## GLASS HOUSES

"WITHIN ten years people in this country will be building houses of glass which will excel in sanitary appointments, beauty and durability and also low cost of maintenance any type of structure of the present time. In other words, the American people within ten years will be living in glass houses. They will thenceforth be unable to throw stones."

This was the interesting declaration made recently by Rodger S. Pease, one of the oldest glassmakers in the United States, a man who has taken an active part in all the improvements that have set the glass world face to face with new conditions and placed it in line for the greatest development in its long history. By glass houses Mr. Pease said he meant just what he said—foundations of concrete which are now recognized as standard; the walls of wired glass and the floors of tile, covered with a light sheeting of wood. Such a building will prove practically indurated, can be made of any set of colors desired and requires no painting, no papering inside, will be sound proof, moisture proof and fire-proof.

Mr. Pease has planned a house that will be composed of glass and is going to have it finished in some color that will make it attractive, and such colors will be permanent.

The moment this idea is started, Mr. Pease declared, the public will be quick to see the value of the material. Its cheapness and reliability are understood. Glass, he said, is the most honest and most easily understood material in the world. It is not mysterious, and people will not have to employ experts to see that the quality is right. The glass for the walls of houses need not be transparent, but dense, like slate or stone. It will, however, be hard and durable.

The roofs can be of the same character of glass. It withstands heat and cold alike, and whatever patents may interfere with the cheapness of the material now are so nearly expired that it will be but a short time before these will be eliminated as a cost factor.—Pittsburg Gazette-Times

## THE FOREIGN ELEMENT.

The war caused Canada to scrutinize more carefully its foreign population, and the recent strike troubles have led to a further analysis of citizenship, particularly in the western provinces. In the days before the war there was little discrimination in the matter of immigration, and when the testing time came this country found that it had within its borders not only a great number of enemy aliens but also many people from other countries who were unwilling to fight for Canada, who had not learned English, and who had no appreciation of the nature or value of free institutions.

Coming down to present day conditions, recent statistics show that in Manitoba there are 170,000 men above the age of sixteen years. Of these 110,000 are of British or Canadian stock, 29,000 are naturalized foreigners, and 30,000 are aliens who never have been naturalized. In other words, 68,000 of the men of Manitoba, about two-fifths of the whole, are of foreign origin; a great many of them live in the cities, and their presence there has greatly complicated the labor troubles.

Canada's new immigration law will lead to the exclusion of many such foreigners in coming years, but in the meantime it may be necessary to

COPENHAGEN  
CHEWING TOBACCO

Copenhagen is used differently from ordinary chewing tobacco. Take a small pinch, for a start, and put it between the lower lip and gum, in the centre.

Afterwards you can increase the size of the pinch to suit the strength of the chew you desire.

Copenhagen is strong, because the tobacco of which it is made is cut into fine grains which makes it impart its strength thoroughly and quickly.

Hence, a little "pinch" goes a long way, showing that Copenhagen is not only an extremely economical chew, but also one of the finest quality, being made of the finest, old, rich, high-flavored tobacco.

send back to the country of their origin the more objectionable of those who have already settled in Canada. There should be no hesitation in the cases of any who preach or attempt to practice revolutionary doctrines. This country cannot afford to show tenderness toward those who are the enemies of the constituted authorities, or who wish to introduce here the schemes and principles which have been such a curse in other lands, notably Russia. Nor should Canada hesitate about expelling men of British birth if they preach anarchy or seek to upset the free institutions under which we live. We have in this country orderly and legal methods for bringing about reforms. These are not necessarily slow. By combined action at the polls a majority may always impose its will upon the government of the day, civic, provincial, or national, or elect a new government representing its ideas. There are men who are not content with these orderly and constitutional methods, but who believe that a minority should by force seize upon power and use it to their own advantage. All such need a lesson from the majority of Canadians who are law abiding and who do not propose to tolerate revolutionary methods. The constituted authorities always make a mistake when they temporize with sedition or violence.

## MUSICAL TREAT

## FOR NEWCASTLE

Lovers of Music are to be given a musical treat, as is seldom given in town of this size. Paul Dufault, Canada's Greatest Tenor, who has been applauded all over the world, is making a tour from Halifax to Vancouver, and the management of the Newcastle Opera House, has made arrangements for him to appear at the Opera House, on Wednesday, June 11th.

This is an opportunity of a life time and should be taken advantage of by all lovers of music.

The Regular Prices charged in large centres where Paul Dufault has appeared, ranges from \$2.00 to \$5.00 a seat, but on account of the transcontinental tour which he is now

PAUL DUFALT

making, in smaller places such as Newcastle, he has consented to allow seats to be sold at 50c, 75c, and \$1.00, which enables music lovers of small towns to enjoy some of the good music which is enjoyed by larger cities.

These prices are within reach of one and all, and the management of the Opera House should be given the support due them, in procuring talent of this high standard.

A Heavy Cash Guarantee has been given in order to secure this wonderful artist and Newcastle should show their appreciation of this class of entertainment by filling the Opera House on Wednesday evening June 11th, and at the same time listen to music, which is seldom Newcastle's good fortune to hear.

Paul Dufault is accompanied by a Pianist and Violinist, who are also eminent artists, and all previous concert records for attendance should be broken on this occasion.

## ST. THOMAS COLLEGE DRIVE!

## St. Thomas College Appeal For Funds

THE Great Fire which destroyed the College Buildings makes it imperative that at this time an appeal be made for funds to all Catholics interested in higher education.

A new building is already under construction. To carry on the work funds must be had at once. The success of the College during the nine years of its existence proves beyond question that it answers a vital want.

In spite of the severe conditions of the war years, and the difficulties incident to the first years of an educational institution, the College has shown a steady growth.

St. Thomas College receives nothing from taxation and is entirely dependent upon voluntary contributions. Therefore it deserves your full support. Have you ever stopped to consider what the closing of St. Thomas College would mean to your sons? Its existence depends upon the success of this appeal. The founders of the College have made great sacrifices in the interests of your children.

Here's Your Opportunity to Manifest Your Appreciation.
