

A Wonderful Fishing Region

the Canadian Pacific Railway, are happy and prolific haunts for lovers of fishing. All these waters are well stocked with mountain or cut throat frout, rainbow trout, Dolly Varden frout, bull trout, landlocked salmon or Kamloops trout. Excellent catches are made in the fishing season. Foremost amongst the fishing waters of this region are: St. Mary's Lake and river, Kootenay River, Moyie Lake end river, Gold Creek, Cherry Creek, Perry Creek Lake, Doyle's Lake, and Promier Lake, Perhans the favorite Premier Lake. Perhaps the favorite rendezvous is Premier Lake. This lake is situated about thirty-eight miles from Cranbrook. It is three and a half miles long and one mile wide. Mountains surround it on every side, and it is very deep. There is no visible outlet for the waters. Springs that rise adjacent to the lake and streams from the mountain sides gush to rest in its placid bed. On August 12th, 1915, the Game

Conservation Board of the Eastern District of British Columbia furnished Premier Lake, along the Kootensy Central Railway, a branch of the C. P. R., with 10,000 Kamloops trout fry, each one then being about three quarters of an inch long. A prophecy was made that the fry within four years would develop into fish weighing between twelve and thirty pounds. The accompanying allustration shows some of the fish paught when three years old.

Realizing the sporting possibilities of the Cranbrook region some of the residents met in Cranbrook on Noresidents met in Cranbrook on November 7th, 1917, and formed the Cranbrook District Rod and Gun when they begin to multiply in the Club. A hatchery was started in natural way it is certain that Cranbrook; 200,000 eggs were brought brook will be one of the finest fishing of the lakes and included. The enterprise was a huge success, and fry were distriThe best season for fishing these ate in all directions.

### Autos are Most Common in Newest Countries

In the United States there is one automobile to every 18 pcr sons. In Canada there is one for every 25: in Australia, one for every 100; in England, one for every 268; in France. one in 402; in Italy one in 1,002; Mexic one in 2,385; and in China, one in 267,207.

Here are such figures as Malthus might have seized upon. the regions of the earth and rare some of the latest hotels, also But the phenomenon cannot be the shopping and theatre diswholly explained on the theory of tricts. There is also direct automobiles because of Chinese Brooklyn. conservatism. The lands where automobiler are thickest--America, Canada, Australia -- are lands populated by colonists, and colonists are people who have initi ative, otherwise they would not o colonize. They have energy and ambition, betoken by the tion, as the unions will not accept the same act. Their descendants inare not distinguished for thrift. Thrift is the outstanding char- of wages for the different branches acteristic of those people who struggle to keep their expenditures within their incomes. The American's struggle is to bring his income up to his expendi tures .-- New York Tribune.

Japanese Black Mint Yields Menthol Supply

Japanese black mint, a plant from which menthol is obtained. is cullivated in two widely different climat e Some 92 per cent. of the total production is grown in the northern island (Hokkaido), which has an average yearly rainfall of about 38 inches and mean Summer and Winter temperatures of about 60 deg, F. and 22 deg. F. respectively. The remaining 8 per cent. is grown on the main island (Okayama and Hiroshima), where the rainfall is 42.5 inches and the average temperatures 75 deg. F. and 38 deg. F.

The mint according to a United States commercial report, requires a light, well-drained soil. The roots are planted (in Hiroshima and Okayama) at the end of November and the beginning of December- The plant attains its full growth during the Summer months, and is cut in the lat ter part of July during August and in the early part of September, three cuttings being made during the season. The third eutting yields the greatest permunicable diseases is a fine not less centage of oil and menthol crythan \$25 and the Provincial Board of stals. The leaves are steamed Health is detrmined to enforce this and pressed in barrels by the planters, who then ship them to In some cases the City physicians the menthol factories, of which are to blame and the Local Board of there are 34 in various parts of Health will have to deal with them Japan. spending their leave in Ireland, were expilled from that country Sunday by order of the British government as a result, it is alleged, of indiscreet

Mere Man Manages Women's Golf To fa

New York, June A Sha es o Susan B. Anthony! What of suffragette sisters think of vom asking for a man-managed to nament? This was the case of the Los Angeles Country Club, where the Southern California women's golf championship was held recently. Mrs. H. D. Requa the women's captain, asked for help, and Edward Tufts "went to the bat."

Despite that, it is said that the women's national championship tournament at Shawnee early in October will be practically managed by members of the fair sex although an official of the United States Golf Association will be on hand for the first day at least.

## Toronto to New York City.

A through train service iom Toronto to New York City leaving Toronto 5.45 p. m. St. Catharines 7.50 p.m. laily was inaugurated by the Grand Trunk Railway on May 4th. This train carries through coaches and sleeping cars and arrives at New York at the Pennsylvaria Terminal 33rd St. and 7th Avenue.

Also train leaving St. Cath arines 6.03 p.m. daily runs through to Buffalo, making direct convections at Buffalo for New York, coaches and parlor-library-buffet car Toronto to Buffalo, sleeping cars Buffalo to New York and Philadelphia. # REGISTRATION

W-S. S.

(War-Savings Stamps)

Landlocked salmon caught in Premier Lake, British

The Dominion of Canada offers you every safeguard for your investment in War-Savings Stamps.

Affix your W-S.S. (costing \$4.01 each this month) to the Certificate provided, and ask the Postmaster at any Money-Order Post Office to register the stamp or stamps for you. The stamps are then absolutely useless to anyone but yourself. If your registered W-S.S. are lost by theft, fire, or other cause, the interest continues to accumulate and you

can obtain your money at the office where the stamps were

Remember, that at the rate of interest allowed on W-S.S. four dollars would grow to \$361.39 in 100 years.

Stamps instead, at 25 cents each. Sixteen of these on a Thrift Card represent \$4.00 in the purchase of a W-S.S.
