COUCHS AND COLDS.

Sudden changes of climate are sources of Pul ionary, Bronchial and Asthmatic affections. Ex ten act specifiy and certainly whear taken in the early stages of the disease, recourse should be at once had to "Brown's Bronchial Troches," or Lo-zenges. Few are aware of the importance of checking a cough, or "common cold," in its first stage. That which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. "Brown's Bronchial Tronches," or Cough Lozenges, allay irritation which induces cough-ter having a direct influence on the affected

PROOFS OF THE SUPERIOR QUALITY

AMERICAN WATCH

WALTHAM, MASS.

Referring to their advertisement in a previous

any other watenes in the market.

They are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches. They are compessed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts.

How they run under the hardest trial watches have between but the compensations of the strong the trial watches.

PENN. RALLROAD COMPANY.

Office of the General Superintendent, }
Altonia, Pa., 15th bec., 1866.

GENTLEMEN, The watches manufactured by you have been in use on this railroad for several years by our engiaemen, to whom we furnish watches as part of our equipment. There are now some 300 of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and to wear much longer without repairs than any watches we have ever had in use on this road. As you are awary, we formerly trusted to those of English manufacture, of acknowledged good reduction; but as a class they never kept time as orrectly, or have they done as good service as orrectly, or have they done as good service as ours. In these statements I am sustained by approximation as eries of severethils.
