## HANNA TROPHY CONTEST

The competition in the Hanna Trophy Contest for the best four acres of corn in Lambton county was much more keenly contested this year than a few years previously. There were sixty entries in the competition, many fine fields were in evidence. The early frost on August 17th did considerable damage and is responsible for greatly lessening the amount of corn that will be fit for seed this coming spring.

Seed corn will be very scarce and high in price this coming spring. There are no supplies of seed corn being held over from last season. Two short seasons for corn, and the scarcity and the high price of feed has resulted in a shortage of seed corn on hand.

All farmers should prepare at once for next season's planting. Insure a good crop and increased production by selecting your seed corn now. See that it is properly dried before the heavy frost sets in. Corn has a great deal of moisture in this season. Heavy frost may damage the germ. Select your seed corn now and see that it is properly dried before heavy frosts. Better to use artificial heat, supplied very gradually.

The result of the Hanna Trophy Contest is as follows:

1—James Hand, Alvinston, score 87, Golden Glow.  
2—Stewart McDonald, Port Lambton, 85, Bailey.

3—Francis Oke, Alvinston, 84, Golden Glow.

4—Harry Sheller, Port Lambton, 82, Wisconsin No. 7.

5—Wesley Ford, Corunna, 80, White Cap Yellow Dent.

6—Adam Kent, Forest, 79, Cloud's Early.

7—James B. Abra, Corunna, 78, White Cap Yellow Dent.

8—Dan. Wright, Petrolia, 77, White Cap Yellow Dent.

9—John Walsh, Mooretown, 76½, Golden Glow.

10—Robert Currie, Florence, 76, Wisconsin No. 7.

## NEW HEALTH FOR WOMEN

The most fateful years in a woman's life are those between forty-five and fifty. Many of the sex enter this period, under depressing conditions through overwork or worry about the home, or through a condition in which the blood is weak or watery and so they suffer heavily. Among the commonest symptoms are headache, feverish flushes, palpitation of the heart, dizziness, backache, depression and other well recognized disturbances of the health which signalizes that the blood requires attention. Women urgently need more, red blood all their lives, but never more so than in middle life, when the nerves are also weak and overwrought.

Now every woman can prove the prompt help afforded to her health by renewing and building up the blood. It is a test that any ailing woman can make by taking Dr. Williams' Pink Pills, for these pills make rich, red blood, which in turn stimulates the appetite, strengthens the nerves, and restores full robust health. Thousands of women have found in Dr. Williams' Pink Pills new health and strength and with these a new happiness and interest in life.

So if you suffer, avail yourself at once of the splendid home treatment which Dr. Williams' Pink Pills so easily afford, and you will be among those who rejoice in regained health. These pills are sold by all dealers in medicine, or may be had by mail at 50 cents a box or six boxes for \$2.50 by writing the Dr. Williams' Medicine Co., Brockville, Ont.

## Baptist Rally

The annual rally of the B. Y. P. U., of Lambton and Middlesex counties was held in the Forest Baptist church, Thanksgiving Day. There was a splendid attendance 162 delegates from outside places registering. The program in the afternoon opened by devotional song service, with John Kedwell editor of the Ailsa Craig Banner, followed by an address of welcome by Rev. H. E. Green, of Forest, to which Rev. C. E. Hucker, of Sarnia, replied. A splendid address was given by Rev. H. H. Bingham, of London, other interesting speakers being Rev. Jos. Yule, Petrolia, on "The Manhood of the Master," Rev. A. J. Loveday, Inwood, on "The Life Story of a Leper," and Miss G. Newberry, of London, on "African Adventures." In the evening the devotional song service was with Wm. Dowling, Petrolia, and two excellent addresses were given, "Drifting or Driving, which?" by Rev. Thos. Wear, of Woodstock, and Rev. L. Brown, Brantford, speaking on "Making the Miracle possible today."—Forest & Free Press.
