Fire.—Shortly after two o'clock on Tuesday morning the fire alarm was rung from box 8. The fire was discovered to be in a house owned and occupied by Mr. Patrick McTaggart on Waterloo street, near Grosvenor street. The origin of the fire is a mystery, but it is supposed to be the work of an incendiary. The house, which was built of brick, was completely destroyed, as was also the furniture. It was insured for \$700, which will probably cover the loss. FIRE.—Shortly after two o'clock on

Drowned.—Information has been received in this city of the drowning in St. Clair River of Mr. Robert Atkinson, Clair River of Mr. Robert Atkinson, brother of Mr. Joseph Atkinson of this city. The deceased formerly lived in London, where he was engaged in the fruit and confectionery business. He about twelve years since removed to Detroit, and was living on the corner of Alexandrine and Third avenues. It appears he was boating near St. Clair City when he was drowned.

THE GOLD MEDAL.—We have noticed THE GOLD MEDAL.—We have noticed by our Toronto exchanges that Miss Annie Moylan, second daughter of Mr. J. G. Moylan, has finished her educational course at Loretto Abbey with the highest distinction. In gradulating she received the gold medal for "supernority in English, honorable distinction in French, German, and instrumental music, and first prehonorable distinction in French, German, and instrumental music, and first premium in oil painting." A contemporary referring to one of her paintings, "Moonrise on the Nile," states that it gave evidence of a high order of talent. Miss Annie Moylan is to be congratulated for having so well emulated her sister, whose success in her studies were recorded in these columns a year ago.—Ottawa Citizen, July 15.

ALLEGED INCENDIARISM.—On Saturday afternoon Bernard Skuse and John Steinhoff, of Westminster, were arrested on a charge of incendiarism, and remanded for eight days. It had been purchased at auction some time previous to this by Messrs. R. Summers, B. Skuse and G. Holmes, with the understanding that it would be removed within a stipulated time. An insurance of \$1,200 was effected on the building and machinery in the Commercial Union Fire Insurance Company. Shortly after this Messrs. No one, including Mr. Summers, had any doubts but that the fire had been caused by an incendiary but, until recently no by an incendiary, but until recently no particular persons were suspected. In the meantime the owner fyled a claim for the insurance, and on being refused entered a suit against the company for the amount.

Prince Edward Island is about 130 miles

Prince Edward Island is about 130 miles long, and ranges in breadth from three to thirty-four miles. It contains a population of one hundred thousand souls, nearhalf of which is Catholic. The Island is beautifully varied with undulating hills, winding valleys and innumerable bays and tiny rivers. The climate is not so severe and force are almost unbeautifully varied with undulating hills, winding valleys and innumerable bays and they rivers. The climate is not so severe as that of Quebec, and fogs are almost unknown. The soil is quite red and resembles brick-dust. Contrary to what one would expect, it is very fertile and produces large quantities of oats, barley, potatoes and hay. The farmers export but little wheat. The whole island is surrounded by fishing vessels, which from morning to night are being filled with cod, niackerel and herring. Near our stopping place are several very large establishments devoted to packing lobsters in tin cansfor all parts of the neighboring Republic and England. Education in this Island, whatever others may say to the contrary, is well adapted to the wants of the inhabitants. The people are well-made, tall and clear-complexioned. Most of them are of Irish or Scotch descent, with a fair sprinkling of Acadians and French Canadians. The priests, at least those I have seen are well educated, two of them besprinking of Acadians and French Canadians. The priests, at least those I have seen, are well educated, two of them being D.D.'s from Quebec. All but seven of forty priests are natives of the diocese, and

in appearance and manners are gentlemen.
I don't think there are half-a-dozen priests
in Prince Edward's Island who taste any kind of intoxicating liquor; most of their parishioners are absolute teetotallers. Were it not for the great cold, I would feel quite contented to stay a month here; as it is, we are in daily expectation of a change, when, as Father Shelan says, we can quench again the parlor fire.

Your letter reached us this morning, larly 22rd after five day's incurred and put

Judging of it by what I have read, I am confident that this work will not fail to edify and instruct its readers and to inspire them with the love of Christ and of His Blessed Mother. I believe that it is eminently suited to the of Christ and of His Blessed Mother. I believe that it is eminently suited to the age and country in which we live. At a time when the charity of many has grown cold, when the fundamental principles of Christianity are daily assailed, when Christian piety, which grows and flourishes only under the shelter and in the light and heat which these principles furnish, is openly ridiculed and contemned, when the Catholic laity are forced to breathe the poisoned atmosphere of irreligion and indifferentism that surrounds them, it believes the ministers of God's Church now more than ever to hold up before our people. hoves the ministers of God's Church now more than ever to hold up before our peo-ple the "Divine Exemplar" once shown on the mountain, the contemplation of which is alone able to heal the bites and wounds is alone able to heal the bites and wounds of the fiery serpents of religious error and unbelief.
