Bolshevik Fleet Disabled.

Carranza and His Advisers Cause Washington Anxiety --- General Election in Britain Likely --- Steamer Strikes Mine and Sinks --- Bolsheviks Attack Each Other.

BOLSHEVIK FLEET COMPLETELY DISABLED.
STOCKHOLM, Aug. 23.
The Bolshevik Fleet in the Gulf of Finland defending Petrograd, has been disabled completely, newspapers here report. The defences of Kronstadt, which were bombarded by British warships, it is added have been destroyed.

JOSEPH MUST GET OUT.
PARIS, Aug. 22.
The Supreme Council to-day sent instructions to the Inter-Allied mission at Budapest to inform Archduke Joseph that he must leave the Hungarian Government in the interest of European peace, as Europe has suffered so much under the Hapsburgs that there could be no confidence in any Government with a Hapsburg member of it. The Council also advised the mission that the Council will deal only with a Government supported by a constituent assembly.

BOLSHEVIK ATROCITIES.
LONDON, Aug. 22.
(Reuter's)—It has been learned by Reuter that when the Bolsheviks occupied Armavir, in Armenia, on Aug. 17th, they pulled down the flag at the Persian Consulate and then ordered Consular Agent Ibdulla to come out. He appeared in full consular uniform, whereupon the Red Guards shot him down immediately. They then rushed up and slashed his body with bayonets and tossed it up in the air, following which they looted his residence, where they found much money and jewellery belonging to Ibdulla's wife. Three hundred and ten pensions, five Mohammedans, and twenty-one Christians who were sheltered in the Consulate were machine-gunned en masse.

BOLSHEVIKS ATTACK EACH OTHER.
LONDON, Aug. 22.
(Reuter's)—News has reached the War Office from Murmansk, dated the 20th inst., that Allied troops attacked the enemy seven miles south of Kapsolga, driving him out of his position and pursuing him southward for several miles on the Shunga Peninsula. The Russians dispersed the Bolsheviks and captured fifty-nine prisoners. East of lake Onega two enemy forces attempting to attack a village in our possession lost their direction, and later attacked each other, both parties suffering heavy losses.

MAY BE ANOTHER ELECTION.
LONDON, Aug. 22.
A general strike or a general election, but probably the latter will be the result of the Government's declaration against the nationalization of mines, according to a statement made to-day by Fred Oramley, Parliamentary committeeman of the Trades Union Congress.

MINE SINKS STEAMER.
CALAIS, Aug. 22.
The Dutch steamer Luna struck a mine to-day and sunk four miles east of the harbour of Calais. The crew was saved. The Luna was a vessel of 1,200 tons and was owned in Amsterdam.

PAYMENT DEFERRED.

ROME, Aug. 22.
The Rome newspapers assert that Great Britain has agreed to defer the payment by Italy of interest on Italy's debt to Great Britain. The interest amounts annually to about one-half billion lire.

SILESIA SITUATION IMPROVING.

COPENHAGEN, Aug. 22.
According to a despatch from Katowitz, the situation in Upper Silesia is improving, the strikers are resuming work, and fifty per cent of the miners have returned.

GERMANS TO INVESTIGATE RESPONSIBILITY FOR WAR.

BERLIN, Aug. 21.
The German National Assembly Committee to investigate the matter of responsibility for the war was named to-day. Herr Paterson, a democrat, was made president of the committee, and Dr. Peter Spahn, a Centerist leader, was named as vice president. The sessions of the war guilt committee will be public, it was announced. The Assembly also appointed a new foreign committee, with Philip Scheidemann as President. The committee will be composed of five social democrats, three Centerists, three democrats, two German Nationalists, and one member of the People's Party.

WILL MAKE REPLY.

OTTAWA, Aug. 22.
The Canadian Wholesale Grocers' Association at this morning's session in the Chateau Laurier decided to make an official reply to Dr. McFall, of the cost of living commission for Canada, in regard to his statements respecting the sugar shortage in the course of which he alleged unfair tactics to force a high price.

THE SHAH OF PERSIA.

CONSTANTINOPLE, Aug. 22.
(Associated Press).—The Shah of Persia, who is on his way to Western Europe, arrived here to-day from Batum on a British warship. He was met by the Allied High Commissioners and representatives of the Sultan and the Porte. In connection with the Shah's visit, the Turkish Press comments bear on the future of the Middle East.

WASHINGTON DISTURBED.

WASHINGTON, Aug. 23.
Officials here are somewhat disturbed, it was learned to-day by an apparent determination on the part of Carranza and his official advisers in Mexico City to confiscate oil property of foreigners in spite of protests lodged with the Mexican Government by all nations, where nationals have investments in Mexico.

SECURING THE COIN.

BERLIN, Aug. 22.
A news agency report suggests that the authorities have been utterly victimized in connection with a reported attempt to smuggle twenty million marks across the German-Swiss frontier. The news agency asserts that both smugglers and detectives who followed them in airplanes have arrived in Switzerland with the booty.

BODIES PICKED UP.

PARIS, Aug. 23.
Reports are current at Cassablanca, Morocco, that the patrol ship Diana has brought into that port three bodies, supposed to be members of the crew on board the French airplane Goliath, according to a despatch to the Journal. The Goliath has been missing for a week.

WINS V.C.

LONDON, Aug. 22.
(Reuter's).—The Admiralty announces the award of the Victoria Cross to Lieut. A. W. Shelton, of H.M.S. Agar, for conspicuous gallantry, coolness and skill on the night of June 17th, in sinking the Bolshevik cruiser Ilog, in the Baltic Sea under most difficult conditions. It was necessary for this officer to penetrate a screen of destroyers, and owing to the breakdown of the Agar he was compelled to remain in close proximity to the enemy destroyers for twenty minutes, while repairs were being executed. The Admiralty does not state the nature of the craft Agar.

Conductor Attempts Suicide.

Constable Humber arrived by Saturday's express, having in charge a conductor, who had become insane on the run from here to Port aux Basques. After writing a farewell letter at the latter place, he walked to the wharf and jumped overboard was rescued only in time, and while being brought along on the train he escaped from the officer on two occasions. The second time he escaped, some difficulty was had in locating him, the constable having to chase him through the woods for about half a mile. The unfortunate man was examined by Dr. McDonald yesterday morning, who ordered him to the Insane Asylum.

Mrs. Northrup Was Gradually Growing Worse All The Time Till She Took Tanlac.

"It is hard to believe that any medicine could do as much for a person as Tanlac has done for me," said Mrs. Catherine Northrup, who lives at 404 Union Street, Saint John, New Brunswick, the other day. "My health failed about eight months ago," continued Mrs. Northrup, "and I have undergone a great deal of suffering since that time. When I commenced taking Tanlac I was so weak and run-down I was hardly able to be up and about. What I ate disagreed with me and I often had cramping spells after eating. Sometimes I would have such awful headaches the pain would almost drive me wild. I also suffered from pains in the small of my back, and sometimes this trouble was so bad I could hardly walk. I finally got so weak and run-down that I was unable to do my housework, and when I did try to do a little work I would just have to stop every few minutes and rest awhile. I tried many different kinds of medicine, and was under the best of treatment, but I just gradually grew worse all the time. I was very nervous, too, and never got a good night's sleep. "Just when I was about to give up in despair, one of my friends showed me a statement in the paper about Tanlac, and persuaded me to give it a trial. I am certainly glad my friends advised me to do this, for instead of being in pain and misery all the time, I am now a well woman, and all signs of my former troubles have disappeared altogether. Why I can eat cabbage or anything else I want now and I never suffer the least bit afterwards. I sleep like a baby every night, now, and get up in the morning feeling fine and ready to do all my housework, which I can now do with perfect ease. I never have those awful headaches any more, and the pains have left my back entirely. I just can't say enough for Tanlac, for it certainly has done great things for me. I tell all my friends that Tanlac is entirely responsible for the good health I am enjoying now." Tanlac is sold in St. John's by M. Connors under the personal direction of a special Tanlac Representative.—adv.

Circuit Court.

With the approval of the Judges, the Minister of Justice has been able to arrange the sitting of the Supreme Court on Circuit in a manner which we doubt will prove very popular as well as very useful. From time immemorial, so to speak, the sittings of the Court on the Southern Circuit have been held in the month of August, or thereabouts, and, on the Northern Circuit in the month of September, one judge going south, and one going north and east. In Conception Bay only the Circuit Court has sat later in the year. Both on the Southern and Northern Circuits the holding of the Courts at the various places has been continuous and successful, starting at Bonne Bay and ending at Placentia on the one circuit, and starting at Conche, for instance, and ending at Trinity on the other circuit. The time for holding courts on both circuits has been inconvenient, the majority of the people being absent at the fisheries, or even at home, being too busily engaged to attend to court work. It has also been necessary to provide for steamers to carry the judges and court officials around on circuit, and, as each circuit has occupied a considerable time, the cost has been large. The new arrangement is to the following effect:

The Southern Circuit has been cut in two, one to be called the Western Circuit, beginning at Bonne Bay and ending at Channel. On Saturday, the Chief Justice left by the s.s. Portia, for Bonne Bay. From Bay of Islands to Channel he will travel by the railway, and the special car "Terra Nova" has been placed at his disposal. The sittings of the Circuit Court will be held at leading places on the South coast of the island, between Placentia and Channel, some time in the autumn, probably about the latter part of November. The Northern Circuit sittings will begin also in November, Judge Johnson doing Notre Dame Bay, Bonavista Bay and the north side of Trinity Bay, travelling by railway and boat. No special steamer has been chartered for either circuit, except it may be, possibly, for parts of the Southern coast, as to which it may not be convenient to arrange otherwise. By this arrangement for the sittings of the Court in November it is expected that the people will be greatly inconvenienced, as both litigants and witnesses will be able to attend at the sittings of the court without interference with their ordinary business, as the new arrangement has been made possible, of course, to some extent, by the use of the railway; but, it might have been made some time ago, and upon the whole, the Government is to be congratulated upon this fresh evidence of its care for the convenience of the public generally.
