ALEXANDER & FERGUSSON MEMBERS OF TORONTO STOCK EXCHANGE Investments procured. Stocks ought and sold on Commission.

BANK OF COMMERCE B'LD'G J.J.Dixon & Co.received the following to-day from Counselman & Day of Chicago: The leading speculative feature closed nearly 2 cents advance with an active demand from shorts, the bear element who stopped late decline and have ever since worked for a sharp advance, seem about satisfied with this 6 cent upturn and outside demand will hereafter need to be unusually strong to absorb their offerings above this point. Bradistreet's reported decrease of only 100,000 bushels element of the contraging to higher prices. Corn and oats were bid up sharply by receivers and shippers, who sold heavily after short interest was liquidated and closings weak. Provisions were higher early, advance being worked by packers' purchases against previous sales. As soon, however, as any demand appeared from any other source packers tresold and left market at close rather weak in tone, at last night's quotations.

new short interest was created at the advance by some of the local traders working on the theory that the advances had been too rapid. There were also some stocks put out on the idea that the Bank of England rate would be advanced tomorrow. This fact seems very likely, but having been generally anticipated we do not expect it to have much effect. We also noticed to-day a slight increase in outside orders and believe a continuance of the present firm market probable.

JOHN J. DIXON & CO BROKERS Canada Life Assurance Building. Orders execut ed on the New York Stock Exchange and the Chicago Board of Trade. Exclusive leased wires direct to New York and Chicago. Correspondence invited. Telephone 2212.

Correspondence invited. Telephone 2212.

Drummond & Brown received the following to-day over their private wire from Lamontagne, Clarke & Co. of New York: Market opened better and has shown a strong reactionary tendency all day. The foreign situation has cleared for the better during the day, the natural reaction having set in and prices at all the Continental exchanges being better. There was \$2,250,000 in gold ordered, but as money was distinctly easier here it had little effect. We think the market a purchase for a further advance at the closing prices. Private cables to houses here brought buying orders, and in the absence of the offerings of stock the list responded easily. Discount in London was up to 5 per cent, however, and there seems a possibility of an advance in the Bank of England rate to-morrow, although some cables late in the day announced there would be no chance. The foreign outlook is not good yet and we should advise caution in buying for the time being, except for a turn. The ultimate outlook is good, however, and purchases on all weak spots will pay in the end. Money 3 per cent.
