men cheered lustily over the result of the fight. In several of the houses men, women and children were found hiding in cellars, and in a state of pitcous trepidation.

General Middleton will go to join Col. Otter is an attack on the Indians under Poundmaker. In the march there will be fighting, as the rebels have retired in that direction, but nothing serious is anticipated. Prisoners report the rebels in a state of terror, and nothing but fear of execution and Riel's threats kept them up in the defence.

The half-breeds on the west bank delivered 75 stand of arms to-day. Amongst them were several Winchesters, Sniders, Queen's Own rifles from Battle-ford, and one Springfield U. S. carbine, 1873.

NEWS OF THE WEEK.

The London Post claims Earl Dufferin has written an alarming letter, describing the disastrous effects produced in India by the yielding policy of the Government.

John Bright has written a letter approving of the parliamentary grant of £30,000 year to Princess Beatrice. Bright is astonished to see Liberals object to such a small grant, while silent concerning the extravagance of the Government over unjust wars.

extravagance of the Government over unjust wars.

A procession of Glasgow Orangemen marched into Coatbridge, a suburb of that city, a few days ago, with Orange flags and regalia and a band playing Orange airs. A fierce street fight ensued. The local constabulary restored order after several on both sides were injured. Sixteen rioters were arrested.

Admirers of Mr. James Stephens, exhead Centre of the Fenians, are urging him to return to Ireland and take part in Irish politics. He will be made the recipient of a competency raised for him by public donations. The intention of his friends is to render him so independent financially that he can afford to practically defy the Government.

A Suskim dispatch says Gen. Wolseley has issued a farewell address, announcing the withdrawal of British troops from the Soudan and highly praising the conduct of all departments during the campaign. Hundreds of officers and soldiers from the remnant of Lord Wolseley's Nile expedition are arriving at Wady-Halfa and Cairo. Many of them are on the sick list. General Graham embarked on Saturday for England. A number of other officers left during the week.

The British Government has issued diplomatic papers which state that her Majesty's Government will be compelled to regard as a hostile act any movement of Russis towards Herat. On the other hand, it is announced that Russis has apontaneously disclaimed any menacing intentions in regard to Herat. The British Government is, therefore, favorably inclined to consider that the question at issue between England and Russis has reached a settlement satisfactory to both countries.

Advices from London state the Cabinet

Advices from London state the Cabinet quarrel over the advisability of renewing the Irish Crimes Act has culminated. The minority, headed by Mr. Chamberlain, advocated abandonment of the Act, but the Government decided to propose a renewal of the Act in a modified form for two years. The Parnellites are indignant. They have warned the ministers that any attempt to renew the Act, even in greatly mitigated form, will throw the influence of the Home Rulers' vote in the English constituencies with the Opposition. The Freeman's Journal says:—"The renewal of the Act is a humiliating confession of Gladstone's boasted land act." The Irish Nationalists bitterly denounce the Government for the proposal to renew the Crimes Act. They will introduce a bill next year to establish a Central Control Board of Public Works at Dublin and supersede the present Grand Jury system by elective County Boards. MISTAKES OF MODERN INFIDELS.

The Christian Guardian, of Toronto, thus compliments Rev. George R. Northgraves upon his recent work with the above title: upon his recent work with the above title:—

"Mistakes of Modern Infidels." By Rev. Geo. R. Northgraves. Detroit Free Press Printing House. This volume is mainly in reply to the sneering attacks of Ingersoll. Mr. Northgraves is Roman Catholic priest at Parkhill, Ont. It claims to present "a complete refutation of Colonel Ingersoll's so called mistakes of Moses, and of objections of Voltaire, Paine, and others, against Christianity." This is a really able and clever book, a worthy companion volume to that of Father Lambert. Mr. Northgraves meets the main assaults of Ingersoll with much acuteness and learning; showing that many of the most plausible of these attacks are based upon mis-representation of the real facts, or a misconception of the truth respecting some great principle in philosophy or science. His remarks on the Freedom of the Will and many other points are sound or a misconception of the truth respecting some great principle in philosophy or science. His remarks on the Freedom of the Will and many other points are sound and forcible. It is a notable fact that two of the heat realizate to Incomplete. and forcible. It is a notable fact that two of the best replies to Ingersoll are by Roman Catholic writers. Roman Catholics have not contributed by any means the most valuable works in modern apologetics. But we are bound to say that Mr. Lambert and Mr. Northgraves directly appeal to Reason, Science, and Scripture, in a style that the most staunch Protestants cannot fail to admire.

April 1, 1885.

Rey'd and Dear Sir,—I thank you much for your work, "Mistakes of Modern Infidels," which you were good enough to send me. From what I have read, it seems to be a seasonable and effective reply to current materialism. I am yours very truly, J.T. ONTARIO. (Rt. Rev. J. T. Lewis, Bishop of the Church of England).

Taking the Veil.—Last week Miss Jane O'Hagan, third daughter of Mr. James O'Hagan, of Gatineau Point, and a niece of Sister Theresa, Superioress of the Rideau street convent here, took the veil at the convent of Our Lady of Loretto in Toronto. Miss O'Hagan was educated at the Rideau street Convent in Ottawa and from her general amiable disposition, was a great favorite with all who had the pleasure of her acquaintance. As we stated a few days ago, her father went to Toronto to be present at the ceremony.—Ottawa Sun, May 13.
