LIVE STOCK.

TORONTO, June 23.—Cattle—Trade was very slow, and but for the fact that the receipts are light, prices would in all probability have shown a more pronounced decline. As things are, prices are holding fairly steady at the declines of the early part of this week. Anything of good quality, whether grass or stablefed, still brings good prices, ranging from \$5 65 to \$6 65 for good butcher cattle, and 25c to 50c higher than that for choice exporters. Butcher cows and bulls are 75c to \$1 lower than last week. Stockers and feeders are a little easier, but this trade is not very active, in view of the prolonged spell of probably dry weather. Sheep steady and unchanged at recent a quotations. Spring lambs firm, at 8c to 9c. Hogs—Receipts in the past two days were rather heavy, but the market is steady at \$8 90 f. o. b., and \$9 25 fed and watered, at Toronto. Rumored That the Bell Company Will Bring an Action Against the City.

MAYOR WILL NOT TALK

Opinion of City Solicitor Meredith Leaves Council Nothing to Do but Stand by City's Rights.

It was rumored today that the Bell Telephone Company will bring suit against the city to determine their right to place conduits under the city streets.

Last night the city solicitor gave his opinion to the effect that the company could not go ahead and place their wires underground under the present agreement, and that if the work were done a new agreement vould have to be made.

There will be some opposition to this, as several of the aldermen have declared that they will not allow the company to place conduits under the

They claim that the agreement states that the city will not give any other company the right to erect poles place ducts, etc., and by contrary right they have the power to erect poles, place ducts, etc. The fact that they have done this work unmolested for years, under identical agreements, is sufficient precedent, it is claimed, to make a judgment in their favor almost certain.

The company officials would not give anything for publication. The trip here was a pleasure jaunt merely, and there was nothing whatever significant in their presence in London at this time.

The opinion of City Solicitor Meredith backs up the opinion of Commissioner Pocock, wh raised the point, and opens the way for negotiations between the water commissioners and the company for joint ducts. Mayor Beattie would make no statement when seen by The Advertiser to-
