SIR CHARLES TUPPER.

HUGH JOHN MACDONALD.

Sir Charles Tupper and Premier Hugh John Macdonald are now touring Quebec and meeting with great ovations everywhere. On Monday evening of this week so great was the throng gathered to greet them at Montreal that thousands were unable to gain admission to the hall. A second meeting was held there last night in the open air, at which 5,000 persons were present.

THE MARKETS

CHATHAM GRAIN MARKET.

Wheat—Light deliveries as yet. The market, however, has a little better tone, and the expectations are for better prices in the near future.

Beans—The new crop has made its appearance on the market, and during the next fortnight a number of cars of the new crop will be sent forward to eastern points. So far, however, the samples do not compare favorably with last year's crop.

Corn—The harvest has begun and the yield will be splendid in quality and quantity.

ONE LONE ROBBER.

He Plundered a Train in Nebraska and Got Away—Reward for Capture.

Denver, September 13.—Burlington train No. 1, known as the Overland Flyer, was held up by a lone highwayman at 2 o'clock yesterday morning five miles east of Haight, Neb., near Colorado line. The robber secured about \$500 in cash and probably twice that much in diamonds and watches, then made his escape by bringing the train to a stop. He went through both sleepers, but did not molest the passengers. Railroad officials offer \$1,000 for his capture, and posses have started out in all directions.

Why is it difficult to flirt on board the Cunard steamers? Because all the mails (males) are tied up in bags.

Farmers should read carefully this testimonial
—It will tell them what the operators of the

COLUMBIA CORN HARVESTER

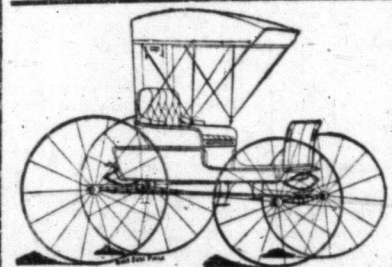

think of it. These statements are from men who have used it a whole season and know what they are talking about.

GEO. STEPHENS & CO.,
Chatham.

DEAR SIR:—
Having purchased one of your Columbia Corn Harvesters last season will say, they are the best we have ever seen at work, having seen all the leading machines working in the field. We cut over one hundred acres last season. Machine runs easy, no side draft, knocks off very few ears, ties all and makes a perfect bundle. Works perfect in either hard or drilled corn. Cut drilled corn over twelve feet tall after it had been killed by frost and knocked down flat by storm, picked it up and done good work. It can be easily adjusted to make any size sheaf, and the drive wheel is so made that it will work in very soft ground.

Yours truly,
CHARLES BELLEMY,
W. F. BELLEMY.
