SMITH'S OVARY TONIC

MAKES HENS LAY

When eggs are 40c. and 50c. a dozen, there is good money in them. That is the time YOU will have plenty of EGGS TO SELL, if you give your hens Smith's Ovary Tonic regularly once a week.

It makes hens lay, Winter and Summer. Of course, if you want eggs all the year round, you have to give hens Smith's Ovary Tonic all the year round. Start NOW.

25c. and 50c. a bottle. At dealers.

NATIONAL DRUG & CHEMICAL CO., LIMITED, MONTREAL

IMPROVED FARMS

We have a few special chances to locate some good farmers on first-class improved farms in one of the best farming districts in Saskatchewan. Main line C. P. R., good town, six elevators, good schools, fertility of soil, unequalled. Terms easy. Write at once for particulars, stating how much land wanted, whether you want all prairie or partly wooded, all for wheat or mixed farming, and the amount you can pay down. Information and experience of 24 years residence in the country is at your disposal for the asking.

Start Your Crops Right By Proper Seeding

NOW is the time to begin thinking about the production of Bumper Crops for 1907.

The time to start such crops is when you prepare the seed bed.

Nothing is more important than having the ground in right condition and the seed properly planted.

You take no chances with the McCormick line of machines and implements. In their long and successful history they have been perfected to meet every condition.

McCormick tillage implements are peculiarly fitted to meet the requirements of crop growing in Western Canada, and fulfil the demands of farmers in this region where proved superiority is wanted.

The McCormick line of drills includes Disk Drills, Hoe Drills and Shoe Drills.

Simple but effective safety devices are provided to prevent breaking in passing over roots and stones.

Hoe Drills may be quickly changed to Broadcast Seeders. Shoe Drills are especially adapted to loamy soils, and being driven from both wheels, an even flow of seed is made certain at all times. The Cultivator and Seeder is easily changed from one to the other.

The McCormick Disk Drill, herewith illustrated, is especially adapted for drilling stubble or trashy land. The spaces between the disks are wide enough to prevent the drill from choking or clogging. Just the drill for seeding on fresh breaking or sod plowing. Cuts up the earth and makes a fine seed bed. Made in three sizes: 15, 17, 19 disks.

McCormick Inthrow and Outthrow Harrows work the most stubborn piece of ground into condition. The disks are made of special

tempered steel, and can be set at any angle by means of the levers. There is no side draft. No matter what difficulties the soil presents, this harrow will work perfectly.

McCormick Smoothing Harrows have the greatest strength and durability possible. Frames and tooth-bars are channel steel. The upper ends of the steel teeth are threaded and bolted to the frame which is rigidly clamped together.

These harrows can be supplied in two, three, four, five or six sections.

The McCormick line is complete, and includes, in addition to the above, Spring-Tooth Harrows, Scufflers and Land Rollers.

Call on the International Local Agent or write nearest Branch House for Catalog.
