TO-NIGHT'S FOOTBALL

The final game of the Junior Championships will be played to-night at St. George's Field at 5.30. The contesting teams will be the Cadets and Holy Cross. The former are in the very fortunate position of needing only one draw to give them the silverware as they are leading by one point; a win for either will of course settle the matter for keeps. Doubtless these two teams of "ballhaws" will give a spectacular exhibition to-night and the clash should draw a large gate.

LAST NIGHT'S FOOTBALL

Wealer and Holy Cross battled to a draw last night. The score was 1 to 1. Wesley, through Perchard, doing the necessary in the first half, and Wesley equalizing for his team in the final period. Bill Dugan handled the game satisfactorily, though a few on the grandstand could not agree with him on some of his decisions. However, that's an old story when brave men undertake to perform the arduous and onerous duties of arbiter of any game.

TENNIS CHAMPIONSHIP

Eric Jerrett was forced to relinquish the laurels won last year when in the Tennis finals yesterday he lost all three sets to L. C. Outerbridge. Owing to the grounds of the St. John's Tennis Club not being in condition, the finals were played on the hard courts of the Ayre Athletic Grounds, which, through the courtesy of the management, were placed at the disposal of the finalists. The playoff has been on the schedule for some time and the same actually started a month ago. Unfortunately just at the beginning Outerbridge sprained his leg and was obliged to discontinue. His opponent would not claim the match and insisted on postponing it to a later date. In the meantime Jerrett had to be absent for a month on circuit, whereupon the other contender undertook not to practice or play during his absence. As the result of all this much interest was centered on the outcome yesterday, and to-day the new champion is receiving the congratulations of his many friends, in which the Telegram joins.

FARLEY CARLES

METIGUE LOSES CROWN.
COLUMBUS, Georgia, Oct. 4. After the news had been broadcasted that his bout with young Stribling, of Macon, Georgia, would be postponed, owing to the world's lightweight champion having incurred a hand in training, Mike Metigue, of Ireland, unwrapped the injured member and entered the ring to-night and lost his crown to the eighteen-year-old high school challenger. Throughout the ten rounds Stribling hit the champion at will and got back a few light taps. Metigue was not fighting in championship form. The decision came after Ertle, who refereed the Dempsey-Carpentier bout, held a consultation with fight officials and newspapermen.

METIGUE-STREIBLING FIGHT A DRAW

COLUMBUS, Georgia, Oct. 5. Titular fight between W. L. Stribling, challenger, and Mike Metigue, heavyweight champion, here this afternoon was officially declared a draw three hours after fighters left ring, by Harry Ertle. Referee Ertle issued a statement declaring he was forced to award the fight to Stribling, because he was being intimidated by angry spectators.

McAULEY NOT ENTERED

Victor McAuley is not competing in the Halifax Herald Marathon, which is being run to-morrow. For some time past he has not been in the best of condition and is now under the doctor's care. This appears to bear out the contention of his friends at the time that in the Canadian Championships, he had overdone his training.

OLD COUNTRY SOCCER

THE 3RD TIME IS LUCKY-PER-HAPS.
NEW YORK—Miller Huggins, diminutive manager of the New York Yankees, will lead his men this season in their third successive attempt to win the world's baseball championship.

Though his personality has been overshadowed by the aggregation of Yankee stars, regarded as one of the greatest in diamond history, Huggins has earned a large share of the credit attached to the achievement of capturing three straight American League pennants.

In 1921 and again in 1922, when his club won pennants, but lost in the world's series to the New York Giants Huggins was made the target of criticism by many baseball experts. They said Huggins was not strict enough with his men, that he could not rule them, that they did as they pleased.

Cleveland gave the Yankees a hard fight for the pennant in 1921. The St. Louis Browns made a close race of it last year, but this season the Yankees have won by a margin that leaves no doubt of their superiority.

Huggins' men have worked together in winning their third pennant. They played as a team, not the set of individual stars they seemed in 1921 and 1922. Babe Ruth, incorrigible as a 10-year old schoolboy for two years, has been Huggins' greatest player this year. The pitching staff has been unequalled by any other in either league.

Huggins has never won a world's series, but he is confident that he will enter the winning list this year. John McGraw, of the Giants and Connie Mack, of the Athletics each have won three world's series, more than any other manager. McGraw won with the Giants against Mack's Athletics in 1905 and in 1921, and 1922 the Giant leader triumphed over Huggins' Yankees. Mack's Athletics won the series of 1910 from Frank Chance and the Chicago Cubs and in 1911 defeated McGraw's Giants. In 1913 Mack again won from McGraw. Frank Chance won two series with the Cubs, defeating the Detroit Americans, led by Hughie Jennings in 1907 and 1908. Bill Carrigan led the Boston Americans to victory in 1915 and 1916, vanquishing the Philadelphia Nationals in the first series and Brooklyn in the other.

McGraw has led his team into action in more world's series than any other pilot, battling last season for the premier diamond title for the seventh time. Mack engaged in five series.

SPORTOGRAPHS FROM THE SECOND CITY, Tenn.

A second tournament was played at the grounds of the Aero Tennis Team on Wednesday afternoon between representative teams of the Aero Club and Carbonara Tennis Club. The weather was fine but cool, especially for spectators, of whom a large number was present.

The games, with players and scores are as follows:—

Won by Harbor Grace. Score, 6-3; 6-2. Ladies' Double. Miss E. Penney Mrs. H. H. Archibald Miss D. Duff Mrs. W. L. Ross Won by Harbor Grace. Score, 11-4; 6-3. Men's Single.

F. Hawker E. L. Oke Won by Harbor Grace. Score, 7-5; 6-4. Mixed Double. Miss M. Duff Miss S. Hayes Mr. A. R. Pye Mr. W. Hayes Won by Harbor Grace. Score, 6-3; 6-2. Ladies' Single. Miss E. Penney Miss M. Chate Won by Harbor Grace. Score, 6-4; 6-1.

Following the games, tea was served in St. Patrick's Hall by the ladies of the Aero Club and later dancing was indulged in until 12.30 when the visitors returned to their homes by motor car. The games and the social proved most enjoyable.

This concludes the games with Carbonara this season, as the local Club has won two tournaments. Another round is to be played with Bay Roberts at the grounds here, as the two tournaments held so far resulted in a win for each club.

The following is a list of the events with winners and times in the Boy Scout Sports:—

100 Yards—Won by H. Yetman; 2nd, C. Ellworthy, 12 sec. 220 Yards—Won by H. Yetman; 2nd, C. Ellworthy, 32 3-5 sec. 1/4 Mile—Won by S. Martin; 2nd, C. Ellworthy, 1 min. 17 3-5 sec. 1/2 Mile—Won by S. Martin; 2nd, M. Davis, 2 min. 48 1-5 sec.

Broad Jump—Won by W. Yetman; 2nd, D. Burke, 16 ft. 3 in.

1/4 Mile (Jr.)—Won by C. Tarrant; 2nd, A. Crocker, 1 min. 19 sec. 1 Mile—Won by S. Martin; 2nd, J. Davis, 5 min. 16 2-5 sec.

Considering the greasy condition of the course the times made in the events were very creditable.

Mr. P. Higgins, acted as timekeeper, Mr. E. D. Freeman, as starter, and Messrs. M. P. Stapleton and N. Noel, as judges.

The different games for the Anon-son Cup, which this year will go to the Ladies' Single championship, have recently been completed, and Miss Chate is now the holder of the Cup and title for this season, with Mrs. W. L. Ross as runner-up.

The games for the Imperial Cup, which is being contested for by the gentlemen of the Club, have not yet been completed.

Master Tom Jones has lately received the silver medal which he won at the Carbonara Field Sports held a short time ago, when he gained the Quarter-mile race. Tom is but 16 and bids fair to do well as a runner.

Turned Down in Australia
Scheme For Organic Church Union Meets a "Crushing Defeat."

TORONTO, Sept. 29.—The Presbyterian Church Association has received information from Australia which states that the plan for Organic Church Union there has received a crushing defeat at the recent meetings of the State Assemblies of the Presbyterian Church in Australia.

South Australia, West Australia, and Victoria, which is the largest of the Assemblies of Australia, rejected the amended Basis of Union and the Union proposal, while New South Wales and Queensland voted in favor of the proposal.

The "Deed of Union" of the Presbyterian Church of Australia enacts that no change or revision or abridgments of the subordinate standards of the Church can be made without the consent of the majority of the State Assemblies. There are also other conditions. The proposal to send the Basis of Union to presbyteries, sessions and congregations for their vote has been abandoned.

The result is it is stated is a triumph for the country congregations and the active working ministry and leadership over the ecclesiastical leaders and officials of the Church. The Presbyterians in Australia who are determined to maintain their church are watching with keen interest the struggle in Canada.

We Should Worry

Professor Claims This Old World Will Be Overcrowded in a Thousand Years.

Dr. Raymond Pearl, professor of biology and vital statistics of Johns Hopkins University, Baltimore, has burst into print with the statement that the population limit of the world will be reached in a thousand years. This alarmist statement is to the effect that the production of food at that distant period will be insufficient for the people that inhabit the earth. The date of the prophecy is so far off that the present thinking generation will not worry over the professor's forebodings. Perhaps the remarks were made for advertising purposes, for some of the American universities are pretty good exponents of publicity.

Such prophecies, however, are as old as the hills, and perhaps the professor has been reading some of the ancient theories. Sages used to bother themselves and alarm ordinary mortals hundreds of years ago by figuring out that in a certain number of years all the earth would be overcrowded and then there would be the mischief to pay. They could prove by the past rate of growth that certain countries would very soon reach their limit and they used to draw awful conclusions from their prognostications. They did not take into account many natural and unnatural things in their calculations. Countries grow and grow but still there was room for more. At this late date there is not a great country in Europe, the most settled continent, that has not enough land for many more inhabitants, if the people cared to return to the most ancient and honorable calling of agriculture. The earth and the fulness thereof is still sufficient for the inhabitants, with a tremendous surplus of natural resources, and it may be the same a thousand years hence. Certainly there will hardly be overcrowding in the world. Where is the overcrowding? Certainly not in France, an old country. There the birthrate has alarmed students in late years. It is on the decline, or at least dormant, and threatens to remain so. France will never be overcrowded by its own people. Other countries may follow conditions there in time. In the cities in Canada, where there is tremendous space available, the families have dwindled in size from an average of from six to ten children to one or none in the last quarter of a century.

Over in the crowded lands such as China and Japan there are convulsions of nature and pestilences come with such frequency that great swaths are cut in the teeming populations. Such conditions have always prevailed and will doubtless always do so. Then there are wars which wipe out tens of thousands of the youth of the most civilized countries on an average of every decade. There are no real signs that wars are to cease for a long time to come, if ever. The Millennium is not here yet. The professor of Johns Hopkins knows no more about it than his fore-runners in theory of the distant past. Nature knows how to look after her own.—The Review.

Home Bank and Two "Mystery" Ships
Two Official Members of Company That Operates Steamers on the Atlantic.

Toronto, Sept. 30. (By Canadian Press.)—What is the British Dominion and Investment Company and its connection with the suspended Home Bank, is the question being asked here to-day.

Letters patent were granted to the British Dominion Holding and Investment Corporation by the Secretary of State on December 20, 1920, and published in the Canada Gazette of January 15, 1921. To say that the charter is wide is to make a conservative estimate of the powers it gives.

That the President of the Home Bank was President of this corporation and the Secretary of the Home Bank its secretary, is the statement made here. This is by virtue of the fact that the Home Bank owns nearly all the shares, it is said.

Investigation shows that the corporation in question owns and operates two ocean-going steel vessels under a charter as wide as the broad Atlantic on which they ply.

They are, according to the registers at the port of Montreal, the Vaudeville and the Paipone. In the middle of May this year, the Vaudeville arrived in the West Indies. She left in June and as late as August was in the Clyde in Scotland. The last recorded trip of the Paipone was from a Canadian port when she sailed from Montreal with a "cargo of cement," her destination being given on her papers as the West Indies.

Marine officials say that the Vaudeville visits the Newfoundland district and is well known there. These two boats, according to the bank director who told the Star of the Bank's condition with the corporation are "owned by the Home Bank" in light of the fact that he has previously given.

A Wrong Impression
It would appear that an article in the Telegram which referred to the accident on the railway in the vicinity of Northern Bridge conveyed the idea that the Railway Brotherhood intended taking action for damages against the Government. No such statement was made in the article in question.

Men and Things

Firpo in his recent bout with Dempsey proved himself a good up and down fighter. He spent most of the four minutes "battling" lasted getting up after having been knocked down. If they meet again next year, and the indications are they will, the fight should not last even one round.

Italy has backed down from its advanced position in the matter of its Grecian relations, and the incident is being regarded as closed. It was a close shave.

Hon. Chas. Macell struck a proper note when he told a gathering of American passenger traffic officers in Montreal that the future of Canada was linked with the future of the national railways.

Our compliments to Edouard Ouellette, M.L.A. for Yamaoka on his appointment to the Legislative Council. It is an excellent choice.

A number of provincial bye-elections are under way. There should be no question as to the results. Nothing has happened since the last provincial general elections to shake the faith of the electorate in the Taschereau government.

More war clouds are looming up in the Balkans, which is nothing new although it is distressing. Trouble in the Balkans was an old joke with the newspapers a score and more of years ago, and it is still as pointed as ever.

A London tailor has been fined for extortionate rent charges to his tenants. They are queer people, the English. In the matter of law they act generally for the common good, and put their laws into action. "Tis the law" means more as an expression in England than in most countries.

Al Spencer, a notorious bandit who was credited with several killings and many robberies, has been shot dead by a sheriff in Oklahoma. They all meet the same fate, sooner or later. The law prevails in the end.

Two thousand negroes and Mexicans have left Johnston, Pa., on order of Mayor Cannel. The mayor evidently puts quality before quantity in the matter of population.

A King's Example.

Daily Herald: It was said of a loyal Frenchman that he was "more royal than the king." Of ex-king Frederick of Saxony it can be said that he knows how to show himself "more republican than the Republic." Recently Frederick had to journey by train through his former dominions. Crowds of people gathered at one of the stations to greet him. Remembering the law against royalist demonstrations in Germany, he remained tactfully in his compartment with the blinds drawn. At last the train became so great that he had to make an appearance. Shaking his hat the mob he called out disdainfully: "A fine lot of Republicans you are!"
