

EXPECT TO RESUME WORK IN COAL MINES IN FEW DAYS

COAL STRIKE ENDS, MINERS TO RETURN TO PITS NEXT WEEK

United Mine Workers Accept "Peace Program" of Governor Pinchot.

MEANS COMPROMISE

Special to The Advertiser. Harrisburg, Sept. 8.—Backed down from their original position the United Mine Workers of America Friday afternoon, accepted the "peace program" of Governor Gifford Pinchot, of Pennsylvania, ending the strike of 155,000 anthracite miners.

The union agreed to accept a 10 per cent wage increase for all men in the industry, abandon their demand for the "check-off" and closed shop, and to enter into immediate negotiations with the operators with a view of signing a new wage and working contract.

Governor Pinchot's first action, at a night meeting of the miners and operators, was an effort to have Lewis order the miners back to the pits at once.

It was expected Lewis would agree to this.

Such action would take from three to four days.

Lewis, it was learned, is in favor of keeping the men on strike until a final agreement has been signed with the operators. It is believed the governor would prevail, however, and that the miners would be back at the mines some time next week.

The miners made their acceptance at a 20-minute meeting in Governor Pinchot's office, following a two and a half-hour conference between Lewis and the scale committee from the fields.

The miners committee, it is understood, told the union president, John L. Lewis, that the miners would "not stand for a fight on the check-off" or closed shop demand of the union leader.

"It is with great satisfaction that I am authorized to state that both sides have accepted the four points of my settlement proposal, as interpreted by me," Governor Pinchot said in making the announcement.

The miners and operators will return to their offices Friday night, and the final negotiations will be made.

The governor said he did not expect "a single hitch in this program."

BELIEVES ESTIMATES COULD BE READY NOV. 1

Mayor Wenige Considers the School Board Could Submit Figures at Earlier Date.

There is absolutely no legitimate reason why the members of the school board cannot submit their estimates by November 1, as requested by the city council, Mayor Wenige declared today.

The opinion had been voiced in board of education circles that regulations existed to prevent the compilation of school estimates before February.

"That means not later than February," explains the mayor. "But that does not necessarily follow that they cannot have them ready before that date if they are so disposed. If they can have their estimates ready by February 1, they can have them ready on that date, they can have them by November 1. The other spending bodies are going to co-operate with the city council in this connection this year."

"There is no reason why the school authorities should wait until next year. It is my understanding that their estimates must be in by February, but there is nothing to prevent their submission at an early date. It is just light weights and measures. The law states that a quart shall be at least a quart. It is nothing to prevent the dealer throwing in another handful of his commodity if he is so disposed. We seek cooperation on all sides this year."

400 PARTICIPATE IN 1ST REHEARSAL OF FAIR PAGEANT

Great Spectacle Will Be Produced on Friday and Saturday Next.

COSTUMES ARRIVE

The first rehearsal including all of the 400 participants in the monster pageant of Fair week was held last night at Hyman Hall. Previous rehearsals, when the different episodes were practiced separately, have been held every day for the past few weeks, but last night for the first time the pageant was pieced together and a general rehearsal held.

Many enthusiastic members of the Y. W. C. A., the city playgrounds and other organizations crowded the hall eager to take their part in the forthcoming pageant to be presented to Londoners in front of the Western Fair grandstand for the last two days of Fair week.

If the enthusiasm shown at last night's rehearsal heralds the success of the monster pageant, it will be one of the greatest spectacles ever seen in this district.

According to Merle Ward, pageant producer and director, great enthusiasm has been shown by all of the 400 people taking part. Many of the cast of the great pageant have had previous experience in amateur theatricals, and the cast includes some of the most experienced elocutionists and dancers in the city.

Miss Sybil Hignam, taking the part of Miss London, is a graduated pupil in elocution of Miss Gwendolyn Antheist. Miss Jean Walker, in the role of the pioneer woman, is a well-known reader and entertainer, and the workers in the field would "not stand for a fight on the check-off" or closed shop demand of the union leader.

Price is to star in the feature dances, and together with her pupils of the Y. W. C. A., will put on several exhibitions of national dancing. Miss Edna Holland is to enact the important part of Miss Canada.

The pageant, which is being personally directed by the Rogers Producing Company, Ohio, will be staged Friday and Saturday of Fair week on a specially-prepared platform at the fair grounds. Elaborate costumes for all those taking part arrived in the city this morning, and will be used in this afternoon's rehearsal at Queen's Park.

Associated Press Despatch. Honolulu, Sept. 7.—According to radio advice received here today by the Hawaii Shinto, a Japanese language paper, the emperor and empress have accepted the invitation to Tokyo, but to go to Kyoto to reside temporarily. The prince regent also will go to Kyoto.

The Tokoku Railway, operating between Tokyo and Sendai, resumed operations on September 5, and every train is crowded with refugees.

EMPEROR OF JAPAN PLANS MOVE TO RESIDE IN KYOTO

Associated Press Despatch. Montreal, Sept. 8.—George C. Sparrow of Montreal, was unanimously elected president of the Motion Picture Theatre Owners Association of America at the convention held here yesterday.

The Ontario directors are: Harry Alexander and Messrs. Giesler, Toronto; F. Gues, Hamilton; Mayor Cooper, Huntsville; Mr. Coplan, Ottawa.

ELECT G. SPARROW HEAD OF MOVIE OWNERS' SOCIETY

Canadian Press Despatch. Winnipeg, Sept. 8.—Fire early this morning caused a loss estimated between \$50,000 and \$75,000 to the stock and warehouse building of the Dominion Metal Export Company.

Winnipeg, Sept. 8.—A new industrial area is to be created in the outskirts of Manchester. The city's plan is to mark out nearly 5,000 acres abutting on the ship canal.

WILL CANOE TO MOOSE FACTORY. Right, top to bottom, Col. Cockshutt, Geo. M. Lee, chairman of the Temiskaming and North Ontario Railway, and Rev. Canon H. J. Cody, former minister of education for Ontario.

LETTER FROM GERMANY COSTS MUCH POSTAGE

Coal Valued at 750,000 Marks Per Cwt., and Umbrella at 3,000,000.

With German marks at par, the cost of sending a letter from Germany to this city would be nearly \$700.

W. A. Bleuthner, prominent local musician, several weeks ago received an unexpected letter from an unknown niece in Germany. The letter had a \$90 stamp on it. Yesterday another letter arrived from his niece, Miss Kathleen Bleuthner, and the missive bore a 4,500-mark stamp, representing about six cents in Canadian currency. At par the 4,500-mark stamp would be worth about \$700. Before the war, this amount would have been sufficient to send 100,000 letters.

The letter was written in two parts. One was dated August 9, and in it Miss Bleuthner stated that she had been bought in Germany by the hundredweight for 175,000 marks. According to Miss Bleuthner an umbrella is worth the small sum of three million marks.

The second part of the letter was written nine days later, and the price of a hundred of gold had in nine days gone from 175,000 marks to 750,000 marks. Several of them are entirely new to London and will repay you in seeing the hundredweight for 175,000 marks. The letter was written in two parts. One was dated August 9, and in it Miss Bleuthner stated that she had been bought in Germany by the hundredweight for 175,000 marks. According to Miss Bleuthner an umbrella is worth the small sum of three million marks.

BRITAIN TO PERMIT CANADIAN CATTLE UNDER CONDITIONS

Sir Robert Sanders, at Bridgewater, Tells of Consideration of Reciprocal Terms.

PEDIGREED STOCK

Associated Press Despatch. London, Sept. 8.—Sir Robert Sanders, minister of agriculture, speaking at Bridgewater yesterday, said that Sir Arthur Griffith-Boscawen, former minister of agriculture, with the government's confirmation, had promised the Canadians that in connection with the lifting of the embargo against Canadian cattle order should be made for the necessary veterinary regulations.

Regarding the consent of certain leading agriculturists to the strong objections of these to the admission of breeding cattle some of them urging the present government to repudiate the promise but the government could not do that.

The Canadians wished it, however, the government was prepared to introduce a bill allowing the admission of pedigree breeding stock on reciprocal terms between Great Britain and the dominions, the minister said, the admission to be subject to the necessary veterinary regulations.

This course, he added, had the concurrence of the agricultural committee of the House of Commons, the chairman of the Farmers' Union and other leading agriculturists.

Winnipeg, Sept. 8.—The All-Canadian Child Welfare conference will open here next Tuesday, when every division of child welfare will be discussed by some of Canada's most outstanding workers in the various fields.

If found advisable the council will likely decide on the best methods of encouraging the introduction of thoroughly organized apprenticeship systems within the various industries as one of the best means of overcoming many of the evils of child labor, it is stated.

The feasibility of agricultural schools in the country with a formal apprenticeship of two years or so, at farm work, subsequent to place in a farm home, and ultimate taking up of land by the boy himself will also form a topic at the conference.
