GRAPHIC CONTEST STILL INTERESTING

Mrs. Killam Still Has Good Lead. Bad Weather Interferes.

The extremely disagreeable weather of this week has prevented the workers from rolling up big scores, but Mrs. Killam still has a good lead.

There is practically only two weeks for the contest to run and we look for a whirlwind finish. Both contestants are active and have numerous friends who are helping and it would not be surprising if at the last moment there is a keen fight for the prize.

The Graphic's circulation has very naturally increased during the contest and our town circulation is now nearly as great as the entire circulation, both local and foreign, of our local contemporary. Merchants should make contracts for space at once as we most certainly will increase our advertising rates when this contest is over.

The standing to Thursday evening was:

Mrs. Wm. Killam 68,750
Mrs. J. Hugh O'Keefe 46,813

Subscribers remitting direct should mark a coupon for one of the contestants.

BASEBALL NOTES AND JOTTINGS

Only one league game was played this week, the I. C. R. and Firemen pulling off one of their postponed games on Wednesday evening. Coming from the bawl yard that evening one heard all kinds of opinions expressed as to the encounter. A look at the score card provided below will allow you, gentle reader to form your own opinion, depending largely from which side of the fence you view the contest.

Long experience with the hose made the firemen feel at home in the sloppy going and no doubt helped them to extinguish the railway boys who are accustomed to the feel of hardwood floors and cement platforms under their feet. The three hits the firemen got off Shirley did not account for the heavy scoring which was due more than anything else to the poor support given by infielders. Ahead in the first and again in the third had the good fortune to make the circuit. Taps which should never have gone beyond infield were badly stopped and when the ball was located it was hurled with whirlwind force either in the direction of the Sugarloaf Dalhousie or the Mission.

The FEATURE of the evening was a brilliant catch by Mersereau of a foul fly from May's bat in the third inning. Hurling his mask from him he called for a telescope and was able to spy the ball on its way heavenwards. Having lots of time to negotiate the mud behind the plate he prostrated himself on his back with his feet in the air and captured the pill before it returned to mother earth for which coup he was awarded rousing applause from the vast assembly. Umpire J. Moore called the game on account of darkness after the first half of the fourth innings.
