Is It to Be Permanent?

We are aware that both of the Government organs have referred to the smallpox observation hospital as a temporary structure, and we do not doubt that the statement was made by them in good faith; but there is a strong and persistent belief abroad, how it has originated we do not know, that the erection is to be a permanent structure. We mention this rumor in order to give the Government an opportunity to contradict the statement if it is not true. We take this course because the public interest demands that the public shall know the full intent of the Government, candidly and without equivocation. We also draw the attention of the City Council to the matter, in order that the Municipal authorities may deal with the matter, for we presume that the authorization of the Deputy Mayor, for whatever it may be worth, will come up for ratification or rejection, and when the vote is taken Councilors will have in mind whether they purpose to ratify an erection of a temporary nature or of a permanent character. If the Government is in a position to state definitely that the building will be destroyed in a few weeks, this will do much to allay the anxiety of the neighbourhood. In any case, it will be for the City Council to insist on its removal within a short time.

When the enterprise was entered upon, it was currently understood that the building would be destroyed by fire. The risk of such a proceeding from the vicinity of the new building to the oil stores is in itself enough to scout the probability of such a course, and gives colour to the rumor that the erection is to remain permanently. This view is corroborated by the lavish expenditure of money on the building and the equipment, said to be in the vicinity of \$10,000.

We need hardly point out that if this view is correct it aggravates the outrage and will intensify the resentment of the neighbourhood against locating a Smallpox Observation Hospital near dwelling houses and a public highway.

Another Government Outrage.

New Job Created for Eli Whiteway, Mr. Gleeson Dismissed for Sake of "Economy."

A few days ago, we learn that John Gleeson was dismissed from his position in the office of Agriculture & Mines on the score of "Economy," though money has been spent like water on party favourites such as Seymour, Deveraux and Downey, though the Premier himself did not balk at taking \$9,000 for his trip over at the Hague. Yesterday the Government gave another exhibition of the Tory brand of Economy when they appointed Eli Whiteway, brother of Mr. Jesse Whiteway, to an office especially created for him and which entails very "arduous" work. Mr. Whiteway is to receive \$600 per year for the duty of seeing patients who come in trains or other conveyances to hospital and escorting others from hospital to trains and steamers. Now we cannot but designate the creation of this office for this man as nothing short of an outrage. Under former Governments, and as a matter of fact for a while at least under the present Government, the members of the various districts have given their services in this respect, cheerfully in the interests of their constituents and free of charge. We believe also that Mr. Jas. Murphy has done some of this work. Will Mr. Whiteway be Mr. James Murphy's assistant? The allocation for this job is utterly unaccounted for and is another instance of the Picnic Party's squandering of the public monies to give sops to party hangers and supporters.

McMurdo's Store News.

WEDNESDAY, April 19, 11.
House-cleaning time is now upon us, and we would remind you that one of the best and strongest disinfectants is Cook's Co-fectant. It is powerful and therefore economical, does not poison or burn anything with which it comes in contact. It is a splendid purifier, and is quite safe to use in Renne's poultry-runs, etc. Price 35c. a tin, which makes 20 gallons of good disinfecting fluid.

The International Quick Cleaner is a great thing to cleanse rugs, carpets, gloves, etc., and is a most useful article during the spring cleaning period. Large tin 25c.—adv.

Colored Mate Leaves.

Alex. Chicks, the colored mate who came here from Barbadoes with Capt. Courtenay, will return home via Halifax in the s.s. Carthaginian. Captain Courtenay is paying his passage. Mr. Gaze at Steer Bros. very kindly interested himself in the negro's case and gave him \$8 out of his own pocket to pay his expenses, and also gave him an overcoat and other requisites. The negro is very grateful to Mr. Gaze and says that he would now be a dead man only for his kindness.

Steamer Lost on the Way Here.

Mr. A. H. Murray this morning had a wire from Bridgewater, N.S., saying that the S. S. "A. K. McLean" had been wrecked there yesterday. The crew escaped and as far as can be learned the steamer will not come off the shoal which she struck. The "McLean" left Sydney for this port on the 15th inst., coal-laden for Mr. Murray and it is thought, went ashore in a fog. She was to have taken fish to Europe after discharging here.

VESSELS AT CAPE.—The Dunure Capt. Hartley, 19 days from Barbadoes, to Bowring Bros., was at Cape Race yesterday. The Maggie from the same place and the Minnie were 2 miles off the Cape laying too this morning with a N.E. gale prevailing.

PATIENT ESCAPED.—A female patient of the Fever Hospital broke guard yesterday at 1.30 and ran out of the grounds. One of the nurses ran after her and captured the woman in Hoylestown. It is thought that the patient is not of sound mind.

The Annual Soiree of the Nfld. British Society will be held on tomorrow (Thursday) evening, in the British Hall. Tickets: Ladies 80c. Gentlemen \$1.00. To be had from the Committee and at the hall. Music by Prof. Power's Orchestra. Dancing at 8.30. Supper at 11 o'clock.

DOWN TO BUSINESS AGAIN.—I desire to inform my patrons and the public generally that, after an absence of some time in England, where I've been in the interest of my Optical and Jewellery business, I will be found in my Optical Room as usual, prepared to give the best attention to any who may suffer from eye strain and can be relieved by glasses. I make no charge for examining your eyes. R. H. TRAPNELL.—ap19,1ft

The Quarterly Meeting of the Ladies Association of St. Bonaventure's will be held at the College on tomorrow, Thursday, April 20th, at 4.30 p.m. As there is business of much importance to be transacted it is hoped that all who can possibly attend will do so. MAY CARROL, Hon. Sec.

IN BAD STATE.—Last evening a young man who has no home came to the police station in a bad way and asked for shelter. The man appeared to be suffering from the "D. Ts." and he was carefully looked after. He was given a bed in the cells, after which he became calm and seemed to be allright.

BANK OF NOVA SCOTIA.

Bellaventure Arrives

HAS 22,000 OLD AND YOUNG SEALS

The s.s. Bellaventure, Capt. Job Kneeb, arrived here at 9.50 this morning from the icefields, hauling for between 22,000 and 23,000 old and young seals. The ship in company with the Beothic was the first in the fleet, and striking the N.E. corner of the northern patch on the 15th March about 70 miles to the N.E. of the Groins Islands. The men killed and banded 8,000 on the 16th, and followed up that work until the patch was cleaned up, when she steamed north in search of the old seals. Since then she has been following the old fat and went down about 70 miles north of Belle Isle, and was off the Seal Islands on Labrador. She bore up from there and left the ice at the Funks at 2.30 p.m. yesterday. The captain reports old seals so plentiful that all the ships of the fleet could load with them but that the ice was loose and not many could be killed. When the ship arrived she was visited by Drs. Campbell and Brehm and was allowed to haul in immediately, as none of the crew showed signs of sickness of any kind. The ship reports the Eagle on Thursday last with 2,300 seals. She killed 450 that day and will have a fair trip. The Aurora hails for 22,000. The Ranger was seen Monday afternoon with 13,000 seals and should arrive here to-night. The Diana was seen recently and looks very deep. The Neptune is reported with about 8,000. Both this ship and the Ranger has a dead man on board. The belief is that the ships now out will get fair trips of old seals.

POLICE COURT NEWS.

In the police court to-day two drunks were each fined \$5 or 14 days. A disorderly was fined \$2 or 7 days, and three drunks were discharged.

A cabman summoned by Head Peet for cruelty to his horse was fined \$5 or 14 days.

An East Ender, who was formerly a saloon keeper, pleaded guilty to selling liquor without a license on the 11th inst and was fined in the sum of \$100.

A man summoned by another for snowballing him was fined \$5 or 14 days.

Two boys were fined \$1 or 3 days each for throwing snowballs on Barter's Hill.

A man summoned by Const. O'Flaherty for loose and disorderly conduct was fined \$1 or 3 days also.

In a certain quarter in the city a rumor was current last evening that a gentleman who has been engaged here for several years past in business on Water Street West has been left a large fortune by a relative residing in Scotland. It is said that a large estate and money has been bequeathed him and that the whole amounts to nearly \$1,000,000.

ROBIN HOOD FLOUR IS DIFFERENT

This is the Wonderful New Flour

that has made such a sensation throughout Western Canada.

Made of highest grade Saskatchewan wheat, in the newest, best-equipped, largest mill on the prairies.

Made with the determination to give users better flour-value, greater certainty of baking-success, fuller satisfaction with the final result, whether with biscuits, cake or bread.

Housewives throughout all the West admit that Robin Hood Flour gives all this. Therefore, Madam, it is the flour for you.

This flour cannot be described in an advertisement. We use this paper merely to give the introduction—to say:

"Let us make you acquainted with Robin Hood Flour."

It is the guaranteed flour. If you are not satisfied with it after two fair trials, ask your grocer for your money back. He will give it to you.

Add more water than usual when using Robin Hood Flour. Made of such hard, dry wheat, it absorbs more moisture—producing a larger, whiter loaf.

The difference between Robin Hood Flour and other flours you have to find out for yourself. That there is a difference every woman who now uses Robin Hood admits.
