### New Posts for City Teachers

Trustees Make Radical Rear rangement of the Staffs

rangement of the Staffs
of Last Term.

And Continue the Services of
Those Unfortunate at Recent Examination.

The grain details of the proposed James Bay med flat reclamation. The meeting last evening to discuss with Mr. Henry Interest the points brought up for review were of minor importance, in fact meety matters of detail. The first item mentioned was the point of rock at the southeast end of the bridge, or as the local house had some years ago passed an act transfering the entire force of the proposed improvements wished to know whether if the hotel at least second-class certificates, lost their billets through not passing successfully the mid-summer examination. The matter was of easy settlement.

Next the promoter of the proposed improvements wished to know whether if the hotel at least second-class certificates, lost their billets through not passing successfully the mid-summer examination. The matter was considered on motion of Trustee Marchant in committee of the whole, with Trustee Hall in the chiar after the regular business of the meeting was disposed of. Tho result of the secret session was to re-install the teachers for the present term, and to make the following assignments to the sorteless that had a conversation with the class in store from the score that can be a first per large to the proposed in the class of the meeting was that no trouble would be one source of the secret session was to re-install. The question of a fifty-year lease was next taken up—there being some doubt as necessary to the case of the meeting was that no trouble would be experienced in adjusting this detail.

The question of a fifty-year lease was next taken up—there being some doubt as necessary was not re-install the teachers for the present term, and to the control of the meeting was that no trouble would be experienced in adjusting this detail.

The questi

There was little general interest be the evening. Mr. W. W. Northcott forwarded copies of directions for life-saving in cases of drowning, which were eived with thanks, and discussed at length by Trustee Marchant.

City Clerk Dowler, in answer to the board's request that a sidewalk be laid

engineer.
Miss Laura Tingley and Miss L. Anderson applied for positions as pupil-teachers, both being graduates of the Victoria High school and holders of firstclass B certificates. Their applications

The finance committee recommended the payment of accounts amounting to \$1,973.77, which were passed. Just before going into committee of the whole to discuss the status of the teach ers, Chairman McMicking brought up the recommendation of the city school superintendent regarding the High school. This was contained in a report resented to the board in July, and was

"That the efficiency of the High school is very greatly injured by the lack of suitable direction and recognition on the part of the council of public instruction. "There is no authorized course of study be given, limiting the choice of pupils in the selection of their studies, and leading up to an appropriate leaving certificate. The consequence is a multiplication of students that over-taxes the teaching r sources of the school, and renders defin ness of aim and consistency of organiza-tion and instruction impossible.

"In particular, separate classes must be formed for pupils qualifying for teachers' certificates, because the department does not recognize its own examinations of the High school as of any service in deter ing the scholarship of candidates for such certificates. In other provinces, as I have previously pointed out, the prescribed High school course and the examinations the teachers' certificates are awarded.'

The Chairman thought that sor thing of the kind might be embodied in a resolution of the board, to be forwarded to the council of public instruction.

Trustee Hall, however, asked that it be left in the hands of the school man-agement committee, which course was taken, after Trustees Marchant and Mrs. William Grant expressed themselves as heartily approving of the suggestions.

Trustee McCandless reported that the extra seating accommodation for Spring Ridge and Kingston Street schools had been all assessments.

Mayor and Aldermen Discuss Details of the Work With

the Promoter. The Board of Works, which is another me for the city council in its capacity gressing as smoothly as under the of committee of the whole, held a meeting and the fears of those who imagined that last evening to discuss with Mr. Henry on the 17th of July, when we passed under

worship explained, gave the corporation power to lease its property for a period of five years, but he had had a conversation with Hon. Mr. Cotton, who had stated that the question could be readily disposed of by a special act as soon as the house met.

This explanation was accepted as satisfact.

removal. Nothing definite was decided on this head except that the mayor stipulated that a clause should be inserted in the lease

mark by Mr. Crose that the permisbe commenced, caused a general laugh and the reply from one of the aldermen that the government would be glad enough to give that. The mayor said in answer to a this ken, and the mayor of the city, with question, that the city would expect the this purpose in view, have just issued in-

into the head of the bay.

The last item on the list was the matter bridge and also a strip on each side to the full width of government street from end to end of the proposed new viaduct. This will necessitate another application to Ottawa, and although a somewhat similar request has, according to Mayor Redfern, been made, it was thought that obtaining the assent of the authorities to the transfer of this portion of the bottom of the bay would be materially facilitated and accelerated when a plan of the new embank-

ment was sent. There being nothing further at present for discussion in connection with his scheme, Mr. Croft withdrew and the meet-ing adjourned.

apt. Richardson of U. S. Lighthouse Tender Paying Victoria One of His Periodical Calls.

The United States lighthouse tender Columbine, in command of Capt. Charles Richardson, is in port, having arrived from the Sound yesterday morning. She is on one of her regular visits to the lighthouses in American waters, and to-day will leave for Blaine. Capt. Richardson, when the state of the stat

FOREIGNERS IN JAPAN. Annovances to Which They May Be Subjected Under New Treaties

with Hon. Mr. Cotton, who had stated that the question could be readily disposed of by a special act as soon as the house met. This explanation was accepted as satisfactory, and the board passed on to the matter of expropriating the property to the north of the flats.

This strip of real estate is with improvements at present assessed at about \$63,000, but it was thought that a much larger amount would be required to purchase the property and pay consequential damages, that is, to recoup the present owners for the trouble and loss caused by the enforced removal. Nothing definite was decided on aroused general comment, as well as a great deal of fun, among the foreign community in all parts of the country. Mingled with the fun, however, there is much indignant and caustic criticism, actually the fundament of \$250,000.

These Klondikers assert that about all granting property owners in the to-be-ex-propriated territory ample time to build new premises elsewhere and to remove beginning of the petty troubles which are beginning of the petty troubles which are to make the foreigner's life miserable. On the other hand, the earnest desire of the heads of the government to avoid friction is manifest in many eager and suc-cessful attempts on their part to bring the foreign elements into close and cordial relations with the natives. The governor of question, that the city would expect the new owners to build a culvert to carry off the waters of the little stream that flows sions of the turning over of the foreign concessions to Japanese control, formal ceremonies were held and speeches made, in which the most friendly sentiment pre-vailed on both sides. All things consider-

goods should only be Victoria to Skagway in This brought up the can steamers to navigat between the Sound and pointing out that Cana required to call at Alaska and take on who remained with th paid by the company al sel was in American other hand, American through Canadian wat officer, and sold liquor they were in American out, which if enforced Americans to time. requiring the inspect upon its entry into Car could be stationed at authority tos open ever can fruit bound for t would more than Canadian fruit at Skas The discussion led the moan the fact that an a to the Yukon had not Messrs. Ker and Leis ed a committee to mak to Ottawa in respect t American officials at Sigest a remedy.

The C. P. N. Co., in

transportation facilities route, stated that they service that met with the travelling public. This led Mr. Challes some length on the nec ing the service on all Victoria, including the Westminster, West an Northern routes. Wit he believed the trade could be greatly increase suggestions was that t should be extended ri wharf, another that a built at Oak Bay, we could be landed from steamer, and thus save the Northern route, he faster steamers would on to compete with the running to the Sound. bor scheme was touched
