New Building Needed. "For the past few years," said Dr.

Braithwaite, "greater stress has been laid on the medical department of the

university than on the arts. This was done so that the medical school could recent decisions in British and Can-be put into a condition second to none adian courts, Mr. Glaubitz will have a in the Dominion, in a limited way. A splendid laboratory has been fitted out and now the only thing needed is a new building. The students coming have increased with the years, and it is necessary that larger quarters be prepared for them. A campaign has been startgretted having to leave under unfor-tunate circumstances, when many citi-appeal to all in this audience to further the efforts of those connected with this work, and to enlist the aid of all others

you know or may come into contact

"The further development of the arts' department has now been started with. Our one great goal in view is the securing from the Department of Education the same recognition as arts de-partments of other universities receive. I tell you that for all purposes we will have available during the next year the sum of \$75,000. With this money we shall be enabled to do wonderful things. We are not willing to occupy a subor-dinate place in this country as a seat of learning. We must be at the very forefront and we have reasonable justi-fication for the belief that soon this are situated in the best part of Ontario. There is no place in Canada, really, where there are more students looking forward to a university education. The numerous high schools and collegiate institutes in and around our city are institutes in and around our city are
