

## HOW DOES A MOSQUITO BITE YOU?

**She Carries a Set of Lancets, and Her "Bite" is in Reality a Surgical Operation**

Perhaps up to this time you have been content to let Miss Mosquito—forget only the female mosquito bites—and have never taken the trouble to find out how she does it. Sketch No. 1 will show you how the mosquito's head looks when greatly magnified. A to E are four sharp lancets. Upon settling on your skin, Miss Mosquito brings these lancets into one close bunch and presses their united points through your skin. Then she pulls out the lancets, puts in her proboscis, or trunk (D), and sucks up a drop. Not content with that, she inserts a blood of an irritating fluid, and it is this that causes the keen smarting and itching.

You see, therefore, that every mosquito bite is in reality a small cut, and that into every cut she drops a irritating and poisonous fluid is injected. Here is just where the value of Zam-Buk is easily demonstrated. Zam-Buk is not only a healing balm, which soothes, closes up and heals cuts, wounds, etc., but it is also an antiseptic. Well known that mosquitoes spread fever by injecting their poison! Zam-Buk is good for insect stings, but it is good in a far wider sense. It prevents harm arising from poison in any wound, not only in the bites or stings of insects.

After a long series of experiments, testing the effects of Zam-Buk on harmful and poisonous bacteria and disease germs, Mr. W. L. Lancelotti, the noted analyst, reported that "the antiseptic and bactericidal powers of Zam-Buk exceed those of the caustic carbolic acid of commerce." Think what that means! Everybody knows that caustic carbolic acid will kill every disease germ with which it is brought in contact. But nobody would dream of putting this powerful irritant on to a wound or sore. Yet Zam-Buk has more power to kill germs than this highly caustic substance, and still it can be applied to wounds, ulcers, bites, stings and skin diseases, and injuries of all kinds. When so applied it soothes the pain, while its antiseptic powers are in full operation. It stimulates the cells immediately under the epidermis and builds up new, healthy skin. It combines germ-killing power of the highest order with soothing and healing. While being one of the most powerful antiseptics yet discovered, it is so mild and so soothing that the skin of a newly born babe is benefited by its application.

\* My baby had a rash on the skin some

thing like eczema, writes Mrs. J. Reesor, of Aurora. "It was very troublesome and made the child very ill. I tried all sorts of ointments and salves, but no good came of their use. Then Zam-Buk was brought to me and the third supply cured the little one completely."

"I never saw anything heal so quickly in my life as a deep cut on my husband's chin healed when we applied Zam-Buk," says Mrs. H. T. Parks, of Washago, Ont. Mrs. J. F. Baker, of Aultsville, says: "I think Zam-Buk just fine for skin diseases. Having once proved it, I would not be without it in the house." The Canadian wrestler of America, Mr. Hugh Lannon, says of it: "Zam-Buk heals cuts and bruises as nothing else does that I have even met with. I had a piece of flesh badly torn on my arm, and anticipated being unable to use my arm for a long time. In two days Zam-Buk closed the wound and in a few days it was covered with new skin. I shall always give Zam-Buk a good name."

The Rev. W. C. Leeper, of Melville Rectory, Suffolk, says: "For years I suffered from piles, but Zam-Buk cured me. I have great confidence in recommending it."

And so, wherever you may be, or in whatever station of life, you inquire, Zam-Buk is praised by all. It is made from vegetable essences and contains no trace of any animal fat or any mineral coloring matter. It is easy to apply, is always cleanly, never stains or dyes, and in every way is an ideal healer. All druggists sell it at 50 cents a box, or you may obtain it direct from the Zam-Buk Co., Colborne St., Toronto, upon receipt of price. While of course good for all skin injuries and diseases, Zam-Buk is especially good for insect

Gadfly (A), and one of his saw-like jaws (B), with which he saws through the skin to suck the blood.

bites and stings, cuts, burns, bruises, eczema, pimples, running sores, spreading scabs, scalds, sears, poisoned wounds, festering sores, piles, ulcers, bad legs, abscesses, boils, ringworms, erysipelas, scrofula, psoriasis, barbers' rash, stiffness, rheumatism, and all kinds of chafed, chapped, diseased or inflamed conditions of skin and tissue.

To obtain a free trial box cut out this article and write across it the name and date of this paper. Then mail it to the Company at above address together with your full name and address, and a one-cent stamp to pay return postage. Your application will then receive immediate attention.

## JEWS TORN TO PIECES

**Mad Orgie of Blood Which Continued For 72 Hours.**

**Savage Bestiality of Russians Who Burned and Sacked Jewish Dwelling—Slaughter and Pillage Went on Unchecked for Three Days—Troops Fired Into the Houses of the Hunted and Persecuted Race.**

Gredno, Western Russia, June 21.—Owing to the refusal of the censor at Bialistok to permit the free telegraphing of the result of the investigation of the massacre of Jews there, the correspondent of the Associated Press came here. The anti-Jewish rioting at Bialistok is now ended. The troops are in full control, and in view of the outcry raised it is certain that the authorities will not permit a renewal of the horrors recently witnessed at Bialistok. This entire region is greatly excited owing to fear that the Bialistok massacre was only the signal for a general attack on the Jews throughout the pale and in Poland, but if any such conspiracy existed it is too late to carry out the plans, as the most imperative orders to prevent further outbreaks have been issued. The governors and governor-generals from St. Petersburg. Awful Savagery.

When the correspondent arrived at Bialistok Sunday morning the worst was already over, but on all sides there was revolting evidence of savage bestiality on the part of the blood-drunk mobs, which sacked and burned the Jewish houses, shops and stores. For seventy-two hours, with a slight abatement during the daytime, the mad orgy of blood and pillage went on unchecked. The inhumanity displayed would have done credit to the mongrel hordes of Genghis Khan in his conquests of China and Central Asia early in the thirteenth century. At first police and troops urged on the mob, but finally, when dismayed by the bloody deeds accomplished, they reluctantly sought to obey the orders of their superiors to put an end to the work of the rapacious bandits. The troops, who were so far beyond control of the local forces that regiment after regiment had to be thrown into the city before order could be restored.

Like Wild Beasts. During the night the Jews were hunted down by ferocious pursuers, who in the majority of cases were not content with killing mere victims, but tore them to pieces like wild animals. And while this was in progress, the troops either stood idly by or, as was more frequently the case, fired into the houses and shops where Jews were concealed, under the pretext that they believed them to be revolutionists, but really in order to make way for the murderers and plunderers who followed in the soldiers' wake.

While it is impossible to give the exact figures, the visits of the correspondent to the hospitals and cemeteries enable him to approximate the killed at one hundred Jews and twenty Christians and the wounded at one hundred and fifty Jews and seven Christians.

Origin of Massacre. The question of the origin of the massacre was carefully investigated. Although many of the Jews denied that a bomb was thrown at the Orthodox procession Thursday, in honor of Corpus Christi day, that a bomb was thrown the fact is established beyond a doubt. But the question of who threw the bomb remains unsettled.

The accounts of impartial witnesses, however, demonstrate that an insulting cry enraged the Jews, who attacked the religious procession. Then from one end of the city the other the police fanned the religious fanaticism of the Christians and setting loose the worse elements upon the Jews, on whom the crowds watching the procession had already turned.

Government Knew of It. As proof of the charge that the massacre was prepared in advance, the Jews claim that the keepers of the Government wine shops received notice the day before the outbreak to remove their cash from the shops to safer places.

Soldiers Laughed. The Jews at first fought with revolvers and bombs, and with these weapons the majority of the Christian victims were killed. But the Jews were soon overwhelmed and fled for shelter into cellars or attics. The soldiers watched this chase and butchery, sometimes laughing with indifference but never failing to fire into houses where Jews, sometimes to the number of a hundred, were making a stand against their assailants.

A member of the Parliamentary Commission investigation says it has failed to find evidence that the massacre was planned at St. Petersburg, nor that the chief of police of Bialistok was a party, but the responsibility of his subordinates is proved. The thrower of the bomb is not yet discovered.

Treppoff to Form Cabinet. London, June 21.—The Tribune's correspondent at St. Petersburg asserts that Emperor Nicholas is urging Gen. Treppoff to negotiate a Cabinet.

Three Men in the Murders. Perth, June 21.—"I am perfectly satisfied that I will be able to prove the case."

This was the emphatic declaration made last night by Chief of Police M. D. White, referring to Sandy Bedour and Frank Beaver, the men alleged to have murdered two Shabrook Lake boys four years ago. Another assertion by Mr. White causes the mystery to further thicken. "There is a third party implicated, but he declined to say more."

His Life For His Cause. Cobalt, June 21.—Another drowning is reported from up the Montreal River. George Nicholson, on the Chatham staff of the T. & N. O. Railway, lost his life near Indian Chute in trying to save his canoe.

Clydesdales For Canada. London, June 21.—(C. A. P.)—Fifty-five well-bred registered Clydesdales have been shipped from Glasgow to Canada.

## A HEALTHY OLD AGE

**OFTEN THE BEST PART OF LIFE**  
Help for Women Passing Through Change of Life.

Providence has allotted us each at least seventy years in which to fulfill our mission in life, and it generally our own fault if we die prematurely.

Mrs. M. J. Dabrowski

Nervous exhaustion invites disease. This statement is the positive truth. When everything becomes a burden and you cannot walk a few blocks without excessive fatigue, and you break out into perspiration easily, and your face flushes, and you grow excited and shaky at the least provocation and you cannot bear to be crossed in anything, you are in danger. Your nerves have given out; you need building up at once! To build up woman's nervous system and during the period of change of life we know of no better medicine than Lydia E. Pinkham's Vegetable Compound. Here is an illustration. Mrs. Mary J. Dabrowski, of 150 Main Street, Winnipeg, Manitoba, writes: "Dear Mrs. Pinkham:—I have been suffering from nervous exhaustion for some time. I had been very nervous and excited, and my face flushed, and I grew excited and shaky at the least provocation and I could not bear to be crossed in anything, I was in danger. Your nerves have given out; you need building up at once! To build up woman's nervous system and during the period of change of life we know of no better medicine than Lydia E. Pinkham's Vegetable Compound. Here is an illustration. Mrs. Mary J. Dabrowski, of 150 Main Street, Winnipeg, Manitoba, writes: "Dear Mrs. Pinkham:—I have been suffering from nervous exhaustion for some time. I had been very nervous and excited, and my face flushed, and I grew excited and shaky at the least provocation and I could not bear to be crossed in anything, I was in danger. Your nerves have given out; you need building up at once! To build up woman's nervous system and during the period of change of life we know of no better medicine than Lydia E. Pinkham's Vegetable Compound. Here is an illustration. Mrs. Mary J. Pinkham's Vegetable Compound. Here is an illustration. Mrs. Mary J. Dabrowski, of 150 Main Street, Winnipeg, Manitoba, writes: "Dear Mrs. Pinkham:—I have been suffering from nervous exhaustion for some time. I had been very nervous and excited, and my face flushed, and I grew excited and shaky at the least provocation and I could not bear to be crossed in anything, I was in danger. Your nerves have given out; you need building up at once! To build up woman's nervous system and during the period of change of life we know of no better medicine than Lydia E. Pinkham's Vegetable Compound. Here is an illustration. Mrs. Mary J. Dabrowski, of 150 Main Street, Winnipeg, Manitoba, writes: "Dear Mrs. Pinkham:—I have been suffering from nervous exhaustion for some time.
