Lord Stanley is Coming Twice.

The following telegram was received from the Governor-General's aide-de-camp, Wm. Walsh, this morning:

"Lord Stanley's journey takes him to London on two separate occasions, namely, on Thursday from 12 o'clock noon until 2:50 p.m., when he leaves for St. Thomas. He returns Thursday at 11:15 p.m. until 12:15 noon Friday. On one or other occasions he wishes to visit the barracks. Will you arrange with commanding officer, to whom a telegram has been sent. Answer Petrolea."

It is altogether likely that the city will

been sent. Answer Petrolea.

It is aitogether likely that the city will make arrangements so that the Governor-General will be entertained on Thursday by the military and that on Friday the civic authorities will do the honors. Members of the Board of Education have become possessed of the happy idea of asking the Governor-General to lay the corner-stone of the addition to the Collegiate Institute on Friday morning. With a little hustling everything can be put in readiness for the ceremony, and the honor of having the gubernational hand wield the trowel is considered to be something. No doubt this matter will come up at to-night's meeting of the council.

The Port Stanley Lease All Right.

The clause of the London and Port Stanley Railway agreement upon which consideration was deferred at Saturday night's meeting of the council was one which concerned the question of terminal facilities for the new lessees. It was caused by a technicality in the agreement made in 1872 between the Great Western Railway and the Port Stanley Company by which the former company, in consideration of the use of certain property, gave the L. and P. S. R. Company a lease of its terminal facilities for 99 years. Two years after this the G. T. R. and G. W. R. amalgamated, and this causes the complication as to the releasing of the road. The London mated, and this causes the complication as to the releasing of the road. The London and Southeastern Railway Company Board is meeting this afternoon to consider it, and there is not the slightest doubt that the difficulty as to terminal arrangements for the new lessees will be adjusted. Solicitors' advice has been obtained by the city, and at to night's meeting of the City Council the proper action will be taken and the new lease confirmed in its entirety. There is not the slightest cause for the fear expressed that this matter will prevent the immediate consummation of the deal.

MIDDLESEX WINTER ASSIZES.

Mr. Justice MacMahon Presiding-His Charge to the Grand Jury.

Mr. Justice MacMahon Presiding—His Charge to the Grand Jury.

The Winter Assizes for the county of Middlesex opened before Mr. Justice MacMahon at 1:30 this afternoon. Mr. Henderson, of Toronto, is court stenographer. John Morgan was chosen foreman of the grand jury.

In charging the grand jury his Lordship said he was pleased to see such a large number of those summoned on the grand inquest present. It was fortunate that in every county assize courts were held at least twice a year, and in some cases three times. While congratulating the jury and the county at large on the small amount of crime, his Lordship regretted that they were called upon to look into a case of the most serious offense against the law — that of murder. The late Detective Harry Phair, with whose murder the prisoners, Burke and Wilson, were charged, had been a member of the city police force for a number of years. Had he seen Burke in the act of indecently exposing his person or had he seen him acting in a disorderly manner he had a perfect right to arrest him. In the indictment appeared the words "malice aforethought." This did not mean premediation, but intention. Unless Detective Phair saw Burke conducting himself improperly and thus violating the law, he had no right to arrest him without having a warrant for such arrests.

moved—Good Words for Mgr. Satolit.

New Yore, Jan. 9.—Cooper Union was crowded last right with people anxious to hear Dr. McGilynn's Sunday address. Before beginning his regular discourse he defined his own position with regard to the United Labor party and the Anti-Poverty Society. "On last Sunday ovening," he said, "to meet a reasonable expectation, I read a statement of the doctrines of the United Labor party platform and of the Anti-Poverty Society, my teaching of which doctrines had led to the series of events so happily terminated by the removal from me of ecclositatical consures. I have official letters of the apostolic delegate, signed by his hand and attested by his seal, declaring the removal of the ecclesiation consures, and, moreover, commending mo to the bishops everywhere that I may be permitted in their respective dioceses to celebrate mass. My representative, moreover, was informed by the apostolic delegate that he knew of several archibishops and bishops who would be pleased to have me in their diocese. I have received an invitation from a venerable prelate to visit him and deliver a course of lectures in his cathedral. I am content, and prefer for the present to remain as I am, saying mass every morning and fulfilling my literary and lecture engagements, As to my inture, I repose with childlike confidence upon the providence of God, which as a few think, and I with them, has, as if in answer to earnest prayers, marvelously brought about recent events. It was a kindly and think, and I with them, has, as if in answer to earnest prayers, marvelously brought about recent events. It was a kindly and gracious act of Archbishop Satolli to rebuke the raking up of the old controversy on the day of peace and good will. I am very much touched by his charity and am thankful for it, but justice requires that I should state that some of the things attributed to me in the publication referred to by Archbishop Satolli were never said by me. For instance, I never called the Pope 'an old woman' or 'an old lady,' nor did I ever call him a 'poor old bag of bones.' I swear it."

Cheese Somewhat Excited.

Cheese Somewhat Excited.

Orders for Canadian cheese held in this city are flashing over the cable from English houses as thick as bees, and limits, although very reluctantly, are being steadily raised in order to secure the coveted good. Since our last report the market has developed fresh strength, and sales have been put through at 11c to 1½ for finest western Septembers and Octobers, and as high as 11½ has been made for a very choice lot. Business has also transpired in under grades at 10½ to 10½, and altogether about 5,000 boxes have been placed in a quiet, unassuming way during the past week. A straight bid of 10½ cwas refused for a lot of 1,000 boxes of June and July goods, which demonstrates some anxiety on the part of English houses to possess under grades. English markets are very strong, and we look for an advance in the cable, despite the desperate efforts that have been successfully made of late in keeping the quotation 2s to 3s below actual sales in the Liverpool market. An undertone of excitement is evidently at work beneath the strength that has recently come to the surface, and English buyers are apparently trying to secure all the stocks on this side without showing their anxious hand if they can help it. The advance is, therefore, of slow and sure character.—[Montreal Trade Bulletin. Orders for Canadian cheese held in this

Lovers of hog products are paying pretty bigh prices for their favorite meat, and in all probability will have to pay still higher before long. Dressed hogs cannot be laid down here at under \$8.20 and \$8.25 per 100 pounds, two carloads having been sold at \$7.80 and \$7.85 f.o.b. in the west to a Montreal firm, which prices are about \$2.50 per 100 pounds dearer than at this time last year; but present prices here are cheap as compared with those ruling in Chicago, where live hogs have recently been sold at \$6.95 per 100 pounds. One, reason why hogs are sq scarce in Ontario is owing to Canadian exporters of cut meats, who formerly brought in Chicago hogs in bond, being compelled this season to use Canadian logs because the former were too high priced to be brought in. Advices from the Chatham and London districts all agree in stating that the great bulk of the hog crop has been marketed, and that higher prices are expected before the wants of buyers are satisfied.—[Montreal Trade Bulletin. sar year; but present prices here are as compared with those ruling in go, where live hors have recently sold at \$6 95 per 100 pounds.
