SUSTAIN DEFEAT
BY THE JAPS

Continued From Page One.

...will greatly enhance their prestige.

The Daily Telegraph, in an editorial, takes the rather extreme view of summing the capture of Kullens-Chang to Waterloo and Plevna, and says that the present misfortune is even more serious, because the Russians have been driven from a fortified position in spite of every advantage conferred on its defence by modern weapons. "The fight," the editorial says, must modify forever the destinies of Europe and Asia.

The Daily Mail's New-Chung correspondent hears that the Russians are accumulating great quantities of stores at Tieling, forty miles north of Mukden, as their principal base of supplies. The news of the very serious losses suffered by both sides are reported too late to appear in the London morning papers, and those losses have not yet mentioned in despatches from Russian sources.

WANDERING WIFE

Leases, an Indian, telephoned Chief Higgins this morning from Brigidon, asking the Maple City Chief to look out for Leases' squaw, who had deserted the wigwam of her liege lord without cause or provocation. The Indian wife had set the reservation at Samia about a year ago, and had come to Walpole Island. Leases now believed that his wife was in Chatham and asked Chief Higgins to look her up and return her. She could easily be recognized by her name, which was Pukurthm. This is probably Indian for wandering squaw.

SATCHEL OF
THE SATELLITE

It isn't the peach crop at all that was destroyed. Somebody has discovered that it was the strawberry crop.

This weather will do very nicely for mine, only I'm afraid the weather man will do this kind up in small parcels.

The old boys can have the freedom of the town when they come home, and anything else they may find lying around not nailed down.

I think Hicks is to blame for the weather we have had. When he started making weather we had a rainy summer and we've had it ever since.

The Stratford papers remarked that Chatham had two miles of pavement and the Banner endorsed the statement. The ignorance of the Stratford papers is excusable.

"Here's one for you," said the "answers to correspondents" editor.

"What 'is'?" asked the horse reporter.

"A chap writes to inquire how much rope he should give a spinster who shows symptoms of proposing," rejoined the other. —Chicago News.

"Your narrative is too highly colored," remarked the editor, returning the bulky manuscript.

"In what way?" inquired the disappointed author.

"Why," replied the editor, "in the very first chapter you make the old man turn purple with rage, the villain turn green with envy, the hero turn white with anger, the heroine turn red with blushes, and the coachman turn blue with cold." and the boy choked and turned black in the face. —London Titbits.

TO THE OLD GIRLS.

"Well, ye no come back again, Better lo'd ye canna be, You'll be welcomed even more than the old boys, and you can have his all."

NEED A BODY LIE?

If a body takes a body Just to make him spry, And the toddy make him noddy, Need a body lie? Oh, a body acts but shoddy Boldly to his wife defy; Tell the body he got noddy Jeagging through the rye. —New York Times.

GUTTEROLOGY.

Rev. Cortland Myers, of Brooklyn, N. Y., in a recent sermon made a highly important and true contribution to what may be termed the science of gutterology. Said he: "Many a ruined life has started downward from an apparently innocent game of croquet. The steps in the downward course are six:

1. Progressive eunuch.
2. Poker.
3. Cigarettes.
4. Cocktails and whiskey.
5. Neglect of home, financial and moral ruin.
6. The gutter.

THE STORY OF LIFE.

Making the best of life is getting the best health you can out of it—good digestion is the key. What you eat may or may not do you good. It depends upon how it is handled by the digestive apparatus of the stomach. If it is deranged, the blood, instead of taking new life and strength to the various organs of the body, takes poison which clogs the kidneys, irritates the nerves, distends the heart, causing headache, sleeplessness, weary, dull feeling, backache, rheumatism, neuralgia—makes the complexion sallow—causes biliousness and constipation. The great new discovery ANTI-PILL has a marvellous influence in correcting a crippled or rebellious stomach, and the results that follow—ANTI-PILL is the most perfect help to have when you feel wrong, out of sorts, sick or getting sick. It brightens you up—makes you feel better. 50 cents per bottle at druggists or Wilson-Fyle Co., Niagara Falls, Ont.

Liquor Given Away and Drunkenness
Rampant—Four Unruly Ones
Under Arrest.

Toronto Junction, Ont., April 30.—At 6 o'clock to-night the scenes consequent upon the final hours of liquor selling in the town assumed riotous proportions. Fully 10,000 people thronged the streets in the vicinity of the hotels. Thousands of people came from Toronto, where the hotels were all closed tight owing to the by-elections, looking both for drink and excitement, and such a disgraceful spectacle as that presented to-day has probably never before been seen in Canada. When the factories closed at 1 o'clock many of the men remained around the streets to see, and some to participate in the revelry. Then each succeeding street car from the city began to add scores to the crowds, bringing out a portion of the most undesirable element. The six hotels of the town have been jammed to the doors. At 5 p.m. drunks were being sold at one-third the usual price. Three glasses of beer or spirits were being disposed of for 5 cents, and in the last half-hour, prior to 7 o'clock, when Chief Royce ordered the liquor given away free.

Just before 7 o'clock the police attempted to make an arrest. Sympathizers attacked the constables and attempted a rescue. Chief Royce finally drew his revolver and threatened to read the riot act, and then two drastic means to quiet the mob. Four arrests have been made and the crowd is surrounding the court house and threatening trouble.

The prisoners were conveyed to the station, followed by several thousand people who surrounded the building, and made verbal demonstrations of violence, but took no means to carry them out. Other arrests were also made, and by about half-past eight there were six prisoners in the cells. No charge was placed against them, but they will probably answer for disorderly conduct.

After the hotels were closed and the supply of liquor cut off, the pugmacy of the revelers began to ease off. As night came on, too, the cars began to take away loads of drunken passengers. Many hundreds still remained, however, to congregate on the corners and in front of the closed bars, where they proceeded to make the night hideous by their disputes, singing and using vile language. Police guarded the doors of the hotels and saw that no liquor reached the crowds but hundreds of flasks and bottles were scattered in the crowd, and open drinking along the streets.

The local option by-law went into effect at 7 o'clock, and for three years the citizens of this town will be without liquor as a beverage. The people by a vote last January decided that liquor must go, and now they did. Six hotels and one liquor store are affected by the new regime.

HONORED HIM

Officers and Employees of the Chatham Gas Co. Express Appreciation of Retiring Accountant.

The President of the Gas Company, Wm. Ball, Secretary-Treasurer and Manager P. S. Oate and the employees of the office and works gathered together at the offices on Saturday afternoon at five o'clock for the purpose of making two presentations to E. W. Long, the chief accountant, who recently resigned his position.

Chief electrician Frank Hayes opened proceedings with a short speech, explaining the ending of the meeting. Secretary-Treasurer and Manager Oate then, after a short complimentary address, read a resolution drawn up by the officers and directors of the company, in which was expressed their sorrow at losing so valued an employee, also their best wishes for future happiness of Mr. and Mrs. Long. Mr. Oate then presented Mr. Long with a purse of gold. President Wm. Ball in a few words spoke enthusiastically of Mr. Long as an accountant and a business man. He was sorry to see him leave.

The new accountant, J. A. McCullum, on behalf of the employees, then read the following address:

To Mr. E. W. Long:—On the occasion of your departure from our city to take up your residence in the Canadian Northwest, we, your fellow employees in the Chatham Gas Company, desire to convey to you in this form an expression of the admiration and esteem in which we have learned to hold you during the several years we have been associated with you.

We unite in expressing to you every good desire, and heartily wish for Mrs. Long and yourself continued and increased prosperity in your new Canadian home.

Messrs. Grandin and Hays, foremen of the electrical and gas departments respectively, presented Mr. Long with a splendid revolver, a riding belt and hunting knife.

Mr. Long's reply was short but from the heart. He thanked them for the eloquent address upon him and expressed his deep appreciation of the gifts.

Mr. Long, David Brown and Frank Bishop leave early to-morrow morning for Medicine Hat, A. W. T. near which town they intend being ranching.

SABBATH OBSERVANCE

Rev. T. Albert Moore, secretary of the Lord's Day Alliance for Ontario and Associate Secretary for the Dominion, occupied the pulpit of the First Presbyterian Church in the morning and of Park Street Methodist Church last evening and preached excellent sermons on the observance of the Sabbath. Mr. Moore spoke of the immigrations into the country during the past few years of foreigners, who have brought their European habits with them. He said they did not observe the Sabbath and made no attempt to do so here, introducing their habits into the places where they settled. He said there were 150,000 men working every Sunday in Canada. In some cases it is necessary but in most cases it is entirely unnecessary but the good for good argues men on. The Rev. speaker talked of the work the Alliance was doing to try to stop Sunday labor. He said the capitalists from the country to the small had a great deal to do with Sunday labor in Canada.

ELECTRIC LIGHTING

The Property committee of the City Council, Chairman John Hammondson, Ald. W. H. Weston, Ald. McKinnon, Ald. Martin and Mayor McKinnon met Mr. Stewart Saturday afternoon and discussed changes and alterations to the civic electric light plant, which are necessary to secure satisfactory lights. Mr. Stewart represents a Cincinnati electrical firm. The civic plant needs both more power and more electricity. Mr. Stewart offered the Property committee one dynamo to do the whole work, or a dynamo that would give sufficient electrical fluid, with the assistance of one of the other dynamos which the city now has, and he would take the other two dynamos on account. Mr. Stewart says that the system in use here wastes a lot of energy and that a system much more economical could be instituted. He advised the committee an enclosed lamp, which only needs trimming once or twice a month. City Engineer Jones has invented and patented just such a lamp. One is in use on Kirk street now. This lamp insures a saving in fuel and doesn't need trimming so often. It now costs the city \$700 a year for carbons and nearly \$1,000 for two trimmers. If the enclosed lamps were used the city would save nearly a thousand dollars a year, it is said. The Property committee realize that they are face to face with a problem and that they have got to do something with the electric light station to improve the quality of the light and to put up new lights where they are needed. The committee, in consequence, is gaining all the information that they possibly can.

SOMETHING GOOD

Madame West Talks to The Planet About the Wheeler & Wilson Sewing Machine.

If an article is good it will sell itself, without being constantly pushed ahead by agents. This is the principle upon which Madame West, the enterprising dressmaker for the firm of Thibodeau & Jacques, with the Wheeler & Wilson sewing machine. Madame West is the sole agent for this popular machine. She is a dressmaker of very high standing both with the public and with the other members of her profession, and as such she is in a perfect position to give advice relative to the purchasing of sewing machines. In reference to this machine she said this morning:

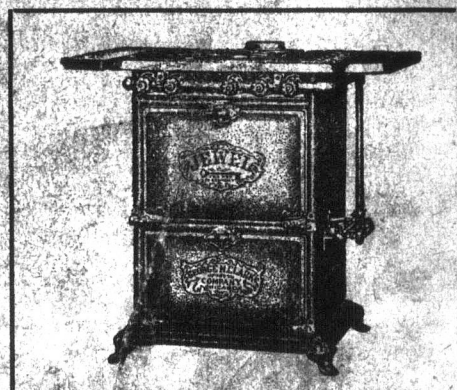

Umbrellas

There's no more necessary article than an Umbrella in the Spring. We are prepared to show you an immense range, at prices that even wholesalers find it hard to duplicate. All prices, styles and sizes.

Neat, tight rolling 25 inch Umbrellas with steel rods, some with patent runners, 50c., 75c., \$1.00, \$1.25 up to \$6.00.

Self opening Umbrellas \$1.50.

Heavy and large Carriage Umbrellas, 85c. and \$1.00.

The stains are true to nature, clear and rich. We also pay special attention to

CREOSOTE SHINGLE STAINS

for dipping or brushing shingles. They give beauty and permanence to shingle work, and a set of samples will be mailed FREE to any one.

Geo. Stephens & Co.

Ayer's
Cherry Pectoral

Cures consumption. Not all cases, but very many. Your doctor will tell you more about this cough remedy.

She is a dressmaker of very high standing both with the public and with the other members of her profession, and as such she is in a perfect position to give advice relative to the purchasing of sewing machines. In reference to this machine she said this morning:

"The Wheeler & Wilson is the simplest sewing machine made. The easiest to manage, and least liable to get out of order. It will easily sew fabrics of every description and work that cannot be done with other machines unless by special adjustments and great skill on the part of the operator. It cannot start in the wrong direction, and is the only lock stitch machine so made. The thread does not come in contact with oiled parts, which is not true of other machines. An oil cup on the needle bar prevents oiling the needle throat. In fact," concluded she, "it would be impossible to tell you all about this machine. It is the finest I have ever seen."

Madame West came here from Ridgeway last March and has since been managing the dressmaking department of the Thibodeau & Jacques store. She was for 16 years in business in Ridgeway, employing a large number of dressmakers. She has worked up a good business here and now employs 15 girls and has four Wheeler & Wilson sewing machines in operation. She has for eight years been in agent for the Wheeler & Wilson Company and she intends to work in her agency in the Maple City. She has sold a number already in Chatham. Miss West is a very pleasant conversationalist and has a very clear manner of explaining the different points of merit in the machine she sells. She has a machine on hand in the waiting room of her parlors in the Thibodeau & Jacques store, and would be pleased to receive a call from any Maple City lady who wishes to examine her sewing machine.
