Do you have pains about the chest and sides, and sometimes in the back? Do you feel dull and aleepy? Does your mouth have a bad taste, especially in the morning? Is your appetite poor? Is there a feeling like a heavy load upon the stomach? Sometimes a faint, all-gone sensation at the pit of the stomach, which food does not satisfy? Are your eyes sunken? Do your hands and feet become cold and clammy? Is there a giddiness, a sort of whirling sensation in the head when rising up suddenly? Are the whites of your eyes tinged with yellow? Is your urine scanty and high colored? Does it deposit a sediment after standing?

If you suffer from any of these symptons USE SMITH'S CHAMOMILE PILLS.
